Any of you familiar with Walter Russell are free to add short quotes here. Here is the one I currently have running in my signature file. This one is from the Home Study Course.

Meditation is the key that will open the door to your inner Self wherein lies all the true power for material manifestation for as sound springs from the silences so does positive action come from inner KNOWING.

It has been said that one must lose one's life to find it. Applied to meditation it means that one must lose (forget) one's mortal body in order to become aware of one's immortality.

That is exactly what happens when we seek the Light of Self illumination in our eternal Selves. The great glory of existance is reached only by Mind awareness. You can only reach supreme heights that way.

In that ecstatic existance is the seed and Source of all power and all knowledge which is yours by just desiring it. Walter Russell

Religion "believers", why aren't your ministers./houses of worship TEACHING YOU THIS???? Or at least to follow heart and intuition? If they were worth their salt they would teach the actual ways to connect with the cosmic consciousness.

Teaching by Jesus that seems to have been left out of the bible made to Nathaniel.

"But, my son, you should know that the Father does not purposely afflict his children. Man brings down upon himself unnecessary affliction as a result of his persistent refusal to walk in the better ways of the divine will. Affliction is potential in evil, but much of it has been produced by sin and iniquity. Many unusual events have transpired on this world, and it is not strange that all thinking men should be perplexed by the scenes of suffering and affliction which they witness. But of one thing you may be sure: The Father does not send affliction as an arbitrary punishment for wrongdoing. The imperfections and handicaps of evil are inherent; the penalties of sin are inevitable; the destroying consequences of iniquity are inexorable. Man should not blame God for those afflictions which are the natural result of the life which he chooses to live; neither should man complain of those experiences which are a part of life as it is lived on this world. It is the Father's will that mortal man should work persistently and consistently toward the betterment of his estate on earth. Intelligent application would enable man to overcome much of his earthly misery.

I started this thread, because Russell was a Christ who brought some important teaching to this world, including science teachings he sent to the big wigs of his time and some stole it per se, leaving his name off from whence it came and taking credit. Einstein was one of them that did that.

His spiritual teachings about God are wondrous. As were his wife's, Lao.

From : THE AGE OF TRANSMUTATION
NEW CONCEPTS FOR SCIENCE AND NEW VALUES
FOR HUMANITY (no website link currently available, taken from my private forum)

Man must be transformed or perish. Old concepts and old material values must become as obsolete as horse-and-wagon transportation became obsolete when motors and planes appeared.

Man is still barbarian. Just so long as man kills man, he is barbarian. The dawn of his Consciousness is barely six thousand years back in his history. Man must have new concepts, new ideals and new values which will uplift him from the barbarian desires to kill for greed--to build empires for power--to seek happiness through material possessions--or to accumulate gold under the delusion that he is creating wealth.

Material values as standards of wealth must be rendered valueless. Science has the power to make the transition so gradually that the readjustment will create no hardship to commercial interests and world economy. Just as the transition into the machine age lessened the burdens of man and added to his wealth, so will the transition into the Age of Transmutation have a similar beneficial effect.

All great world transitions which have brought greater ease and wealth to man have been anticipated as calamities. This greatest of all transitions now dawning in man's history should be looked forward to as the ultimate goal for a peaceful and prosperous unified world.

Man's assets of this age are material. Transformed man must gradually discover that his greatest asset is man. His happiness, achievement and greatest source of wealth and power are in his ability to serve man. The greater his service to man, the more he adds to his wealth--both materially and spiritually. For this is LAW--irrevocable and inevitable LAW.

It is inviolate law throughout Nature everywhere. Nature creates its wealth by extending itself into the whole universe from every point in it.

From one of the HOME lessons by the Russels.

You cannot do anything of yourself alone. Whether you know it or not you have to acquire God-power to even lift your finger. You are automatically controlled in every action. Why not be controlled by working with God knowingly at all times, and being fully aware that God, and His law, are working with you. Continuous meditation means continuous God awareness, and that continuity of awareness is forever leading you higher and higher into the high heavens of your own mountain top.

That, and that alone, is the great glory of life, and of living. That awareness, and that alone, leads you to masterliness of achievement, peace, prosperity, happiness and the love of all mankind which is forever enduring.

[Thread: Cause and Effect - Nikola Tesla to Walter Russell - "The public is not ready for your teachings..."](#)

Cause and Effect

*The law of cause and effect always works. When anything goes wrong with you or with the world, your are or humanity in general is responsible, not God. ... God's doing God's part is what Creation or the outworking of cosmic law means. Therefore, instead of asking God to fulfil God's part, attain knowledge of cosmic law so that you can harmoniously work with God to fulfil your desire. Anything that is wrong with you is of your own making; **therefore, gain knowledge of the cause and of cosmic law.** ...*

*... **people who ask God for fulfilment of their desires forget that material things are created only through two-way action.** Material things are not created by rubbing an Aladdin lamp or through wishful thinking. **They are created through balanced action and reaction.***

Walter Russell

Quoting: **in5d**

yes and his beautiful work proves the "as above, so below"

This quote below is from lesson 11 of the HOME Study course. I don't do any memorized affirmations or any of that stuff by the way, they are just another version of religion. I affirm myself by reason and meditation reviews of my actions and decisions which as necessary look at the root CAUSE, without the blaming of others.

This you can get only through the scientific approach. You can never know God through the emotions. Just as science conquered small pox and other dread scourges through knowledge of CAUSE, where magic and witchcraft failed, so must you acquire God powers through scientific knowledge of CAUSE where affirmations, emotional worship, and faith and belief have failed to get you farther than a peep hole into the Light.

Affirmations are but one step ahead of magic for they but record wishful thinking instead of action based upon knowing. Likewise the abstractions of metaphysics may even state immortal truths without one's knowing the meaning of those truths.

And so I say to you who may think of yourself as not "scientific minded", that is because of a wrong concept of science. When you find that science is simple, and you will find it more and more simple as we proceed, you will feel its might behind your every thought and action as it continually transforms you as inevitably as it has transformed medieval man to modern man.

walter Russell lovers, add to the thread! I am putting mostly the spiritual god/life stuff for those really needing to read it, but any of his is welcome. I was really busy for the last 3 days, will put more effort into this off and on today. I had a nice one last night, glp server froze.

this is lovely, ought to be put into some christian threads.

This is to Home Study 13.

PRELUDE

Life itself is a transcendent adventure. At its best it is tremendously difficult. It is a huge mountain of unknown height whose top is hidden in an impenetrable veil which every man must climb. From that upward journey of life there is no escape for anyone, and no man knows what he must face on that lifelong climb up its tortuous paths Of blazed and unmarked paths which man must tread in light or dark--and in the dark oft lose his way and pitch headlong into stark tragedy which may be any man's the very next moment after happiness and glory will seem to have been forever attained.

There are wonderful green meadows and forested paths on every man's mountain. There are babbling brooks and springs to quench one's thirst--and fruit laden trees and luscious gardens--and there is music of the singing of birds in the forests--and laughter and joy--and grief and death next door--and just beyond where a bride is lifted across her happy threshold a blind man gropes in the dark and a once proud scholar meets misery face to face and knows not what to do with it.

Knows not what to do with it...Therein lies the tragedy of life--the pitiful fact--you know not what to do with it.

There is death--and the dark--and the fear and dread of death in the dark for him who knows not eternal life--for him who knows not that there is no death--and he who fears, and dreads death and the dark knows not what to do with his fears of death--and the dark.

You must face the unforeseen on your mountain. You must face [its] dangers for its paths are not all smooth. You must surmount its steep cliffs and lose your way in the dark. You must face failure as well as success, loneliness and frustration--lack of husband, home, children, love, or loss of them in death--or tragedy--or from your own weakness--or from treachery of trusted friends--AND KNOW WHAT TO DO WITH IT.

Yes! that is the tragedy in not knowing. Man on his mountain of life, not knowing his mountain--not

knowing what to do when a wall of the mountain faces him--not knowing how to surmount it--having no compass to guide him--no Light of knowing out there in the dark of not knowing.

Woman on the mountain. Terribly alone, frustrated and alone--not knowing what to do with it.

Boy on his mountain, homeless, penniless, helpless--for he knows not what to do with it.

But I know a man who has not been able to move for thirty years--blind--paralyzed--speech and hearing alone left to him--yet radiantly happy--successful--known, loved and honored--paying his way and giving much to the world--for he knows what to do with it.

I know hundreds of men and women, who have faced insurmountable hurdles and know what to do with them. I have faced many of them myself and knew exactly what to do with them. And doubtless you have also.

Why such despair? Why such misery? Why fear anything in all this glorious universe of God's making, and your making--where naught but life is--where you KNOW that you are existent as you in all creating things and cannot be alone, nor unhappy, nor defeated, nor in any way stopped from your joyful climb up your mountain of life to the Light of KNOWING which will illumine your path all of its glorious way if you but know what to do with life as you meet it ever in the Light, in which there is no dark.

From HOme Lesson 11

Whenever you ask for something, or desire something to take place, you naturally think of your desire being possibly fulfilled AFTERWARD. And you do not even feel sure of that AFTERWARD. You hope so, but are not sure.

I wish to make it perfectly clear that you already have that for which you ask. It has already come to you simultaneously with your asking. That seems incredible--even amazing--but it is true, nevertheless.

This fact is stated in God's Message of the Divine Iliad in the following words from The Book of Desire, Chap. VI. 32-33.

"Desire ye what ye will, and behold, it standeth before thee. Throughout the aeons it has been thine without thy knowing, e'en though thou hast but just asked for it.

"Sit thou not and ask, acting not, for unless thou reach out for thy desire it shall not walk thy way to thee, unaided by thy strong arms."

Think of it this way. In God's undivided Mind universe the ONE WHOLE IDEA of Creation is complete. It has no relation to time, sequence or separateness.

