Well our next CME probably began arriving a couple hours or so ago. About 13 utc. Happy Daylight savings time to some of you. I forgot to set my clocks ahead last night. So I got an extra hour of much needed sleep.

[\[link to www.swpc.noaa.gov\]](http://www.swpc.noaa.gov) bz just starting to drop. Protons so far only a bit above 10. not impressive but we will have to watch to see if it gets more impressive or not. The size of a CME doesn't have much to do necessarily with the flare it may have originated from. spaceweather suggests it will not be impressive, and they are often wrong. I did not look on stereo a or b with this one that is coming in, so I don't have an opinion as to its potential size.

Ok I just went to stereo for that day, there are no ahead images during the time frame, the behind images show a small CME.

Nip, have you seen that there is almost an hour of missing seismic data in the us graphs for 9-10am this morning?

Also, I am unable to load up the usgs seismic pages.....

well the next cme arrived about 9 utc, and much bigger than the previous one. Protons going to about 47+with a huge spike after 10 utc. maybe that has something to do with the leg pain that woke me a bit early this morning.

[[link to www.swpc.noaa.gov](http://www.swpc.noaa.gov)] there is missing data, during the spike, so who knows what that went too. bz dropped out to about -20 visually here.

AE index on nict to about 1500 more than that here [[link to wdc.kugi.kyoto-u.ac.jp](http://wdc.kugi.kyoto-u.ac.jp)] which is the one I trust more. Don't know why the AE index on Nict has been so mucked the last couple days with long periods of data seemingly removed after being there initially.

record on [[link to umtof.umd.edu](http://umtof.umd.edu)] (soho) matches pretty much with ace.

so far kp to 6. pretty nice storm. nice magnetic reconnection on the back side of earth, right down to the nice red heart. [[link to www2.nict.go.jp](http://www2.nict.go.jp)]

well a little comment, which I can't remember if I put it into this thread or not,, Alaska has steadily increase in quakes since the several years ago I began to watch it, probably 2004 or so. Back then the 7 day average was running 125 or so. then it began to climb, running in the 200's and it rarely drops under 300 now. And now as of a few weeks ago, I am seeing it go above 400, which it did a week or more ago, and is again. Right now its 444 going over 400 again yesterday or day before.

Its acting up offshore Japan today, with one quake just east of Tokyo that I assume may have been noticed, it was 5.7. 6+ quakes further north on that fracture each of northern Honshu. California is climbing again this morning, but count wise except there there are big clusters there, I think they remain sort of the same range over many years.

Magnetosphere quiet this morning. bz has been almost continuously negative for the last 24 hours, actually for the last 48.

regards quake comments above, also USGS used to put all quakes 4+ in bold black. AND listed them on there 4+ map, [[link to earthquake.usgs.gov](http://earthquake.usgs.gov)] not only the 4.5 + are on that map. Considering this change, there would be abut 33 more quakes on that than show right now. 242 is the count right now, it would be 275. so goes the deception. But several years ago, getting to be more than several now, the weekly total was around 125 most of the time there. steadily climbing has been going on.

well the next cme arrived with quite a wind gust, so much so I wonder if its the big coronal hole with it. have to observe longer. NICT is not loading, and often had deleted data lately,, so I don't know what's going on with it. wind jumped to 800 range, now about 750. Protons only slightly up and nearly back to 1 to 3 range. [[link to www.swpc.noaa.gov](http://www.swpc.noaa.gov)]

covered here too [[link to umtof.umd.edu](http://umtof.umd.edu)] not much density on ACE data page, [[link to www.swpc.noaa.gov](http://www.swpc.noaa.gov)]

SOHO may have picked up more density, because its not always matched up with ACE satellite and it depends where in their respective halo orbits they are what is detected.

This is making Huge Ingress though, lookie here. [[link to wdc.kugi.kyoto-u.ac.jp](http://wdc.kugi.kyoto-u.ac.jp)]

and looky here on haarp too. [[link to www.haarp.alaska.edu](http://www.haarp.alaska.edu)] This may hurt a bit, and I suddenly

didn't feel so good about an hour after I got up and went back to bed a bit, and was wondering if the cme came in. I just remembered to check, which is why I am posting here.

I wondered once if maybe the sensors were off on this one, because other buoys in event mode don't move that much, not even the one off western Mexico today that might be related to the quake.

But off or not, this has been going on for days now and the CHANGE of it dropping out concerns me, but I admit I don't know much on such stuff.

by the way, yesterday was not the first day of spring, we hit equinox nearly 2 weeks ago. sun is well north of where it should be if yesterday was equinox. I think this spring equinox location of the sun is a bit north of what it was in fall equinox, indicating perhaps a bit of axis shifting again.

sun quiet.

yesterday fleet rocked the earth, or better said adjusted it. (monday) Equinox was very early and also a bit north of equinox last sept. the sun is moving very fast north, so the tilt was changed, and this morning the sun came up quite a bit south of where it rose Saturday. I wasn't up during rise on Easter. This stuff always makes me suddenly ill, I mean suddenly. Massive headache, nausea and some vertigo, just boom.

This was not a "gentle" event.

well, after the adjustment on Monday of the axis and tilt, we apparently have some earth movement. I woke the big quakes on CNN. I went to eIQ's thread first here where someone mentioned rsoe and a rogue wave off new zealand and the buoys show 150 meters of movement of southern new zealand. at this time the other 12 buoys are moving only a little bit.

This is a rather large area of involvement, I am a bit concerned.