When you ask for anything you are asking for a separate unit of that ONE WHOLE IDEA. In other words you are separating from it that which you want--and that you can do timelessly in your Mind. You can vision it as a reality in your own undivided Mind universe. You can immediately KNOW your idea and immediately FULFILL it mentally. Thus visioning it as a concept is timeless.

But you must realize that what you really want is to fulfill your desire physically. You want to give it a body. You want to manifest your Mind idea by taking it into the divided universe beyond the vision of it in your imaginings.

That means that you have to THINK your idea out of your timeless KNOWING into a three dimensional universe of time and space. You have to transform a substanceless form of Light, which is a concept in your Mind, into a body which has the substance of light-waves which we think of as matter.

From H0me Study Course, Lesson 9

FIRST PRINCIPLES

In the first eight lessons I have purposely laid the foundations for a better understanding of God--the nature of God--the relationship of God to man and to His universe--the structure of the material universe and God's processes of creation.

Now again I wish to strongly emphasize the fact that what you will find as I gradually take you behind the scenes of God's cosmic stage IS UTTERLY SIMPLE and as fully comprehensible to you--WHEN YOU FINALLY GET IT--as adding two and two together.

Do P L E A S E take my word for it and never for a moment say it is over your head, or that you cannot understand it--for you can understand it. Remember that new knowledge always seems over your head. You have got to think it over and over again, then meditate upon it until what you now read with your senses you will gradually KNOW in your Soul. IT WILL THEN BECOME A PART OF YOU.

The more you can become illumined with Cosmic Consciousness the more you will find yourself using God's Mind as YOUR Mind--and God's hands as YOUR hands.

To become a master of creative expression--by being able to make the short cuts to achievement that I have been enabled to make by my knowing--you must master each step as you go--each idea as you absorb it--by going back to it time after time until you begin to wonder WHY you could ever have thought any part of it difficult, for I again say that all of its seeming complexity will lead you to the most surprising simplicity.

To again accentuate the simplicity of it I will yet again say that if your intelligence is great enough for you to add up to nine, or to understand that you breathe inward and outward from a balanced center in you, you can understand the workings of most complex phenomena in all Nature. I say this to you seriously-- and mean what I say--for God never passes nine in any creative expression nor does any phenomena in Nature ever exceed the principle upon which your breathing, or heartbeat is based.

Anything in Nature, or in your life's problems, which might have one million parts and one million complexities, if taken apart, will be found to constitute one simple principle of three elements. God multiplies these three by three to make nine, but never more than that. So if you can understand the principle of the basic three, and if you can multiply that three by three, you can become the greatest chemist, metallurgist, electrical engineer, poet, painter, philosopher or inventor in the whole world if no one but you in the world did understand it.

THE AGE OF TRANSMUTATION
NEW CONCEPTS FOR SCIENCE AND NEW VALUES
FOR HUMANITY

From "A New Concept of the Universe" by Walter Russell No link, his books are here [[link to www.philosophy.org](http://www.philosophy.org)] plus a search on google may find you various pdfs etc. This perhaps was written 1950s or before.

Man must be transformed or perish. Old concepts and old material values must become as obsolete as horse-and-wagon transportation became obsolete when motors and planes appeared.

Man is still barbarian. Just so long as man kills man, he is barbarian. The dawn of his Consciousness is barely six thousand years back in his history. Man must have new concepts, new ideals and new values which will uplift him from the barbarian desires to kill for greed--to build empires for power--to seek happiness through material possessions--or to accumulate gold under the delusion that he is creating wealth.

Material values as standards of wealth must be rendered valueless. Science has the power to make the transition so gradually that the readjustment will create no hardship to commercial interests and world economy. Just as the transition into the machine age lessened the burdens of man and added to his wealth, so will the transition into the Age of Transmutation have a similar beneficial effect.

All great world transitions which have brought greater ease and wealth to man have been anticipated as calamities. This greatest of all transitions now dawning in man's history should be looked forward to as the ultimate goal for a peaceful and prosperous unified world.

Man's assets of this age are material. Transformed man must gradually discover that his greatest asset is man. His happiness, achievement and greatest source of wealth and power are in his ability to serve man. The greater his service to man, the more he adds to his wealth--both materially and spiritually. For this is LAW--irrevocable and inevitable LAW.

It is inviolate law throughout Nature everywhere. Nature creates its wealth by extending itself into the whole universe from every point in it.

Continuing from the post above. Same details.

The jungle is rich because it extends all that it has to all of the jungle while the desert is poor indeed for keeping that which it has within itself. The desert gives naught to the desert, nor to the heavens--therefore its regivings from the heavens are naught.

Nature has no motive for its givings, for regivings are the fulfillment of the law, and man need give no thought to them.

The wealthiest men in all the world are the geniuses who have extended their immortality to other men without thought of gain. These immortals shall never perish from the memory of man who has found his own immortality through them, while he whose wealth is but gold, e'en though it be higher than the highest mountain, shall be forgotten before another dawn.

Man is man's greatest asset, therefore, for man's greatest need is other men to whom he may give of his own abundant Self to thus enrich himself through their regivings.

Nature is based upon the Law of Love, which is balanced GIVING for REGIVING. All that man ever has is that which he has given. That is Nature's only law--and it must eventually become man's only law.

Nature regives in kind for all service given. Man gives the seed--and his service in sowing the seed. Nature regives the fruit of the seed. That is Nature's Law. Action is man's free will right but the reaction is Nature's. It regives equally in kind.

If man takes a throne, it is taken away from him and he is poor indeed. But if a man enthrones other men, or honors other men, he will be enthroned and honored by other men.

Science has given man this new electric, radio, radar, television age which has made miracles of past-age thinking commonplace today. Had the Nazarene stated that the time would come when the whole world could hear a man's voice, He would have then been put to death. Many since then have been burned at the stake and tortured mercilessly for what a schoolboy of today would basically comprehend as Natural Law.

Spiritual values can replace material ones only by shearing material values of their power to nurture greed and avarice. It will be a slow process but will surely come to pass as science gains the power to shear values from physical matter.

The telephone, the automobile, flight by air, radio, radar and television have been given to the world by science in less than a century. Each of these has transformed man's thinking and his ways of life, for heavy burdens of labor and household drudgery have been lessened for man and woman alike.

ok two more posts, enough for you all who have interest. More tomorrow or so. Continuing from "A New Concept of the Universe" This below still holds largely true in science now 75 years later.

BASIC MISCONCEPTIONS OF SCIENCE

1. The cardinal error of science lies in shutting the Creator out of His Creation.

This one basic error topples the whole structure, for out of it all of the other misconceptions of light, matter, energy, electricity, magnetism and atomic structure have grown.

If science knew what LIGHT actually IS, instead of the waves and corpuscles of incandescent suns which science now thinks it is, a new civilization would arise from that one fact alone.

Light is not waves which travel at 186,000 miles per second, which science says it is, nor does light travel at all.

The light of incandescent suns is but an effect of one of the two equally-opposed electric pressure conditions which interweave this universe into visible solids and liquids surrounded by invisible gases of space.

These two opposite electric conditions which form the basis of the constitution of matter are the compressed condition of gravity pressure and the expanded condition of radiation pressure. These two electric conditions are the equal-and-opposite pressures which make motion imperative and without which motion is impossible.

The positive electric condition compresses large volumes of light-waves into small volumes by winding them up centripetally into spiral vortices by thrusting inward from without. That is what gravitation is.

The negative electric condition expands small volumes of light-waves into large volumes by unwinding them centrifugally into voiding equators where matter disappears. That is what radiation is. Radiation thrusts outwardly from within to depolarize matter and void motion.

The light of suns and the dark of space are but two opposite conditions of the same thing. They interchange constantly. Each becomes the other sequentially.

Science excluded God from its consideration because of the supposition that God could not be proven to exist by laboratory methods.

This decision is unfortunate for God IS provable by laboratory methods. The locatable motionless Light which man mistakenly calls magnetism is the invisible, but familiar, Light which God IS--and with it He controls His universe--as we shall see.

Misconception of Electro-Magnetism from " New Concept of the Universe" pages 15 and 16 or so on this and the above quotes from the same book.

I have seen a lot of "electro-magnetism" discussions right here on GLP. The concept made me want to vomit all the years I took science courses. I would not go into these fields as they are, or were then anyway in the 1960's thru the 1980' that I took such courses and walked away from them. I liked just about nothing of Einstein. The small voice within said, nope, not this way to go for you on this world at this time. Walter did it all and science ignored it for the most part and there are ones right here pushing shit. Get thee this book. Its a redo of much of Russell's earlier material.

2. The Einstein theory of the constitution of matter conceives this universe to be "one great ocean of electromagnetism, out of which--and into which--flow the streams of gravitation, matter and energy".

Radiation, the equal-and-opposite mate of gravitation, without which gravitation is impossible, is entirely ignored in this fantastic and unnatural concept.

Equally fantastic is the claim of this theory that "it is possible to have gravitation without matter". and "for space to exist without gravity or without matter".

The weak point in this theory is the fact that electromagnetism is not an existent force in Nature; nor are there electro-magnetic fields or magnetic fields. Wave fields are electric--exclusively electric.

Electricity is the only force which God makes use of to create this universe. And the only two "tools" God makes use of for creating His universe of matter and motion are two pairs of opposed spiral vortices. One of these opposite pairs meets at apices at wave amplitudes to create spheres of matter and the other opposed pair meets at cone bases upon wave axes to void both matter and motion. (See Figures 129 and 130, page 162.)

These two pairs of opposed electric spiral vortices are the basic units which construct all matter.

Together they form the electric waves of motion which create the various pressure conditions which are needed to produce the many seemingly different elements of visible and invisible matter.

Electricity is divided into two equal-and-opposite forces which thrust away from each other to build this polarized universe.

When inability to thrust away from each other takes its sequential turn in the pulse of the universal heartbeat, depolarization voids all opposition. Thus this universe consists of cycles of life followed by death--growth followed by decay, and generation followed by radiation--each expressed simultaneously and repeated sequentially forever without end.

That which science calls magnetism, and believes to be a force which has the power of lifting tons of steel, is God's still Light which balances and controls the equality of electric division, but electricity alone performs all of the work of this universe. The magnetic Light which controls the universal balance performs no work whatsoever.

A bar magnet picks up nails because of the electric current which divided that steel into its activated polarized conditions, and not because of its focal poles of silliness which center its two activities. Even though the electric current has been withdrawn. the steel retains its electric activity for long periods and acts as though the current still remained.

Magnetic Light control might be likened to the rudder of a ship which controls the direction of the ship's motion without in any way motivating that motion.

It might again be likened to the fulcrum which extends its power of expression through motion to a lever, without in any way acting to motivate that expressed motion of the lever.

God's still magnetic Light is the fulcrum of this creating universe. Electricity is the two-way lever which extends from that fulcrum to give the universe its pulsing heartbeat of simulated life-death sequences.

Wherever God's Light appears in matter, there stillness centers motion, but there is no motion at that point. The center of gravity in a spherical sun or earth is one locatable point where God's Light is. Likewise, the two still centers of north and south spiral vortices are other locatable balancing points of control. Likewise, the shaft which connects all pairs of opposed poles is an extension of stillness from the zero of wave beginnings to the zero of wave amplitudes, and the return of motion to the zero of its beginnings in the stillness of its homing place on its wave axis.

This is a universe of Light-at-rest from which two opposed lights-of-motion appear to manifest the IDEA which is eternally sealed in the Light-at-rest.

From Home Study Course Lesson One, from my copy, no linky available. See ideas above to find it on the net.

b]MEDITATION DEFINED

Meditation is the desire of man to know God in him, and to manifest his God awareness by extending his knowing through his thinking, to the production of material bodies created by him in the image of his inspired conceiving.

I might put it more simply by saying that meditation is a desire to be alone with God to talk with Him. Meditation is really a conference between your Soul and the Universal Soul.

To be One with God means to desire His knowledge and power. God's Mind is your Mind, hence you have all knowledge and power that God has to the extent of your awareness of God in you.

If God's knowledge is asleep in you it must be awakened in order that you may be aware of it. When you are aware of it you can use it, for the entirety of Universal Law works with and for you at your command.

To the extent of your awareness, and to that extent only, you may use universal power to think your knowing into material forms. Your knowing is your Mind Self. Your Mind Self is you, the eternal Being. Your Self is not your body, nor is your knowing in your brain, but it controls your body and your brain as its absolute master. Do not confuse your Mind and brain as one. Your Mind thinks through your brain, and with it, as a lever works upon its fulcrum, for your brain is but the instrument for fulfilling the commands extended to it by Consciousness which Mind is. Your brain records memories, experiences and information electrically, just as phonographs likewise do, but it is the will of your Mind which orders your brain to obey just as it likewise orders your automobile to obey.

The measure of your cosmic knowing is the measure of your self and God awareness. It is the measure of your ability to dwell in the Light of all-knowing and to command the thought universe of Creation with God as Co-Creator with God.

MOre from Lesson 1 of Home Lessons. Why are your churches again, dear Christians NOT teaching this? begging prayer is not your answer.

How glorious and wonderful is the realization that Mind of man and Mind of God can know their oneness in meditation in order that the creations of man can have the balanced rhythms, the symmetry and the stability of God's creations.

All that God does is to think thought forms of ideas and give them formed bodies from His body and Soul of His Soul.

God thinks man and the body of man appears in the image of God's imagining. In the same manner the bodies of roses and oaks of the forest, ants and lizards, elephants and camels, planets, suns and oceans with their living hosts of swimming things, and countless other formed bodies appear as separate ideas all extended from the One, and all from each other.

And that is all that man does. He also thinks thought forms of ideas and gives them formed bodies from the universal body and Soul from the universal Soul. The engineer conceives the image of a bridge and the formed body of the bridge appears in the image of the engineer's imagining.

Likewise the musician thinks music in the silence of his imagining, and lo, the formed body of the music appears in sound extending from the silence. And so are you and all men thinking imaged forms of multiple things and giving them formed bodies in the image of their imaginings.

Continuing lesson one of H0me study course.

THE DAWN OF THE COSMIC AGE (this is the "ascension" you ones have read about. Walter Russell was a huge "setter upper" of the concepts necessary and largely ignored and lost now, as to the information. You will learn to meditate or you will not be in contact with God, period.- Candace)

Those illumined ones who are now ready to open the doors of their Souls far wider for the Light to further illumine them will uplift the whole human race to higher standards and out of that whole there shall forever come an average few continually until the Cosmic Age will be strong with growing numbers of the more and more illumined.

KNOWING--CONCEIVING—THINKING—IDEA

Creation is an IDEA of God. It is One Whole Idea. That One Whole Idea constitutes what God knows. God thinks the One Idea into countless parts of countless forms. Thus God's thinking takes God's knowing apart into seemingly separate ideas, each of which is given its separate form.

That is exactly what you do. You may have all of God's knowing if you become fully illumined with it, but in each communion with God you get a little more of it each time your Soul touches the Universal Soul. You then take it apart and think it into objective form.

You always get that which you ask for if you ask for it with your Soul instead of your senses. If you ask for it in words alone, which are just words, you will not receive what you ask for, because you have not asked God for it--you have but asked your senses for it.

When, however, you have actually written your desire into your heartbeat, as I have automatically done all my life from moment to moment, you unfailingly acquire the knowledge you ask for. It comes to you in a timeless flash in the language of Light which God uses to talk to you and me when we wish to talk with Him.

One more from this, and then I won't be back until perhaps Monday. I will not be on the computer tomorrow.

THE GLORY OF THE UNSEEN AND UNHEARD

There is an indescribable glory all along the road which leads from your active thinking to the stillness of deep meditation. If you cannot actually go to the forest or sea, the better to commune with God, go there in your imagination. If some problem demands your thoughts let the imagined tones of the sea drown them out. If you imagine the sea and hear the rhythms of its waves pounding upon the shores as echoes of the heartbeat of the universe resounding within you, or if you hear the breezes whispering in the pines with your inner ears, the glory of that ecstasy will soon drown out dross thoughts of earth.

Meditation transports you from the world of sensing the motion of things materially to imagining them cosmically. It transports you from the world of blatant sounds which sear the senses to the world of rhythmic silences which is without body, the world of the Soul and the seed of things unborn which await their birth through you. It is your escape from emotions, with its tensions and nervous strains, to the ecstasy of your Soul's high heavens.

This below is from Lesson 2.

LOVE IS THE BASIS OF THE SPIRIT
AND THE LAW OF LOVE IS THE BASIS OF CREATION

The nature of God is to give out His love for regiving, The nature of the master must be to give out love to inspire others to regive love.

It has often been my good fortune to hear such masters as Paderewski or Gabrilowitsch practice scales and finger exercises. The unthinking listener might marvel at such "skill", while one who listens with inner ears hears the silence of the Soul even in one's practicing. The Soul alone can give out love. The body can render a perfect technical reproduction but if the love nature of God is not in it it is not art, for the art of anything is not in the skill of rendering a visible or audible thing but in the beauty and love which only the stillness of the Light of your Soul can give to it. And therein lies the difference between the genius of the master and Soulless mediocrity.

That is why your constant communion with God is necessary for every moment of life and every stage of your creation. God must sit with you on your piano stool or work bench. Your hands must be His hands. Your thinking must be His thinking. Love must be interwoven in every stitch of whatever pattern you are weaving, every word you are writing, and every interchange between yourself and your fellow men.[]

From Home Study Lesson #16.

Lesson No. 12 began with these words from The Divine Iliad: "All questions are answerable in Light. Thou art Light. Thou canst answer them."

I repeat these words because you will gradually know their import as the lessons progress. You do not yet know their import and one reason for my repetition is to take advantage of your growing understanding of your Sonship with God which the last lessons have unfolded and add one more re-enforcing thought.

For this reason I will repeat the paragraph in other words, as follows: All questions are answerable by YOU. You have all knowledge within the Light of Self. When you KNOW this sufficiently to thoroughly believe it you will become as a rock upon which you, yourself, will lean.

This is a more direct way of making you feel that God's words were meant for YOU alone.

What I want you to do is form the habit of thinking inwardly toward your center of Consciousness instead of outwardly through your senses as mankind has been doing in the past.

That is what I mean by saying "you must know what to do with it" for the answer to all your problems lies within yourself. Anything which is wrong with you is due to an unbalance somewhere in your interchange between the two opposite conditions within which everyone must work.

You alone can find that unbalance which is the CAUSE of your problem. Your problem is an effect which you have produced. The more you work knowingly with God by thinking inwardly toward your God-Self the more you will keep every decision in balance. As your actions always follow your decisions they also will continually manifest the principle of The Divine Trinity.

That is what I mean by knowing what to do with it for when you go outside of yourself in either thinking outwardly or asking of others you are admitting that you do not know what to do with it, and will never know what to do with it so long as you continue to deny God in you.

That is why I have been telling you to never seek the solution to any personal, social or business problem outside of yourself by asking advice from anybody, of even telling anybody. The moment you do that you complex your problem mightily. No one can take over your problems as their own. No one even cares to listen to them. There is something in human nature that makes one shun listening to other people's problems, and that is the way it should be.

Candace: he explains later in this lesson, this does not mean you should not take your broken car to a mechanic for example, if you are not trained in such in this life. It is for your mechanic to extend his gift to you. But by listening within, you can determine whether you need the mechanic in the first place or perhaps trash the car. And so on and so forth. Listening within can help you see the thugs in car mechanic ville also. and lessen your being taken advantage of. those who will not think, or reason, always run off to follow everything and that is a major issue with people and churches run by the thugs of this world. I have no problem with churches as social clubs, but as to teaching about the nature of God they absolutely STINK to a very low heaven.

I still deal with people who think there is a God that was Created by "something" and can't discern hierarchy from the Creation. This should help you ones do that, whether new agers, lost star seeds, and those hopelessly mind controlled by religion. Esu actually taught God was the RULER of the 3 humans races in the aea where he walked back then, and that the Creation was above God.