This cluster of quakes in the region are not on any known or at least marked faultlines which is interesting.

usgs is leaving off a bunch of quakes again, I may list them, maybe not.

we also got a cme starting around 3 utc [[link to www.swpc.noaa.gov](http://www.swpc.noaa.gov)]

this did not generate much negative bz though. protons got up to about 20 on average, with a few higher bursts, in one case to 60+

usgs leaving off a whole bunch of bay of Bengal quakes today, some over 6+ . This is far more widespread that it looks. I may or may not make a list.

Ok Bay of Bengal quakes left off, which are considerably north of the area hit by the 8+s Then a list of lots of others left off USGS. There are also quakes in the wide region of the 8's that are not covered but I have no patience left to list those, too much back and forth. But there is coverup here. This was quite a BROAD area hit, which is not on fault lines given as public anyway.

[\[link to www.emsc-csem.org\]](http://www.emsc-csem.org) and there are quakes on RSOE not on csem. too much effort to chase them.

Bay of Bengal first. Which is up closer to the southern asian continent.

There was a 3.9 off California when I laid down for a nap and its gone. It was just above where the SA fault line enters California.

apparently earlier today that was a large quake in the Hudson bay removed too.

The quake off Oregon measured as much as 7+ on some drums.

I maybe update the post of above, more MISSING stuff.

well there are for the last week now 12 RED quakes. But some soon to drop off, those 8+. 3 today however so far. I have not seen this many since before the solar min started. I remember back in 2006 maybe, I was working with Monjoronson quite a bit, and he said we would start averaging a RED a week, and it was not long after we had a lot of activity and I remember one week where it hit 12. then the solar min, and the activity dropped quite a bit. The sun is still not all the active, considering its supposed to the max I think this year or so. Imagine what this would be like if it was now. We have had once in a great while 6 or more, but the dozen is the most I remember for sure.

going to watch the difference in quakes today, already a bunch, even last night, in the early UTC april 21 day, lots of them not on usgs. to this post is for UTC april 21. LOVELY spring day here, was 55 already when I got up at 6 am. I meant to note Where the sun came up, did sungaze a few minutes but did not pay attention to the actual rise place, to watch the northward march.

well at 2+ utc, we got a proton blast, medium size, 30+ protons for a bit, maybe passage on CME. Maybe not. looks like bz drop to about 15. they call these geomagnetic impulses.

here is the haarp evidence of the solar storm yesterday. its amazing how since NICT has been down,, there are not OMG its white on nick threads anymore. Maybe that's a good thing. I found a thread today and posted in it,, about somebody wondering why nict is not updating.

well its a great day to skip reporting quakes again on usgs. And with the large solar storm yesterday there will probably be more soon. I do not track these every day, so don't assume because I have not posted there were not missing quakes. there are always a few.

Ok done for UTC April 24. 18 not posted 4+ again usgs CLAIMS they post all the 2.5+ I am not going to post the ones they do not from euro med area.

we have this today. [[link to wdc.kugi.kyoto-u.ac.jp](http://wdc.kugi.kyoto-u.ac.jp)] showing ingressing storm. The wind went up, the protons did NOT, we do not have a coronal hole either. Something is strange. Perhaps the last of the 3 cme's, but again the protons do not match the wind.

temperature is HIGH. Haarp induction magnetometer is having "fun" [[link to www.haarp.alaska.edu](http://www.haarp.alaska.edu)]

[[link to www.haarp.alaska.edu](http://www.haarp.alaska.edu)] the strangeness of last evening continues. still fairly high solar wind 600 to 675 without a coronal hole on the face of the sun recently.

shortly after I got up, felt fine but a bit sluggish, while fixing breakfast hit with SUDDEN nausea, wanting even to vomit. turned of the pan and laid down 15 minutes or so, got up ate, and went back to bed for over an hour. Mostly gone now finally. Johan had it too and so did some other folks on my forum, not necessary nausea but not feeling well suddenly.

unreported quakes again of course, but no mood to document them. UGH

This strange solar wind storm is now touching on 800 "gusts" temp is returning to high levels of yesterday.

[\[link to www.swpc.noaa.gov\]](http://www.swpc.noaa.gov) electrons high (and hot maybe) wondering if this has anything to do with the WAVE?

sure is playing with the magnetometers too:

[\[link to wdc.kugi.kyoto-u.ac.jp\]](http://wdc.kugi.kyoto-u.ac.jp) also the 8 utc surge, suggest fleet provided a dose of protons inside the magnetosphere. without the graph on NIct I am not sure and didn't ask.

I am feeling more than "worried" there will be a bigger event this weekend. the ears are off the rocker this morning. Both wave noise, other earth noise. Wondering if the 4.1 downgraded to 3.8 in a volatile area in S. California is a warning.

5.1 in Sicily and 4.9 in timor, indonesia ignored too. but so far a "quieter" day than recently.

(I started this thread when it looked like the 2nd cme was arriving after that series of x and m flares that had CME;s with them. It was not impressive, the 2nd one. I have decided to keep this thread for my regular notes about what is happening since, and Have renamed it appropriately.

This list contains all earthquakes with magnitude greater than 2.5 located by the USGS and contributing networks in the last week (168 hours). Magnitudes 4.5 and above are in bold font. Magnitudes 6 and above are in red. (Some early events may be obscured by later ones on the maps.)

The most recent earthquakes are at the top of the list. Times are in Coordinated Universal Time (UTC). Click on the word "map" to see a ten-degree tall map displaying the earthquake. Click on an event's "DATE" to get a detailed report.