Below is chapter one to this important book THE UNIVERSAL ONE. If you ponder nothing else, ponder these lines in which "God" is used in the context of the Creation, since most people, in English Christianity anyway, use God as creator, but also God as that nasty ugly boss. Man does not discern nature vs Hierarchy.

In the beginning, God.

There is but one God.

There is but one universe.

God is the universe.

God is not one and the universe another. The universe is not a separate creation of God's. It is God.

There is no created-universe.

Nothing is which has not always been.

All created things are from the beginning. They have no beginning. They do not come into being. They are and always have been and always will be.

Creation means to man the coming into existence of something which was not before in existence. Man's concept of creation is the coming into being of a physical, visible universe heretofore non-existent.

The Creator is to man's mind a Sublime Being, separate and apart from man, who created the physical universe of matter, causing to come into being that which had not been.

Man holds the concept of two universes; a spiritual and a physical. God is presumed to be of the spiritual universe, perfect. Matter is of the physical universe, imperfect. God supposedly created the imperfect physical universe separate and apart from Himself.

Man conceives a perfect and omnipotent God. A perfect and omnipotent God could not create imperfection.

He could not create a lesser than Himself.

He could not create a greater than Himself.

God could not create other than Himself.

God did not create other than Himself, nor greater, nor lesser than Himself.

In the sense generally understood by man God did not create anything. Nothing has been "created."

This is a "creating" universe, not a "created" one.

Man's concept of the sublime Being as the Creator of a material universe different in substance from the spiritual universe is a misconception.

God is all there is.

Beyond God there is nothing.

Superior to God there is nothing.

Inferior to God there is nothing.

Opposed to God there is nothing.

Creation is not more, nor is it less than it has always been from the beginning.

It cannot be more than God nor can it be less than God.

"Creation" is an apparent integration in continuity of that which already exists in substance. It is a periodic change of state of the One unchanging substance. It is evolution.

De-creation is an apparent disintegration in continuity of apparently integrated things returned to that substance. It is dissolution.

God is in reality, and exists in substance. God is thinking Mind. The substance, or body, of God is light.

The One universal substance, which is God, is a tangible substance, a thinking substance, comprehensible and describable and possessed of principles which are familiar to man through man's observation of the One universal substance in "created" things.

The substance of all "created" things is light.

The One substance of thinking Mind is all that exists.

The "created" universe is the registration in matter of the idea of thinking Mind.

Mind is expressed in light.

Light is the storehouse of the energy of thinking Mind.

The energy of the universe is the energy of thinking Mind.

The universe is a universe of energy.

Energy is expressed in light.

Mind is the universe.

Mind substance is "spiritual" substance.

Spirit is light.

Spirit is the ultimate, the eternal, though finite substance.

Spirit is not infinite. Nothing in this universe of motion is infinite.

Man's concept of an infinite God, possessing infinite knowledge and infinite power, Creator of an infinite universe of infinite extension, is not in accord with the laws of motion.

This is a boundless, eternal, dimensionless universe of definite limitations both as to all cause and to all effects of cause. Dimension is an illusion of relation of effects, which are in themselves but illusions.

All cause is comprehensible to, and all effects are measurable by man. A limited, measurable universe cannot be infinite; and a Divinity limited as to His range of cause, which, ipso facto, limits the possible range of effect, cannot be infinite.

Light is the living substance of Mind in action. It is the creating principle of the One substance.

The One substance is the etheric "spiritual" substance of the One universal Mind. The entire "created" universe of all that is, ever has been, or ever will be, is but the One substance in motion, light.

God is light and in Him is no darkness at all. (John i-5.)

Matter is light.

God and matter are One.

Spirit and matter are the same substance.

That substance is light.

There are not two substances in the universe.

There cannot be two substances in the universe.

The substance of the universal Mind is a living substance.

That which man calls life is an inherent property of the entirety of Mind. Light is life.

There is but One Life in the universe.

The whole of the universe is but One living, breathing, pulsing Being.

There are not two lives or two living beings in the universe.

There are not two of any thing in the universe.

The universe and all that is, is One.

archiving my now previous signature file to here to pick a new one.

"All men will come to me in due time but theirs is the agony of awaiting". Thus saith God in His Message of The Divine Iliad.

All down the ages suffering man has lifted up his voice unto his God saying: "Lead us out of the dark of our iniquities into the Light of Thy kingdom".

And God has answered man's prayers through inspired messengers who bring new knowledge of the Light of Love and the Brotherhood of Man into the world for the renewing of man's Mind with the power of new knowing.

But man did not hear God's Voice through His messengers, for man was still new in his primate days of little comprehension. Man crucified God's messengers and again suffered the fall of civilization after civilization by making every man fear every other man.

And yet again in our day the agonies of ten times ten million suffering mothers of men are crying unto God to save the world from another plunge into long ages of darkness. For once again the

human race is nearing another downfall into ages of darkness of its own making, for once again man has made a world of hate where every man fears every other man.

Over and over again man has climbed far into the heavens in his search for the peace and happiness which Love of man for man alone can give to him, and over and over again he has fallen because he has learned only to hate and fear and kill his fellow man for selfish greed, thinking thus by the power of might he will gain the riches of his seeking.

Man has never known Love as the very heartbeat of this universe--the motivative force behind all matter and motion which controls the stars in their orbits and brings forth the fruits of the earth for man's sustenance. Lao Russell

from Part 1 of the Divine Illiad

Such practices are a normal part of our present standard of civilization. It is difficult to realize that we are still barbarians. A civilization which kills and exploits others for mere gain can hardly call itself civilized. Humans can never justly call themselves civilized until they practice the love principle which God practices in all of His Creation.

Mankind has reached that stage of his unfolding where he must either learn the facts of inexorable universal law and practice them, or perish by his own hand. He will die by the sword he slays with unless his entire human relations are reversed from the taking principle to Nature's principle of balanced giving for regiving.

Man's scientific skills have made it possible for him to slay his entire race. A continuation of the old barbarian practice of taking, which has bred his many wars of hatred and aggression, will inevitably lead to a war of extinction unless Nature's love principle of giving replaces it.

Today the world is divided. Disunity marks all human relations--from industry to religion--from capital to labor. Two opposing world ideologies--democracy and communism--stand like insurmountable precipices to debar world unity. Freedom itself is not two centuries old.

Slavery was existent in our own country within the memory of living men. Through ignorance and superstition, America's colonial intellectuals burned old women at the stake as witches. Mighty empires are still attempting to build themselves into greater empires by the sword.

Man is at the crossroads of his unfolding. The old way of life which built his empires of hate and fear must be abandoned. This coming age must be built upon God's one law of balanced interchange in all human relations. There is no other alternative. To continue the old way means the destruction of civilization by multiplied hate. To follow the new path will mean the multiplication of love which alone will bring peace, happiness and prosperity to man.

Candace: what has changed since Walter wrote these words? Last debate its still war and dominion and you the people support it. Romney stated Israel will continue to be supported at all costs. Israel, its leadership, is the "antichrist" folks and under Romney there will continue to be war. And even this is a misstatement, as Romney is but a controlled speech giver as all our presidents are in this country and most if not all others.

Sciences has tried to say opposites attract. this is not law. Opposites VOID. Like attracts like, and war is going to attract more war. Peace and love will likewise attract peace and love. Ponder it. It is in fact nature's law which cannot be changed at any level.

And although Walter used "democracy" the word has changed in meaning, for it is but dictatorship and we are sending more dictatorship to the world every time "they" talk "democracy." Being able to "vote" for their chosen thugs is not any measure of freedom.

Readers, as you read this, this is each of YOU asking "who am I" this is also from the Divine Illiad part one. Lovely explanation of the ONE as you read it.

"WHO AM I?"

"There is but one process of thinking for there is but One Mind. There are not two Minds nor two methods of thinking; nor are there two sets of laws governing thinking.

"Nor are there two separate substances, nor two separate things nor two separate beings in My universe.

"All thinking is universal thinking.

"All thinking things are thinking in unison. "All are creating that which they are thinking.

"All thinking Beings are Self creating.

"All thinking Beings are creating all things.

"Man is Creator of himself.

"Man is the Creator of all that is.

"When man shall know My language of Light then shall he know My Voice.

"My still small Voice within universal man speaks to him in the language of Light, in words and tones, --and rhythmic waves extended from My Light."

"Within the heart of thinking man My Silent Voice has forever asked:

`WHO AM I?'

"Since the beginning man cried aloud, 'Who am I?'

"And My Voice forever answers, Thou Are I. I, the Universal One, am thou whom thou art creating in My image.

"I am I. I am I whom I am creating. I am the universal I.

"I am all that is, and Thee.

"I am He that is One with Me. "I am the empire of I that am I."

"since the beginning My Voice within man forever asks: `WHENCE CAME I?'

"And My Voice forever answers: "I came from God. "I am of God.

"I am Soul, record of Idea.

"Where God is I am.

"Where I am there God is."

"Within man My eternal Voice demands: `WHAT AM I?'

"And My familiar Voice within man answers:

"I am of the body of God, born of His substance. "God is Mind. I am Mind. "God is Truth. I am Truth.

"God is Love. I am Love.

"God is Life. I am Life.

"God is Light. I am Light.

"God is Power. I am Power.

"God is Rest and Balance. I am Rest and Balance.

"What God is, I am. What He commands, I command.

"My purpose is His purpose.

"God lives in me. My inheritance is from God and of God.

"He gives His all to me. He withholds nothing.

"The Divinity of me is Thine and mine. It is that which is recorded within the soul of me. It is the Holy spirit within the sanctuary of me.

"I am an Idea of Thine. The body of me is the Idea of the Soul of me. It is Thine and mine.

"I am the Master Sculptor. My body is the plastic clay. My Soul is the mother-mould of my body, the matrix for my regeneration.

"I am what I am.

"I shall be what I desire to be.

"What I am I have desired to be.

"I am the sun of my own desire.

"I am Thou, creator of myself.

"Thou are I, Creator of all.

"I am Thou, Creator of myself.

"Thou art I, Creator of all.

"I am Thou, Creator of All; for Thou has made it known in my heart that I am not of myself alone. "I am Thou and Thou art I.

"I am of the farthest star and of the blade of grass in my door yard. I am of my brother and of

the mountain.

"the ecstasy of my thinking varies the spectra of ten times ten billion stars and illumines the ether of endless space.

"Thy thinking has created all that is.

"My thinking is thy thinking.

"My thinking has created all that is.

"I am ecstatic man.

"I am man, self creating.

"I am God, creator of man.

"I am Father of myself.

"I am son of the living god.

"The ends of space are mind. I shall know no limitations that are not Thy limitations."

Within man My still small Voice asks ceaselessly:

'WHY AM I?'

"AND MY voice answers:

"I am an expression of the universal passion of Creation.

"God created me that I should fulfill His purpose. God gave me desire to create and the power of Creation.

"God dwells within me. I shall not deny the power within me which is God within me.

"I shall not close the ears of my Soul to the whisperings of my Soul, which makes me dwell on the mountain top in ecstasy of inner thinking.

"The universal desire is expression of Idea through the rhythm of thinking, in accord with the law, in endless sequence throughout endless space.

"Within man My ever questioning universal Voice beseeches: 'WHITHER AM I BOUND?'

"And my Voice answers:

"God was my beginning, is my substance and shall be my end. "From the One I came. To the One I return.

"I but tarry by the way to do the will of the One.

"I am universal man, the image of my Creator. Ecstasy and exaltation attend me, for I know that all that is, is within me.

"My dwelling place is in the high heavens on the mountain top, above the waters and the earth.

"I range the high heavens in ecstasy.

My feet are wings.

"The ends of space are mine.

"I sing praises unto all the universe by the way. The hosts of heaven rejoice with me by the way. "I have denied my unity. My universality I have not known.

"My dwelling place was the earth. I walked the earth heavily in chains.

"My earth-bound feet dragged heavily after me. I wearied of the long road.

"My back bent with the ache of its burden.

"I was lonely and the way dark.

"I shall not deny my Oneness and live in the loneliness of the dark.

"I shall know my universality and I shall dwell on the mountain top in the Light of inner knowing.

Hope dwells in the Light.

"Despair lurks in the dark.

"Life and growth are of the Light.

"Death and destruction are of the dark."

10/24/2012 11:36 PM

My text from THE DIVINE ILIAD consists of a very few words, but these few words are potent with much meaning:

"Seek Me. Know Me. Be Me. All men will come to Me in due time, but theirs is the agony of awaiting."

These few all-inclusive words clearly state the purpose of man on earth: "Seek Me." The purpose of man on earth is to seek God and find Him within himself.

"Know Me." The purpose of man on earth is to seek happiness and peace through knowledge of God. Man finds happiness only in the measure of his knowledge of God and obedience to His law.

"Be Me" The purpose of man on earth is to seek happiness and peace through knowledge of God. Man finds happiness only in the measure of his knowledge of God and obedience to His law.

"Be Me." The purpose of man on earth, therefore. Is to seek God, know god and be God by finding the kingdom of heaven.

When man finds the kingdom of heaven he will "know all things." That is what Jesus meant when He said: "Seek ye first the kingdom of God and His righteousness, and all these things shall be added unto you."

The only way that man can fulfill his purpose of finding God is by way of a series of transforming experiences occupying millions of years. Each experience of man during these millions of years gradually transforms him by giving him new knowledge of the nature of God. New knowledge renews the mind.

Paul said, "Therefore, be ye transformed by the renewing of your mind." The only way that man can be transformed is by the renewing of his mind by knowing god's law. The word righteousness as used by Jesus meant balanced human relations under the law.

The transformation of man from the jungle to the mountain top is a mental one. It is a slow journey, from body sensing to mental consciousness; from electrical awareness of body to cosmic awareness of the spiritual man manifesting God through the body.

Gradually this transformation of man has been taking place since his beginning. Time means nothing in the creative process. Man takes all the time he needs, but he who gains even one moment of time in the reconstruction or the transformation of himself advances that much nearer to the head of his class. Therefore, it is essential that we who wish to be transformed become aware of God in us so that we may know His secrets--that we may know His purpose--that we may know and understand the play of cause and effect which He has written for you and me to manifest.

Aeons of time pass during which we gradually come to know our purpose. Word by word and line by line we slowly become aware of our parts in the play, but the agony of awaiting that knowledge is ours.

"all men will come to Me in due time, but theirs is the agony of awaiting."

Seek ye first, last and always the kingdom of heaven, for there is nothing else we have done since we became an amoeba, polarized in the ooze of the planet by the light of the sun, until we have reached the top of our high mountain. That is all we ever do, forever and forever, during countless lives--we just keep on searching for the kingdom of heaven within us.

It is a long journey---a tremendous journey. It is the ageless journey of immortal man seeking recognition of his immortality through his mortality. When mortal man finally finds his immortality, he finds that for which he is searching, and knows it as God.

Thank you for this thread!

Quoting: **Settle4It**

I was introduced to walter russell thru the Phoenix Journals a number of years ago, but was unable to afford hundreds of dollars for the books at the time. People are making them available now on the web for all to enjoy. I was impressed in what I was exposed too then. Now that I have most of his work, I am absolutely enthralled with it. More coming. This was a great christ.

And his teaching of how god creates matter and everything else, is just superb. He redid totally the so called periodic table of elements that I could NOT STAND and much more in school. Everything he brought is right. And I know its right. This is what i know deep inside. And he writes well in terms of the ability to teach.

He went into 40 days of higher consciousness as some people label it, and brought this stuff into the planet about 25 years before he was given permission after the end of WW2 to begin publishing and teaching it. Tesla said of him at the time, that this material was 1000 years too early.

But you see, we don't have 1000 years more on this planet to get this. we are in the end of this age, and a whole new cycle is upon us, because of cosmic energies affecting the solar system at this time, and nature does not pause to give man another 1000 years to understand what he should already know.

This material has been buried. He sent it to major world scientists, some who stole part of it and used it as their own (Einstein, who didn't pay attention to the other part). This should have been required learning in all science classes and all theology classes and should have long ago been part of those Sunday lectures in church.

We are here Settle4it to get this light going. I am glad to see someone who knows they are "supernatural" here. Sadly, none of this stuff is truly "supernatural", it is just man's ignorance of what is there. But we who are here to help, are super humans, who have been there and done that, and we have a huge challenge before us.

ok posting this signature file here so I can replace it.

For millions of years, man was unaware of his conscious Self. He was but body, expressing the desires of body, constantly seeking that which his body needed, and taking it by his might of physical strength. During those aeons of his unfolding, man was totally unaware of his unity with God and mankind. Likewise, he was totally unaware of the universal inexorable law which governed his every action.

Then came the dawn of consciousness. Man began to know. Then he created extensions of his body to do for him what his body could not do. He created a boat to transport his body--then a sail for the boat- -then a wheel--and fire to warm him and cook the food which he formerly ate raw during the animal stage of his unfolding.

Then came the long savage and barbarian stages of increasingly complex human relations based upon the jungle principle of taking that which he wanted by the power of might-over-right. During thousands of years tribes warred upon other tribes, building themselves into nations, and then empires, to gain possession of the wealth and services of other tribes and nations by acquiring their lands and people for ownership and exploitation.

Such practices are a normal part of our present standard of civilization. It is difficult to realize that we are still barbarians. A civilization which kills and exploits others for mere gain can hardly call itself civilized. Humans can never justly call themselves civilized until they practice the love principle which God practices in all of His Creation. Walter Russell

We are still Barbarians more than 70 years later. That we have more technology does not mean we are civilized. -Candace

Ok to day I will work here again a bit. The next posts will be from Home Lesson #23, which covers misunderstandings of mind etc.

Intro to lesson #23.

There have been so many teachings based upon blind reasoning, so many theories based upon misunderstood mental and physical experiences, so many misconceptions of God and Mind based upon sensing, that it is well to so vividly define these relations from a scientific basis so that all guessing will be entirely eliminated from future comprehension.

The confusion of ideas and theories has arisen because of the impossibility of penetrating the veil of the invisible universe of Mind-KNOWING through the senses of the body. The miscomprehension of man that he is thinking with his Mind when he is only sensing with his body has given rise to the many misconceptions regarding both Mind and body.

That is why we hear so much that is popularly believed about such non-existent things and conditions as unconsciousness, conscious Mind, sub-conscious Mind, super-conscious Mind, the human mind, mortal mind, and other terms. These all arise from the misbelief that people are thinking, when they are but sensing with their electric senses which do not think and cannot know anything.

The more you study pages 137 to 144, until those first principles become a part of your knowing, the more you will find yourself beyond the possibility of confusion.

To these pages I would add a brief explanation of what causes such strange misconceptions. In the following lessons I wish to stimulate your imagination with a different presentation of the difference between the spiritual and physical universes than you have ever yet heard. I will do this in order to help you see the material universe as I see it and the spiritual universe as God taught me to KNOW it.

(sometimes I wonder if we can ever bring man out of spiritual confusion as to the spiritual and the body system).

THE EXPLANATION OF UNCONSCIOUSNESS, Home lesson #23 continued. This is IMPORTANT.

There is no such condition as unconsciousness.

When you are wide awake your body is like the rippled surface of a lake. It is vibrant with waves. Those vibrating waves of motion are your electric senses. Those vibrating waves of motion are also your body.

Give thought to this fact for just a moment. When you fully realize that your body is only electric waves of vibrant motion you could not possibly think of your spiritual self, the Being which is YOU, as being only waves of motion.

You have inspired thoughts, deep emotions, glorious conceptions. You cannot possibly attribute your love of beauty, your family and friends, or your rapture of Soul in contemplation of Nature, or your inventive genius to waves of motion.