This is what is currently stated, and they don't even put up 2.5 quakes outside the US of A. Years ago they put all quakes 4+ outside the us of a on there, and then changed it to 4.5 a couple years ago maybe so quakes could be hidden, although many 4+ are included.

well first, we got a little activity off the sun, and the bz has actually been negative about 90% or more of the time for a week now.

Now missing quakes today, a bit more than average. I am headachy and do not feel well this morning, body buzzing and wave has small amount of vibration going in the floors/bottom of my house. Nausea and some vertigo also.

So anyway, on with the quakes to distract me at the moment. reminder this is for all of UTC May 3,

EDIT, there have been more, not in the mood or time frame to complete the list.

well we got a shot of protons, and a tad of wind, maybe from fleet, maybe a tiny cme. Now declining, but the bz is down close to -10 now. The coronal hole is still coming, I am maybe starting to hear its wind, not sure yet, but the chest stuff continues. this is a huge coronal hole coming and if ti comes in while the bz is open, it might make a bigger effect, but also the magnetosphere might suddenly close up and make from of those balls we used to see on the now closed NICT. I will miss it. You CAN find the current pressure, in the absence of the pressure image here. [[link to www.swpc.noaa.gov](http://www.swpc.noaa.gov)] click on dial for the actual current figures. from www.spaceweather.com Something is really hurting my chest today, and its the "solar" feel for me. I think think that hole is going to arrive sooner than they say.

We have 2 short hits of protons wth a bit of wind today, one more since I posted above.

TWO INCOMING CMEs: A pair of solar eruptions on May 7th hurled coronal mass ejections (CMEs) toward Earth. Forecast tracks prepared by analysts at the Goddard Space Weather Lab suggests that clouds will arrive in succession on May 9th at 13:40 UT and May 10th at 07:54 UT (+/- 7 hours). The double impact could spark moderate geomagnetic storms. High-latitude sky watchers should be alert for auroras. Magnetic storm alerts: text, phone.

well we are getting stuff, this is rather untypical of a coronal hole to have the protons come in groups. holes are not high in proton content anyway. but its obvious here. [\[link to wdc.kugi.kyoto-u.ac.jp\]](http://wdc.kugi.kyoto-u.ac.jp) go back one day as this started late yesterday.

It is on haarp too and the goes satellite stuff.

well yesterday during the M5 flare, there was NO CME, and thus showing some that flares and cmes are not always shared events. this is from spaceweather:

Yesterday, May 10th, amateur astronomer David Maidment of Sohar, Oman caught the active region in mid-flare during a strong M5-class eruption:

(beautiful image, go to spaceweather.com to see it)

The blast, which almost crossed the threshold into X-territory, did not produce a significant coronal mass ejection (CME). "There seemed to be no CME due to the fact that the plasma was captured and dragged back down to the sun," notes Maidment.

magnetosphere quieting down. [[link to wdc.kugi.kyoto-u.ac.jp](http://wdc.kugi.kyoto-u.ac.jp)] go back 1 or 2 days to get an idea of how much of the coronal hole got inside the magnetosphere. Haarp is quieting down too.

People, Mark K is enemy, I do NOT want his work here. He went Cia. I know this because I know him, I met with personally over many lunches and attended early seminars. He was offered to work with Monjoronson, and he lost a huge amount of his money, on something stupid and went CIA and threw out everything UB.

Of course any quakes at this point COULD hit off the north and northwestern coast of the Us of A

I have his 3 books, the trilogy. Because he went CIA he had to totally change out his story in the 3rd one. Had he not invested his life savings in a SCAM, maybe he would have kept his integrity.

boy the sun is almost as quiet as during the min, not much sign of a max approaching still. blame it on fleet, like the destruction of a filament a few days ago before it rounded to the face of the sun.

We did get a small quicky CME yesterday, starting bout 1200 UTC May 28.. Protons to 17, small wind increase, protons still running 5 to 8 ish. not substantial ingress. [[link to wdc.kugi.kyoto-u.ac.jp](http://wdc.kugi.kyoto-u.ac.jp)] barely on haarp, so this is a wimp.

I see at the standard 2:03 Utc today, fleet blasted us with protons, a jump to 58, here since we can no longer see this on the defunct nict page.

there is a pretty good sized CME on Stereo A and B today that may be earth directed, it appeared there about 14 utc.

I just checked space weather to see if its mentioned yet. It is.

ANOTHER CME: On June 14th, for the second day in a row, sunspot AR1504 erupted and hurled a CME toward Earth. The fast-moving (1360 km/s) cloud is expected to hit our planet's magnetic field on June 16th at 14:00 UT, possibly sparking a geomagnetic storm. High-latitude sky watchers should be alert for auroras. Magnetic storm alerts: text, voice.

there is a pretty good sized CME on Stereo A and B today that may be earth directed, it appeared there about 14 utc.

I just checked space weather to see if its mentioned yet. It is.

ANOTHER CME: On June 14th, for the second day in a row, sunspot AR1504 erupted and hurled a CME toward Earth. The fast-moving (1360 km/s) cloud is expected to hit our planet's magnetic field on June 16th at 14:00 UT, possibly sparking a geomagnetic storm. High-latitude sky watchers should be alert for auroras. Magnetic storm alerts: text, voice.