Nor can you think of your knowledge as being only motion.

Your vibrating senses do not know anything. They are not conscious of anything. All they can do is to sense other motion. In other words all they can do is to feel. Senses are made to feel other motion, and that is all they do--and nothing more.

We say that we have five senses, that of seeing, tasting, smelling, hearing and feeling. All of these are one. We feel differently with our eyes, ears, nose, tongue and body but they are all just that one sense of feeling. And that is all that the whole physical universe is composed of--just senses--sensed waves--sensed bodies of motion which feel other sensed bodies of motion.

Moreover, no sensed body in the universe could even move if not "told to do so" by The

Intelligence which centers it. Just as your car cannot move without desire extended to it by its centering Intelligence, so, likewise, your body and all other bodies move only because of desire of The Universal Intelligence centering them, and not otherwise. And this is as true of the atom or stellar system as it is true of the little finger of your body.

Your senses are the intercommunicating system of your body. They all feel each other's motions. They are all extensions from a "central switchboard" which is your brain. We have before stated that our brain does not know anything, for it also is but motion. Our senses send messages to each other through the brain. The senses of the whole universe likewise send messages to all the rest of the Universal Body through the centering nerve ganglions of each atom in the universe, for the entire universe is but one intercommunicating sensed body, each atom of it being centered by the Universal Intelligence which created it and is controlling it.

For ages people have thought that the sensing of one state of motion by another state of motion in one's body is THINKING, instead of just merely FEELING. Sensed feeling of motion by other motion has no relation to thinking whatsoever, for thinking is a manifestation of knowing. As sensed matter cannot know anything it cannot, and does not, think.

If the senses of man could think, or have knowledge, the human race would have had such discoveries as the flame, the wheel or the boat, ages and ages ago, for the senses could feel as well then as they do now, but thinking did not begin in man until the dawn of Consciousness. Likewise the senses of animals can feel as well, or even better than humans, but animals do not invent or discover laws, processes nor principles in Nature.

Animals reason, just as men do, but reasoning is but weighing one effect of sensed experience with other effects which arise from our "sense of observation".

What we mistake for the mental action of thinking is purely an electric awareness of motion. It is not Consciousness at all. Nor is conscious Mind aware of motion, for it does not even KNOW of it.

Electric awareness is the awareness of one sense of motion by another sense of motion, and that electric awareness ceases when motion ceases. The whole universe is "wired" from every point in the universe to every other point to transfer any sensation anywhere to every other where.

If, for example your body is in balance with its environment, which means if it is comfortable, you cannot sense that fact because the senses will not vibrate in an equilibrium. When there is no sensation the nerve wiring of your body is "dead". You must be unbalanced, or uncomfortable, before the senses will vibrate to tell all your other electrically sensed nerves that your body is cold. That electric awareness then causes you to get a coat for your body. Or if you are hungry, or wet, or fall out of balance, your senses will immediately vibrate, but not otherwise.

A great deal of concentrative energy is expended to keep your sensed body vibrating sufficiently for you to be electrically aware of either your body or its sensations. That is what I mean by saying: "when you are wide awake your body is like the rippling surface of a lake, vibrant with wave motion".

When you are asleep, either from fatigue or from an anesthetic, your body is no longer vibrant with wave motion. The waves "lie down to rest" because they are depolarized. Wakefulness is a polarized condition which induces strong electric current.

You sleep when your senses become too fatigued to vibrate, BUT YOU DO NOT BECOME UNCONSCIOUS. As I before stated there is no such condition of the Mind as unconsciousness. You do not say that your tooth is unconscious when anesthetized, Mind is unchanging and

unconditioned. The thinking of Mind changes but thoughts of Mind are not Mind. Thoughts are motion and Mind is still. Thoughts manifest knowledge but thoughts are not knowledge.

The silent harp string has in it the Soul of an idea. The vibrating harp string gives that idea a body which you can hear as sound. Sounds are sensations. All bodies are sensations. When the sound vibrations "lie down to rest" in the equilibrium of the harp string the idea of that harp string is still there in the silence from which the sound sprang. You can still know the sound but you cannot sense it.

Candace: those of you who have had general anesthesia should know you do not become "unconscious" as to mind activity. You DREAM etc during it.

next part of lesson 23 home study course.

SUB-CONSCIOUS, AND SUPER-CONSCIOUS MIND

These terms are commonly accepted terms by practically all metaphysicians, writers, workers in the arts, psychiatrists and others who give thought to human mental processes.

There are no such conditions as either sub-conscious or super-conscious states of Mind.

The confusion of ideas which borned such concepts arose from the mistaken belief that sensations of the body were mental. Body sensing has been mistaken for thinking, so when the electric current which caused sensations in the body weakened sufficiently to reduce the body's electric awareness of motion sufficiently to deaden, or stupify the senses, people concluded that they were unconscious because their bodies had lost all awareness. **Consciousness is the state of KNOWING. There is no activity in KNOWING, but there is activity in THINKING.**

Mind is not stratified into sub or super layers. Mind is universal. It is all there is, and it is everywhere the same unchanging One Undivided Light of all-knowing from which all motion springs.

Consciousness never changes. Everyone is always conscious but few are aware of it. The human race has not yet unfolded to the point where it is cosmically aware of its Conscious Soul.

Candace: I can give a little example here of what people think is thinking that is not. Your body is cold, so you go put on an appropriate garment from your collecting of clothing, or pull up another blanket. This is your body making a request to you and it is NOT thinking.

Now thinking, on this would be when you go shop for a garment, or blanket and consider the price, the construction, the purpose and the amount of cold it will protect your body from. It is not even true thinking to decide on a sweater or a coat in actuality when your body informs you it is cold. This is still pretty much a program you have. Sort of like a file on your computer you might place and call " solutions to cold". Under that file you have sweater, coat, heavy coat, a long sleeved shirt, perhaps choice of colors to match the outfit of the day. You select from this pre existing file, but its not really "thinking". It's more like just reacting/instinct.

People have all sorts of these files they make after birth as they are mind controlled by their cultures. To select "repeat" to something already on file, is not thinking. Our religious folks here, they just select copy and post, mentally when they "argue" for their "beliefs". In fact these "beliefs" are just files that are stored and each time somebody pushes a button, they elect say, the hell fire file, or the devil file , etc. These ones are not yet truly conscious of thinking.

THE SUPREME HOPE OF MANKIND

It is my desire to close this first half year of these lessons by climaxing all that has gone before with some ideas for you to give deep thought to for the unfoldment of your own higher powers. I am mindful of the fact that the reason that you are studying these lessons is because you are very far ahead of the masses of mankind. You have had sufficient cosmic awakening to have generated within your spiritual Self an intense desire for the Light of all-knowing which will transform you from the human animal stage of unfolding man, whose body senses have been preponderant in dominating your life, to the divine Cosmic Being whose Soul-Will will be the absolute master of your body sensing. **YOUR awakening to the Light of Love will awaken your brother to the Light. You are the Light of the World. You are the saviour of man from himself.**

I want to point out to you the fact that the whole human race has become divided into two groups-- a nascent few of the many whose ascension is toward the Light, and the decadent millions whose descension is toward the dark.

The world is undergoing the agonies of a cataclysmic rebirth from body sensing to Mind-knowing. You who are becoming aware of your Soul will become the seed for saving the human race from its deep plunge into the darkest of all of its dark ages since the dawn of Consciousness in man.

Civilization has been self-destroyed many times during the past six thousand years, and is again being self-destroyed, and all for the same reasons--SELFISHNESS OF BODIES, AND DESIRES

OF BODIES FOR SENSATIONS OF BODIES.

Civilization can be reborn only through LOVE OF MIND EXPRESSED IN BROTHERHOOD OF BODIES.

For thousands of years men have been hurting each other to gain something for themselves. They have not yet found out that they cannot hurt another but can hurt only themselves.

The reason for the present decadence of the human race is because of the accumulation of the self-punishments resulting from the continued hurting of man's own self BY HIMSELF, while attempting to hurt other men.

Empires are being disintegrated because of man's attempt to gain happiness, wealth, power and prosperity for himself by destroying the happiness, wealth, power and prosperity of others.

New empires are attempting to be built by destroying other empires. Empire builders have themselves created their own destroyers. To live by the sword is to die by the sword.

Empires are not only being destroyed from without, but from within. Graft and corruption are rampant in Governments. An era of unprecedented crime is undermining our own country as termites undermine buildings.

Nations which were built upon crime are being destroyed by crime, nation by nation and man by man. That which man gave to man is being regiven to him in his own image.

There is deep decadence in all the arts. Beauty has been replaced by ugliness in painting and sculpture.

Culture is at a lowering ebb all over the world. No great men are being produced of such majestic standards as those great geniuses who have given us our present world culture.

Candace: and this was written at least 50 years ago, what has changed? You who find this material enlightening are the salt of this world. Rarely are any of you from HERE. Ye are star seeds, awaken to it.

Walter Russell speaks of MAN becoming illumined cosmic Man. The Mother Gaia is also herself now at this stage and making her ascension into cosmic MIND also. She is a thinking rational being, whose body is of course this planet. Bodies are not limited to the type we walk in. They are not all meat suits. Gaia is also seeking to become one with the Father. Willingly, knowingly, consciously. She is a person in her own right.

Hoping it is alright for me to post this here.

"Genius Inherent In Everyone, Walter Russel 1946"

...was the first Walter Russel Book I studied, did pass it on to my children.

Quote: "Mediocrity is self-inflicted

Genius is self-bestowed"

and another one, that resonates deeply within myself is:

"He who seeks possessions for himself will never find them -
until he begins to give of the abundance of possessions Which he already has."

From the Fallacy of Individuality, explanation in brief for the statement by Jesus that the Meek Shall Inherit the Earth. for only they can multiply, regift.

Read the rest here: [\[link to www.philosophy.org\]](http://www.philosophy.org)

A fundamental law of Nature demands that one learn how to lose his life in order to find it, or learn to unbind and set free in order to possess, or learn to give in order to be enabled to take. If you make the mistake of seeking greatness in the one direction of your ego instead of balancing that search by seeking in the opposite direction toward the universal ego, you will fail to find it. You cannot multiply yourself by yourself. You must divide yourself and distribute it into all other Selves through service and experiences. You will then take them back multiplied a thousandfold. In other words, if you want to be a rare person, you must learn how to entirely lose the very idea of greatness in humility. You cannot become great by accumulating greatness. You can find it only by learning how to transform humility into greatness.

Instead of contemplating the greatness of your individuality, contemplate your littleness in the universe. It is the meek who inherit the earth. Greatness springs from meekness. Every effect in Nature springs from its opposite effect and never from itself. This principle is universal. It applies to all things, both spiritual and physical.

Heat is accumulated by multiplying cold. Refrigeration necessitates dividing heat by radiating it. High electric potential is stepped up from low by multiplying low. Conversely, low is obtained by dividing the high. All power is multiplied weakness, whether physical or spiritual.

To shorten the journey ahead, you must lengthen the distance behind. To spring, you must first stoop. To concentrate, you must first decentrate. To focus to a multiplied point, you must gather from a divided area. The water you drink also drinks you. The fruit of the tree is gathered from an extensive environment, for the fruit is not in itself. It must be divided and spread out before it can be again gathered. The acorn must disintegrate to reintegrate. It cannot multiply itself into a strong tree without dividing itself into the many parts of the whole universe.

This code of ethics is all based on UNIVERSAL, NATURAL LAW.

[\[link to www.philosophy.org\]](http://www.philosophy.org)

CODE OF ETHICS FOR A LIVING PHILOSOPHY

To bring blessing on yourself, bless your neighbor.

To enrich yourself, enrich your neighbors.

Honor your neighbor and your neighbor will honor you.

To sorely hurt yourself, hurt your neighbor.

He who seeks love will find it by giving it.

The measure of a man's wealth, is the measure of the of the wealth he has given.

To enrich your yourself with many friends, enrich your friends with yourself.

That which you take away from any man, the world will take away from you.

When you take the first step to give yourself to that which you want, it will also take the first step to give itself to you.

Peace and happiness do not come to you from your horizon. They spread from you out to infinity beyond your horizon.

The whole Universe is a mirror which reflects back to you, that which you reflect into it.

Love is like the ascent of a high mountain peak. It comes ever nearer to you as you go ever nearer to it.

Russell Quotes collected by an individual here: [\[link to philosophersnotes-samples.s3.amazonaws.com\]](http://link.to.philosophersnotes-samples.s3.amazonaws.com)

“The Life Triumphant is that which places what a man gives to the world in creative expression far ahead of that which he takes from it of the creation of others.”

“Every successful man or great genius has three particular qualities in common. The most conspicuous of these is that they all produce a prodigious amount of work. The second is that they never know fatigue, and the third is that their minds grow more brilliant as they grow older, instead of less brilliant. Great men’s lives begin at forty, where the mediocre man’s life ends. The genius remains an ever-flowing fountain of creative achievement until the very last breath he draws.”

“I believe that every man has consummate genius within him. Some appear to have it more than others only because they are aware of it more than others are, and the awareness or unawareness of it is what makes each one of them into masters or holds them down to mediocrity. I believe that mediocrity is self-inflicted and that genius is self-bestowed.”

“The thinking of creative and successful men is never exerted in any direction other than that intended. That is why great men produce such a prodigious amount of work, seemingly without effort and without fatigue. The amount of work such men leave to posterity is amazing.”

“‘I have absolute faith,’ he asserts over and over again, ‘that anything can come to one who trusts the unlimited help of the Universal Intelligence that is within, so long as one works within the law, always gives more to others than they expect, and does it cheerfully and courteously.’”

“I never let the thought of failure enter my mind. My knowledge of my unity with the Universal One and the fact that I must do this thing, and the inspired belief I should do it as a demonstration of my belief in man’s unlimited power, made me ignore the difficulties that lay in the way.”

“I spent the entire time absorbed in inspirational meditation with the Universal Source of all inspiration, in order to fully realize the omnipotence of the Self within me as a preparation for doing in a masterly way what I would otherwise be unable to do...”

If I had followed the usual procedure of the superficially-minded man and played bridge all the way down to Florida, or otherwise enslaved my mind by sidetracking it from its creative purpose... I would have failed. In fact, I knew in advance, from long experience in trying to achieve the unachievable, that meditation and communion between my Self and the Universal Self was the only way to achieve that impossibility. ”

This is from my personal copy , part (less than 50%) home lessons #21. No link. You can obtain this from various websites and the hard copy form various websites too. Google Walter Russell

Home Study Course.

I will put portions of this in my signature file for a couple days. I would suggest some of you reading here might put short quotes in yours to generate interest. This is so beyond the "bible".

DEEPER THOUGHTS OF LIFE AND DEATH

"Take thou man's death away from him in this new day of man. Give him eternal Life in Me by knowing Me in him."

From The Divine Iliad

We again repeat God's words as they were given to me in my instructions regarding the giving of His new Message to newly comprehending man of this electric age.

When saying "take thou his death away from him" our Father-Mother means that man is eternal and cannot die. He does not mean that bodies do not die, for all creating things grow, decay, generate and radiate as they sequentially appear, disappear and reappear.

Life and death are but opposite expressions of the same thing, an eternal continuity of repeated interchanging with each other, for life could not live without death and, conversely, death could not die without life.

It might clarify God's meaning in His Word if the above were paraphrased as follows: "Take thou man's ignorance and fear of death away from him and give him knowledge of eternal life in him. Make him to know that he lives in Me and never dies, for I am he. In Me there is no death.

"Make him to know that life in bodies is but the multiplied motion of My concentrative thinking- - and death is but a division of that motion as My thinking decentrates to find rest in Me. And when both life and death are added together their total is but the zero of rest in Me."

Reduced to its utmost simplicity this means that life and death are but two opposite directions of motion. Life is the generative direction of concentrative thinking and death is the radiative direction.

What could be more simple? Our bodies are but wave cycles of motion. Our bodies simulate eternal life by the eternal repetition of life-death cycles, but our bodies are not our Persons, or Beings, or our divine Selves.

That is the thing God wants the new age of man to know. Past ages have feared death because they did not know its meaning. The dread of death is born out of the belief that man dies when his body no longer functions, and that death of his body is his end.

It is unbelievable how many intelligent people of today actually believe that way. In our acquaintance is a very wealthy, successful, intelligent, kindly man who lives life generously and abundantly who says: "When you are dead you're dead, and that's the end of you." And he sincerely believes it because he thinks of his body as being his Self. He actually believes that his intelligence is within his brain, that his brain is Mind, and that his own individual Self has no connection with any other Self, or with a universal Mind.

LESSON NUMBER 25 of Home study course. No link, from my personal copy. well less than 50% of the lesson. As you read this, remember, its more than 50 years ago, what has changed? Man

has moved backwards in many ways.

WE STILL SEARCH FOR SIMPLICITY

We live in a bewildering world which confuses us only because we do not know it. A primate would be similarly confused about a watch. To him its wheels would have no meaning because both the mechanics and purpose of the watch would be incomprehensible to him.

Yet the watch is very simple to you. Its mechanics and purpose are perfectly familiar to you. You regard it as a very simple thing to understand.

You are confused about Creation because you do not know it. Likewise, you are confused about The Creator because you do not know Him. Also you are confused about the mechanics and purposefulness of matter and motion because you do not know them. You may think you need not be interested in knowing about matter and motion because it seems difficult, but you **MUST** know their cause, and that is very simple. Without this knowledge you are like a ship without a navigator.

You **MUST** know Creation, for your body which you are building, is one unit of it. You must know how to control it. You also must know it for what it is instead of what you think it is. When you become familiar with it as being but certain states of motion you must know that those states of motion are wave-records of your desires just as a picture is the record of the painter's desire.

A manufacturer produces a better product in the measure of his knowledge of his product. Your body is as much your product as the products of your factory. Millions of years of your desire produced it. In one minute the desire of your will can alter its entire structural balance in either direction--toward life or death--without the slightest physical action upon your part.

The medical profession can make enormous strides in its great service to man by starting upon a basis of greater knowledge of **CAUSE** of the countless effects it encounters. In its search for **CAUSE** of effects in matter its beginnings should be in a greater knowledge of motion which matter is, and the relation of Mind to motion which polarizes or depolarizes body structure, or unbalances its polarity to form destructive tissues and destructive electro-chemical reactions.

Starting a bit with the "science" here. Lesson 25, a bit more, still well under 50%. To the list inside the post, of opposites, add "yin yang" God's knowing mind, rests, and the thinking mind "moves". It's getting late, long day, I need to de centrate both the mind and body for the night. Both are seeking rest.

The sexed two way thinking is the male and female, manifested in every thing, not just plant and animal bodies. Hydrogen is MALE. Oyxgen is female. They are opposites. Then they void each other and make a baby, water.

YOU SIMULTANEOUSLY LIVE IN TWO WORLDS AND YOU MUST KNOW BOTH OF THEM THOROUGHLY--AND THEIR RELATION TO EACH OTHER

The universal pump would not continue to unfold this appearing-disappearing two-world universe if it were not for that electric interchange of motion from one side of an equator to the other as long as the energy of DESIRE divides the undivided still Light into pairs of moving lights.

Suppose, instead of my having used the words appearing-disappearing universe in the above paragraph I used the words living-dying universe--Or growing-decaying universe--or generating-degenerating universe--or gravitating-radiating--positive-negative-- male-female--hot-cold--or centripetal-centrifugal universe.

No matter which pair of words I used they would all have the same meaning. They are all of them the compression-expansion strokes of the piston which pumps opposite pressures FROM EACH OTHER to MAKE BODIES SEEM TO APPEAR OUT OF NOTHING AND THEN DISAPPEAR INTO THAT SEEMING NOTHING WHICH IS THE REALITY OF ALL SEEMING.