2 LDEs are going to hit between the 16th and 18th, the last one more direct. Theres going to be alot of energy from these two. Can you imagine an Ide like these last two in the mid X range, long duration saturation with huge plasma envelope,hello Mr. Carrington

We have had x flares, LDE or not with SMALL CME's or NONE ejected. CMES often do accompany flares, but not always and we get massive CME's that have NO flare in their origin.

well a fairly good CME I think. protons to about 33, but the neg bz is not remarkable. Haarp shows small evidence of ingress, [[link to www.harp.alaska.edu](http://www.harp.alaska.edu)]

ae index is boring. [[link to wdc.kugi.kyoto-u.ac.jp](http://wdc.kugi.kyoto-u.ac.jp)]

Pressure currently 8.5 nPa [[link to www.swpc.noaa.gov](http://www.swpc.noaa.gov)]

Supposedly the kp is 6 and this is a g2 storm. I think that's a little over rated, because of only slightly -bz on ace at times and right now the bz is quite positive, around 10.

Neutron monitors showing good dip.

[\[link to neutronm.bartol.udel.edu\]](http://link.to/neutronm.bartol.udel.edu)

D rap is pretty good, [\[link to www.swpc.noaa.gov\]](http://link.to/www.swpc.noaa.gov)

elevated proton flux [\[link to www.n3kl.org\]](http://link.to/www.n3kl.org) causing d rap. This is interesting because this is not common during cmes yet there are no significant x ray flux [\[link to www.n3kl.org\]](http://link.to/www.n3kl.org)

Rather LARGE change on the GOES magnetometers. [\[link to www.n3kl.org\]](http://link.to/www.n3kl.org)

expected "electron suppression" with the storm. [\[link to www.n3kl.org\]](http://link.to/www.n3kl.org)

Strange on this proton flux though, ODD Hmmm, well I don't know what's up, because there is NOT much ingress with this storm. As seen on ACE for 24 hours, the bz is not very low. [\[link to www.swpc.noaa.gov\]](http://link.to/www.swpc.noaa.gov)

Right now, if we still had NICT, you would see the magnetosphere image, those red and blue lines, all rolled up in a ball because the bz is high. I can tell this from the current BATS R US images.

[\[link to ccmc.gsfc.nasa.gov\]](http://link.to/ccmc.gsfc.nasa.gov)

Without Nict, I have to use this [\[link to iswa.gsfc.nasa.gov:8080\]](http://link.to/iswa.gsfc.nasa.gov:8080) and I don't see a big magnetic reconnection on the dark side of earth.

well yesterdays CME was 2 distinct CME's, rather than a combination of 2 cme's as Nasa suggested. The 2nd one hit far more, regards the bz dropping out.

[\[link to www.swpc.noaa.gov\]](http://www.swpc.noaa.gov) This shows bz dropping to -20.

Showing good on haarp too. [\[link to www.haarp.alaska.edu\]](http://www.haarp.alaska.edu)

And the AE index. [ttp://wdc.kugi.kyoto-u.ac.jp/ae_realtime/today/today.html](http://wdc.kugi.kyoto-u.ac.jp/ae_realtime/today/today.html)

On the proton flux that went up yesterday, I still have no understanding why, since there is no x ray flux flare recorded, until there was one that didn't register on the instruments because of confusion with other stuff. [\[link to www.n3kl.org\]](http://www.n3kl.org) see proton flux there. and NO flares on the x ray flux.

Should be interesting the next couple of days,

Pretty cold here in Melbourne, went into the city today and the yarra river is quite high indeed, hopefully it washes the casino away just kidding!

Some very icy rain bands this weekend, clouds a deep blue and efinately carrying what could have been hail, very cool indeed.

Currently monitoring all news for Syria, seems like some kind of bs going to start soon, seeing the jet wreckage looked like a crock of shit also.....

There is no Nibiru here at this time, it was here 2000 years ago. not due for 1600 more but since we are ascending and moving its not going to hang around here again ever. We won't be on their radar in that sense. The solar system is being moved into an eternal energy stream.

Very interesting the new coronal hole, current picture showing quite a large area of perforated sunspots.

Chance for x flares up, but I could feel that coronal storm coming, on an emotional level it seems to be pulling at old sores and friction areas in peoples psyches great example of the macro and microcosm principle and again in full effect within reality.

Should be interesting to see earth reaction to this, I have a feeling the northern polar regions are tugging and pulling quite strongly now, as memory serve me well we are not far from polar reversal, interesting as Kibo brought this up in recent postings!

This is going to be quite a sight from the ground, last time I witnessed one of these we were in the pyramids controlling the shift and that was 12500 years ago.....

How's that for a headfuck lol! That was when we came out after the three days of darkness and unfortunately man had sunk back to what you would call caveman consciousness.....then the pyramids were ransacked and all the equipment ended up in bad hands after we left.....especially a piece from the record which the reptilians held for many years. My personal mission took me into this area, where we applied a synthetic piece to help restore the holodeck and to access the file corrupted by the split in consciousness. Many nights we did the work in etheral form, also many times into the vortices and time times to heal a lot of the rift in the planets energy body as well as kicking the darkones out from their conduits into space where they could no longer launch missions into deep space or access their weapons platforms around the planet and other planets within this and other solar systems, part and parcel as to why we are celebrating the end of their charade or shit, because we have control of space around Urantia, and now with the bases we have earth.

Kind Regards,

Brendan of Melquizedek.

Just doing the daily checks of EMSc, looks like we have some plate movement either occurring or about to occur through the Upper and minor Asia plate, two earthquakes in a bearily a direct line vertical on the map.

Will be keeping a watch on this as things tend to tug during CMEs.