CREATION IS AN IDEA AT REST IN GOD'S KNOWING MIND, MANIFESTED BY TWO-WAY MOTION IN GOD'S THINKING MIND.

CREATION IS AN IDEA AT REST IN GOD'S KNOWING MIND, MANIFESTED BY TWO-WAY MOTION IN GOD'S THINKING MIND...

One of the best statements I have heard!

Quoting: **Settle4It**

and since each human mind is a god mind, this applies to everyone, and is that which makes man a Son of God. Out of your own rested mind, comes your own creative thinking in two way motion, constantly shifting between polarization and rest.

We have to stop making God this person of love who swats people he doesn't like with a big fly swatter. Natural law is natural law and it does not deviate, it is not a God sending people to hellfire to burn forever. Earth is undergoing changes to rebalance herself, because man on her surface is out of balance, nature will always seek to rebalance and man learns from that the laws of nature's God if you will in terminology. There is no hellfire in nature, thus it does not exist in God. At all.

All thinking beings are co creators with God, it matters not if you are man or angel. We all together create everything. When man truly understands that one, and that God IS HIM, everything will change on this world. He will start feeling "like the Father" and will not want to engage in anything destructive, he will begin himself to seek balance.

*"And I understood that in an age where there was so much ego, because of the camera, that it was very important to look for that kind of player, ... I began to look for the kind of player that doesn't need his ego fed by stardom, but will do what he's supposed to do because he knows the game and loves the game, and will do the job the right way even if someone else gets the glory."

"Every genius thinks INWARDLY toward his Mind instead of outwardly toward his senses. The genius can hear sounds coming out of the silence with his inner ears. He can vision non-existent

forms with his inner eyes and he can feel the rhythms of God's thinking and His knowing -- which are a blank slate to the man who believes that HE is his body. When a human rises to the exalted state of genius, he becomes a co-Creator with God. The beginning of creative expression in man is the first evidence of the unfolding Light of his genius, for no man who is purely sense-controlled can create. He can remember and repeat the records which he has imprinted upon his physical brain, but his brain has no knowledge. Therefore, he cannot create. Man can create only with his Mind -- and the brain is not the Mind. The brain is merely the seat of sensation and the electric recorder of sensation."

from Home Lesson #29, copied from my copy. No linky, you can research sources on the net . this is less than 50% of the lesson

THE GREAT MISCONCEPTION OF PRAYER

Practically every prayer which carries with it a request also carries with it the inference that God is overlooking something in the management of His universe and needs a reminder that things are not running smoothly enough to suit the petitioner. Also they carry the inference that requests are asked as personal favors from reverent and devout believers that such favors will be granted if enough devout and reverent people join the weight of their petitions together to be heard by God and His interest in their personal requests is sufficiently aroused. Such prayers carry an inference of intercession in someone's interest--as though intercession is necessary with God--or would have any effect whatsoever upon Him.

To those I would say that God does His part always and needs no reminder. His part of Creation is perfect. His law is perfect. HIS LAW ALWAYS WORKS. You do not have to ask God to make his law of gravitation work. Neither will he set it aside if you ask Him. If you fall over a cliff the law of gravitation will cause your death whether you are saint or sinner, and no prayer will set that aside. God will tell you not to fall. He has told you that in your very seed, but if you disobey you will perish.

God's whole universe is in perfect balance. He keeps it so. You may depend upon it always. If you want good crops God's law is there to give them to you IF YOU WORK WITH HIS LAW. But if you ask God to do your part of the work as well as His, you will harvest nothing, no matter how great is your faith.

Many humans would not ask God to cure a potato blight. They would think it quite reasonable that

the farmer does something to cure it himself. When, however, a blight strikes their own bodies, they vigorously condemn anyone who suggests that they do what the farmer does who works knowingly with God, doing his part of the work together with God's part of it.

What was the cause of the potato blight? Too much rain and damp?

What was the cause of the human body blight? Tight lacings generations ago? Wrong diet? Unbalanced emotional disturbances? Frustrations? Infection from rusty nail? Distorted seed pattern of ancestors unbalanced actions?

No matter what the cause of any disintegrating, or depolarizing effect the remedy for it is to restore balance. The restoration of balance in any machine can be accomplished through action.

The restoration of balance through any mental unbalanced condition is purely mental. A change of thought from negative to positive will cure any mental ailment. A physically unbalanced condition which is a reaction of the mental unbalance, will also become balanced.

Such a Mind healing has no relation whatsoever to faith and belief. It is purely CAUSE and EFFECT working in accordance with God's established law.

Purely physical abnormalcies, whether a broken bone, a cancer, a cut upon the head, a gunshot wound, paralysis from blood clots on brain, misshapen bodies or other deformities can be "cured" only by physical action. One might just as well ask God in all faith and belief to mend a broken spoke in an automobile wheel as to ask Him to cure a deformed foot without intelligent action.

Ok, Walter was asked a lot of questions thru his home school. A bunch about why some are successful and others not. This is SOME material from lesson #6

QUESTION. "You say that what is mine will come to me. It does not seem to. I am a salesman. I work harder and many more hours than other salesmen and barely fill my quota while others work much less and double their quotas. My wife has to work to help out while the wives of others selling the same things have servants and good clothes. Could you explain your success by giving some personal examples which apply to your principles?"

ANSWER. The great deterrent to happiness, peace and prosperity which every man is seeking is the still remaining influence of the jungle which is man's inheritance and is foremost in his memory.

The keynote of man's primate existence was SELF-PRESERVATION. The method he made use of to insure self-preservation was to take anything he wanted from other men for himself. The whole keynote of man's past ages has been SELF--the individual SELF. His whole desire was for SELF alone, and still is.

The whole keynote of Cosmic Man of future ages is THE UNIVERSAL SELF, which means a full realization of the brotherhood of man--AS ONE--and of unity with God--AS ONE. Man must now learn that he must lose his own Self in order to find the Universal Self. (Candace: this does NOT mean you give up your personality, it is a statement about service to others, rather than so much service to self.)

The basis of Cosmic Man's desire is to GIVE of himself for the Universal Self. In him the individual SELF is lost in the desire to give service for the whole of mankind to the exclusion of Self,--to utter forgetfulness of Self. (Candace: I do utterly forget myself in these long hours of service. to the point I forget to shower, eat... until the body rises up significantly enough to remind me of its needs.)

In the above you find my answer, in principle, to all of the questions asked regarding personal success. Now let us take this principle apart and analyze it. Let us show how it works by example and analogy. Let me thus show you how it worked for me, for my whole policy of life has been based upon selfless service for the universal Self as a whole and it has worked for me just as it works for all others in the measure in which they place service to all men before service to Self.

More from lesson 6, which is still well less than 50%.

1. I loved the world which I am, and desired to serve it with love by giving more than was expected of me.
2. I desired to be worthy of serving the world.
3. I desired to excel in all things.
4. I set no limitations upon myself. I KNEW that I could do whatever I desired to do. As my desires were boundless, so were my powers to manifest them limitless.
5. I sought no reward, asked no favors, or intercessions in my interest from any man.
6. I worked knowingly with God and knew that I need not ask for reward, or favors or advice or intercessions from any man so long as I gave of myself to all men.

As a prelude to this statement it is well to explain that when I say that God sent to me the great happenings of my life--as He does to you, I mean that God is LAW--so when you or I become LAW by obeying it, that actually means that God sends us that which we have desired. In the sense that I and my Father are ONE I myself sent them to myself as you likewise do.

Conversely, if I do not become LAW I violate it. God then withholds my desire until I do obey it by becoming the law. In the same sense that I and my Father are not ONE--when I am not LAW--I myself have withheld my desire from myself.

As a young illustrator I was asked to illustrate a story called "Ten Little Pigs". After completing my drawings I was not satisfied with them. They did not excel. I spent a week in the country studying pigs and did them all over again. More love went into them. I worked with God's hands in mine instead of mine alone. They excelled.

The love I gave them was reflected in Mark Twain who regave it to me. Work done worthily brought Mark Twain into my life. He consulted with me regarding illustrating "The Jumping Frog of Callaveras County."

Work done worthily, and with love, by you or any other man on earth, no matter how lowly he is, will make the greatest men of earth want to know you. You need not seek them, nor ask others to intercede for you, or to give you letters of introduction to them.

from Lao Russells, God will work with you, but not for you. No linky, from my copy. its a whole book of 124 pages so this is well less than 50%

There will come a time, however, when the whole human race will know itself as one family, with but the one FATHER-MOTHER of all. When that day comes every man will be the father and mother, or brother and sister, or son and daughter of every other man. As love comes into the world with spiritual unfolding, separateness and disunity go out of it. With love comes knowledge of the power of unity which makes the power of every man become the power of every other man. Separateness and selfishness breed each other. Separateness makes one man want for himself what every other man also wants for himself. Separateness takes. It never gives, and long ages of taking must pass before he learns that what he takes he never has, but what he gives he always has.

The long ages will pass, however, and every man will serve every other man whom he knows as his very Self. Blood relationship is mighty in its desire to serve sons and daughters, or brothers and sisters, and fathers and mothers in one separate family. No matter what wrong a son may do to the whole world, the love of parents is greater than the fault.

The happy, peaceful and progressive home is one where each member of the family thinks first of each other member, serves first each other before himself, and freely gives without motive of self-gain. In the ideal family everyone will not only serve each other to make him happy but will refrain from doing anything to make any member of it unhappy. That is the ideal. That is what every home needs to make complete happiness for every member of it.

The world is one family of one world-home. The ideal world is one in which every member of it serves each other lovingly to give him happiness, and refrains from doing anything which will take his happiness away from him. That is the ultimate goal. That is what mankind is striving for. That is what he has been striving for over the long aeons. For these long ages he has ever been searching for the road which will lead to that goal of romance and peace.

More from Lao