And yes we do vent alot of the backside of the sun....theres alot of work being done between the new and the old sun guys, working on its orbital plain and the interaction between the two of them. Also alot of "sticthing" with beams of sunspots and coronal holes..

Hello dear readers of my material. Today is the last day of my paid membership on GLP. I have stopped supporting 4 other accounts here besides my own, because I cannot financially support GLP anymore. The main reason is the red thumb system, which is a terrible practice that allows people to PREY on paid members here, and that is NOT in alignment with God on a GodLike Forum. Not a good business decision either. Also a small issue with the bending of their own rules around the Copyright issues. If you have these rules you do not bend them in the manner I have observed, which has caused really good spiritual material to be disallowed that man needs desperately. It is however within GLP management to discern what they allow here.

I am not talking about the trash cia new age sites, I am talking about the much revered material brought to the planet that has gone well past that which Jesus provided. Peter Deunov and student being an example. I found out some truth on that one recently which was more or less a final button. I am happy to have had some support from SHR on my material and PJ material.

I have noticed a lot of traffic decrease here, far few threads and a loss of several here that are on my buddy list that find they cannot work here any more. The forum is going downhill. This is sad but management I think has a few lessons yet to learn.

I am wondrously thankful for the time spent here, and for those in support including 3 mods, Phenn, MO and SHR. I am happy to have had some support from SHR on AH and PJ material.

I am thankful for the 2 podcasts allowed to me and for 2342 efforts at such. But it is time to move on now. My own forum is demanding and I have expanded it, and I need to be amongst them more. I thank all of you here who have been so supportive of my efforts and contributed from

My Dearly Beloved Children of the Light,

I AM Papa Source as you like to call me.

It pleases me greatly to address you so close to the unification of your Beloved Planet whom you and My Creator Son Michael of Nebadon call Mother Earth, to the rest of the Galaxy. What was not possible before, much to our regret, is changing as we speak. Powerful lessons have been learned by THOSE WHO KNOW and a basis for much stronger and efficient leadership in the cycles ahead have been accomplished. In perfect cooperation and union with Me, Your Sovereign has taken his daring plan and allowed it to unfold against all odds.

If He has taught you anything, it is not to look at the odds, but to stay the course in rock solid knowledge and trust that Light will never be overcome due to its Essence, being the Building Stones of Everything. Appearances otherwise are but that, illusions and appearances and My Creator Son Christ Michael of Nebadon understood that perfectly well, and never waived nor stepped back.

The results already show, even though you are still " waiting " , I have no idea why, as Life must be LIVED and LIVING through the Supreme Intelligent Power is experiencing everything to the fullest, in alignment with THE WAY, THE TRUTH AND THE ETERNAL LIFE, remember ?

Be overjoyed you who are reading this text, what means you are in the knowing and on the path up and onwards, unless you are only reading to find holes in what I say and use it to your own advantage. To you I say : To no avail, My Child, have you tried all this time. To you I say again : To no avail, My Child, will you succeed ever again in finding fault in what is the Way, The Truth and Eternal Life.

So why keep running uphill, and fighting against My Creator Son when you already know, YOU ARE GOING NOWHERE, EXCEPT WHERE HE ALLOWS YOU TO GO. The dice have been rolled in vain, since Light does not work by chance. We gamble not, My Child. We Create and allow to Co-Create those who choose freely to work with Us, as they look forward and keep in

mind it is not just about themselves, but about the Well Being of others, what keeps everything going and growing. Not the selfish way you walked.

Elas, WE CARRY ON, WE SAIL INTO THE SUNSET, AND SETTING THE SUN SHALL DO IN A MOST PECULIAR WAY, so that ALL can see and know, not your path but OUR WAY IT WILL BE.

Many messengers have explained, time after time, what plans are unfolding, what decisions have been made, what our Love and Light is doing to make work again, what you prevented by all means, but no means strong enough to change what is ETERNAL AND INFINITE.

These I would like to be the very last of my thoughts before all TRANSFORMS and turns for the Better, for the Light, for the Love, for the Truth, for the many New Universes that are awaiting to be CO-CREATED AND LIVED AND ENJOYED :

I LOVE YOU ALL, SO DOES MY SON CHRIST MICHAEL OF NEBADON THROUGH ME AND THROUGH YOU, COME REST AT MY BOSOM WHEN YOU MAKE YOUR WAY UP AND ONWARDS. I CARE TO SEE YOU FROM HENCE YOU WENT FORTH, AS I WELCOME YOU BACK HOME. NOTHING PLEASES ME MORE. THE HOUR HAS PASSED, SO YOU ARE ON BORROWED TIME. NEVER TOO LATE, BUT WHAT MUST BE, MUST BE NOW AND ON THE EVE OF HIS SECOND COMING BEWARE AND BE SURE WHERE YOU STAND. THERE IS NO ESCAPE, NO PLACE TO HIDE NOR RUN FOR THE HEAVENLY REALM KNOWS ALL INSIDE OUT AS WE ARE ALL INSIDE OUT, BUT THROUGH LOVE AND LIGHT AND TRUTH.

Let my Son Christ Michael now call forth the hour for all to see and know. May you find Many Blessings on your journey in accordance with what you rightfully deserve as We Love you Above and Beyond. So Be It.

Papa Source, I AM.

Hi folks,

I know its been a while since I last posted anything anywhere, especially any meditation reports. There is a good reason for that; the need for me to work out some very heavily unresolved emotional issues from my past -

As my guide Laoshi put it: "You cant seriously expect to convince anyone to have a bath when you yourself stink like a Tibetan yak, can you?!"

He has a lovely way with words, my Laoshi does.....Good point he's got there! Anyway, all is a lot better now, and so Im back.

I had asked Mama Maria a couple of weeks ago, due to one of my many pangs of impatience, about the 3DD. She had told me this:

"Do not ask IF its going to happen. Ask what YOU will do WHEN it happens. Are YOU ready for it? If you say you are, then you certainly are NOT. Ask yourself: when you are about to sit for an exam, can you truly say that you are perfectly ready for it? No. One can only keep on maintaining the process of readiness as much as possible until the event occurs.

Realise this. The event is occurring as we speak; and when it does happen, even the most knowledgeable of the so-called "Lightworkers" will not know how to act IF they have not worked out their spiritual and other issues from this present lifetime. Many people will have to assess if they have been just idling time away waiting for events to occur - yes, one MAY look at this as an indirect form of service to self - or if they have been helping others in some manner to alleviate suffering and pain; being of service to others in some way or form. You will see when the time comes, that quite a few of the former will have to face a judgement of their own making - of their errant thoughts and actions, against themselves, by themselves - and they will also have to account for having mislead many who should have been rightly guided by them."

At that time, when I asked if I should put this on the site, she told me not to do this. She said that this was because those who were going to listen were already hooked up to their Higher selves and were busy preparing themselves by assisting those who came their way in whatever capacity was needed of them. Others, who were not going to listen, would not bother with the material anyway, and carry on doing as they have been doing. These would to be awakened by their own Higher Selves, guides and angelic guardians when the time was right.

I am assured by her today that it is the right time to put that message up. So, I am including it here.

OK. This morning, I was just finishing my meditation as per CM's latest directive, when Mama Maria came to speak to me. When we had finished talking - and most of it was either personal stuff or that to do with my spiritual path - I told her my intention of resuming my postings on the AH

forum website. I asked her if there was anything wanted me to put there. She affirmed that there was. Please - like I usually say - use your spiritual discernment. Take what resonates, leave what does not. Anyway, this is what was said to me:

"My dearest children, I have warned many on this planet, for many years, about this time of darkness. Yet, many have refused to listen. Some have listened, but not heard. Only a very handful have truly believed. Now, I say to you: Be aware, now. Be vigilant, now. Now is the time to assume responsibility; to be an anchor for the passengers on a ship in the middle of this awaited maelstrom. The storm will be felt to be terrible, even though it will rage on in both darkness and light; for the predicted three days and longer. In this darkness, it will seem as if there is no horizon on which to fix one's gaze.

In this darkness, too, one will not be able to make out who is friend nor who is foe, who is family and who is stranger. For many, it will be a testing "night of the Soul"; a time when they are being forced to evaluate the validity of all that they have held dear for such a long time. It has already started, my children. This is why all around you many are unable to function as they once used to and are acting irrationally and totally "out of character". I say to you all: Look inwards. Look deeply. Be at one with your I AM. Attune to He who you call Christ Michael, the One who is as your Father. You will be guided at this time by Him, by your spiritual guides and your guardians.

Less words. More action. That is what is needed. That is what is been commanded by the Father Creator, the Source of All. That is what is being done by your beloved Christ Michael.

So, my dearest children, lift your spirits. Let happiness shine out of your souls in this coming darkness. Be the beacon of Divine Light that you are. Let your smiles decorate the unveiling of the "New" Earth with Divine Love and Light! We will all meet again, aboard our vehicle, which you should know quite well by now - even if you do not consciously remember it. My Love will remain with you all no matter where you decide to go after this event is through."

Well, as for the meditation report: I received no visuals. Just a sense of unbounded happiness, overwhelming love and joy emanating from Mama Gaia. Apart from this, there is currently nothing more to report.

See you all soon.

Love and Light,

T

Candace: Beloveds, just to update a bit, those watching the sun should be noticing something. Some of us here have friends noticing the sun but with no clue as to why its not so bright. I can now gaze it for a short time at high noon without any pain or eye protection, its dulled that much but I still don't want to gaze for a long period. Takes about only 5 seconds for me to discern the disk (not the craft) now. We have completely clear sky above right now, no chemtrails, no haze, and its NOT as bright and sunny as it should be, the feel is sort of like the sun being behind thin clouds. It is as I post this, 1 hour or less from solar noon.

WE

were going to say

please

but now ask you to remember what

YOU

mean

when

YOU

say

'please'

and saying that WE strongly suggest....

doesn't seem to matter to you

so

let US put this

in more colloquial terms.....

SIGN THE FUCKING PAPERS!!!!

IT'S NOT LIKE WE'RE TELLING YOU TO SIGN IN BLOOD

THOUGH YOU SEEM TO BE USED TO THAT

AND ACTUALLY LIKE DOING IT

WHEN IT COMES TO

OTHER THINGS

SO
SIGN
NOW
IF YOU DO NOT SIGN
WE WILL BLOODLESSLY TAKE YOU
AND DEAL WITH YOU THAT MUCH SOONER
AND HARSHER
WE MIGHT ADD
AND FIND SOMEONE WHO WILL SIGN
AND IF NONE OF YOU ASSHOLES ARE WILLING
BE ADVISED
WE REALLY DON'T NEED YOU TO SIGN ANYTHING
TO GET THE JOB DONE
AND WOULD ACTUALLY LIKE
TO SKIP THIS PART
AND GET RIGHT TO IT.....

THIS WAS FOR YOUR SAKE
NOT OURS
IF YOU CANNOT APPRECIATE THAT
THEN GET OUT OF THE WAY
OF YOUR OWN FREEWILL AND ACCORD
OR LOSE BOTH
AND BE REMOVED FROM THE PICTURE AND PLAY
OR THE BOARD
OR THE ROOM
OR THE PLANET

OR THE UNIVERSE
WE WILL STAY ON OUR SCHEDULE
NO MATTER WHAT YOU DO
OR HOW YOU TRY TO STALL
WITH THIS ENDLESS BALLYHOO
OF WORDS IN CONJECTURE
AND CROCODILE TEARS.....

you do understand

don't you

that it is no longer up to you anymore

even in perception

the choice is no longer yours to make

only the act to do

which is for your benefit....

in the words of our friend.....

YOU HAVE UNTIL YESTERDAY TO COMPLY.

Oct 21, 2012 - Those "Papers"

Beloved Readers of AH, and those other ones of interest, the most important of those we needed to sign the "fucking Papers already," did so, and we proceed with the next step. That is all for now. Michael of Nebadon.

PREPARE FOR DIVINE IGNITION
Seraphin through Rosie, 22nd October 2012

Dearest Children of Light: HOW ARE YOU GOING TO ADJUST TO THE GREATEST LIGHT OF ALL, WHICH IS THE DIVINE SPARK IN YOURSELVES?

We wonder whether you are ready for the DIVINE IGNITION, for the rapid take-off into new realms, locations and responsibilities, liasing with strangers and beings you have never seen before, discussing concepts beyond your wildest dreams and imagination. How ready are you to LEAVE EVERYTHING BEHIND (SO THAT YOU CAN GAIN ALL), to clear your minds of all rubble, of past hurts and of misconceptions, of supposed injuries and of lost opportunities, for you will see that they have all led perfectly to this moment.

How ready are you to expand your perspectives, to see each other AND YOURSELVES as perfect vessels for the conveyance of the perfect message, which is YOUR GOD IS HERE WITHIN YOU AND WITHOUT YOU. How prepared are you to act as an inspiration to multitudes? How quickly can you react to address a problem, or redirect a situation so that it is IN DIVINE ALIGNMENT?

As warriors of light your shields must be strong. Your swords are your strength and determination, tempered by the compassion of your heart. Is your WISDOM ready to shine? Are you KING over your emotions? Do you rest in a place of calm and confident stillness?

We will support you, but you must enter the fray alone, armed with your devotion, your concern, your love for your fellow man. Do not linger or hesitate due to thoughts of unworthiness or how you may appear to others, but LIVE YOUR TRUTH. ACT IN A WAY WHICH EVOKES RESPECT. WALK IN LOVE.

For the path which YOU, inhabitants of beloved planet earth, are about to embark upon AND INDEED INITIATE, is not easy. You will require courage and determination. You will have to deal with losses and focus your gaze on the horizon, knowing that your contribution is significant for the birth of a new genre of life here on earth, and knowing that you have chosen this path FOR THE GLORY OF THIS PATH.

We say PREPARE IN ALL SERIOUSNESS, for today and every day, so that you can better serve and better enjoy the sweetness of serving.

Again we say PREPARE,
We love you, Seraphin.

SELF-RELIANCE

Tonight there are several things to discuss. The first I would like to address is the question of self-reliance. This is the state of relying upon one's inner Self and compass for guidance. In the coming days, working with self-reliance will be crucial and is most definitely a prerequisite to your success.

How do you know when you are in a state of self-reliance? The voices, thoughts, opinions and even objections of others are all filtered through your own inner self first. And before you formulate your response and your own opinion on a matter or situation. Then you will know exactly what feels right to you and be able to accurately express this. Once you are able to do this, you will be in a greatly clarified position. And one which is easily able to detect manipulations – the subtle and overt varieties – in your world. It is up to each one of you reading these words to work on achieving this very important state of being. It is a passport, if you like, to raising your consciousness. For your world has been so shrouded for so long in mire and darkness that the truth of all things, including yourselves, is that far removed from you.

ENERGETIC STABILITY WITHIN

Now, I would like to move on to the issue of energetic stability within. What do I mean when I say this? Energetic stability is the manner and means in which you are able to access higher dimensions, yourselves and be in a position to properly discern the world around you. And yes, it is much interlinked with the above on self-reliance.

Everything is connected with everything else – this you know. But if we, for the sake of this writing, look at energetic stability separately, we would see it as a means of achieving through being anchored in your own personal field. And how do you achieve such?

One of the ways to do this is by becoming increasingly aware of the emanations of others, your world and mostly, yourselves. By emanations, I mean the emotional and psychic frequency of others. The idea being that you will then learn to separate yourselves from their emanations. For many find themselves unknowingly succumbing to that which does not belong to them. Thus

leading to all sorts of jarring in the field. In turn, this becomes a major cause of energetic instability in you ones. And, it is spread, like some contagion, with great consistency.

Being energetically stable is being properly and truly anchored to your own bodies and the earth. Many try to achieve this by the external practice of a ritual, expecting this alone will produce the same results. It will not, as energetic stability cannot be got under control by the discipline of the mind and will alone, but by a process of engaging all of yourself and your awareness in the task.

SCRUTINY

Next I wish to address the question of scrutiny. Let us look at this topic now. Scrutiny is not something many on your surface world desire. It is perceived often as being something one should turn away from. As if the very results it brings may frighten the enquirer into a stupefaction. Or worse. Force the enquirer into a new state of awareness from which there may be no return. Therefore, to the average person on your planet, holding anything (subject or issue) up to the light of scrutiny is not a comfortable concept.

Yet, in order for the soul to progress and development within the form to be made, scrutiny of both one's external world and one's interior one are essential to this kind of development. How are we then to break through such barriers and make the subject of scrutiny one which is more palatable to ourselves and the masses?

Indeed. What those who are desirous of progress ought to do is to first get to a comfortable level with the very things that bring you some level of discomfort. As soon as you feel the discomfort, the alarm bells that will ring as a defence mechanism will be an indication you are travelling on the right road. Getting comfortable and relaxed around scrutinizing subjects or issues, or indeed oneself, is a process – not any kind of overnight success story. As with the growing of all aspects of consciousness.

Once you have broken the barrier of making the first tentative steps towards familiarity with scrutinizing something and exercising your mind muscle, as it were, you will have cracked through an important aspect of the Self; welcomed in a portion of it. And in so doing, invite more opportunities in for further scrutiny. You will have succeeded in breaking through the fear that has locked the ability to scrutinize away from yourselves.

HIGHER SELF NON-COMPLIANCE/ALIGNMENT

Next I would like to address the issue of non-compliance with the Higher Self. Now, here we have a dichotomy. On the one hand, the state of non-compliance is one which results in being out of alignment with your Higher Selves wishes for the life. On the other, we have very much the universal law of free will allowing exactly such on this free will planet, which is respected and honoured at all times. The dichotomy rests in the fact that while you are here to enjoy a free will experience, your objective is to also do the will of your Higher Self in order for the progress of yourselves at the eternal level.

So this is something of a conundrum and the reason why so many wished for the earth experience in the first place. There is no greater school in the universe. This is known far and wide.

In order to obtain the maximum out of both in the most constructive manner, it is necessary to constantly be evaluating where you are and who you are. Neither of which most of your population are inspired to do. In fact, this couldn't be further from the minds of most. So what is the solution to providing this balance for yourselves?

You could start by testing yourselves daily to see if you are on the 'right' path. But being on the 'right' path first denotes that there is more than one path possibility in your internal and external lives and that you do have a choice as to which road you go down. Not unlike choosing which ice cream flavours at a parlour you may wish to taste. Each has its own unique flavour, but perhaps certain ingredients or flavours in some will agree more or less with your physiology than others.

The easiest way, then, to discern and find balance in this conundrum is to ask for guidance from your Higher Self and then to LISTEN and take ACTION when the opportunities subsequently presents. This is the difficult part for most that eludes many. This could be anything from a simple (or not so simple) changing of a mental attitude and making a new inner choice to a decision that is more obvious as a change in the life. The subtlety of the workings of all this in a very base world like yours is an enormous challenge.

You can muscle test these for answers, work with a pendulum or other secure means if you feel less assured of your ability to discern within and hear your inner voice clearly on such matters.

I AM Monjoronson wishing you well in your preparations and regarding you all most highly.

UNIFIED GROUP MESSAGE FROM FLEET

This is a message from the whole fleet as one.

The time is arriving that the dark has dreaded and that you and we, together, have not just hoped for, but have worked long and hard to achieve. During the course of time between what was and what will be, will be given to you three days of an opportunity to come to the final decision's of your lives.

To serve the will of The One, alone and as it is manifest in His Michael Sons and the Lords of the superuniverses, is the worthiest endeavor that any faith child of Creator Source can undertake. The path to perfection is fraught with delights and terrors that all together, in the end=moment that you stand on the verge of fulfilling your goal, gains you the ultimate and supreme appreciation of the mind of the Paradise Father in the preparation that He has so meticulously laid out for each and every individual free-will, ascending, intelligent faith child of the realm of time and space. We all have our own unique paths to perfection that is just as different as our personalities are from

each other, yet we learn to come together as one in the cause of supreme family to aid and assist each other for the sake of each in love and devotion to the One that created and creates all things through Himself and shares of His Self with all that all may return to Him in perfection as creatures of eternal and infinite light, life and love.

The discipline of true liberty is the freedom that we all seek that must be earned in order to fully comprehend and agree with and in The Fathers Will, is not always easy nor so full of hardship that it becomes unendurable. The fear of God is the beginning of wisdom, but the love of God is the active wisdom that evolves from knowledgeable use. That knowledge can only come from knowing one's self and knowing God and find them both in each other. It is in the actualization of the inherent values found in that, which automatically binds and bonds all things together as one in The One so that we may not only truthfully say, but truthfully live in being each other, with each other, for the sake of each other.

You have a saying...all for one and one for all, and this is truly our way of life in the Father and Source of all things as He is The One, as He is One, so say we all: All for One and One for All!

It is in this spirit of shared love and devotion that we prepare to meet and be reunited with all of you, that we may reconnect and share the God in all of us as one. We ask that you look forward to meeting us with the same love, peace and joy that we have as we look forward to meeting you.

Much is about to change on your world. Your freedom and abundance and true knowledge are at hand. Give thanks and praise to Creator Source, The Paradise Trinity, Lord Siraya, and Christ Michael Aton for all that has been done and is being done and will be done; and for all that has been given, is being given and will be given, in experience.it is all God. IT IS GOD! There is no other thing existing and IT is what we are and we are all part of What IT Is.

Behold! A new and greater life of understanding is upon you! Be in Joy and be one in joy!

We are you family in the great adventure of Life in God.....and soon, we shall embrace each other, face to face, in love and light, as together, we shall now journey forward and upwards to our promised perfection!
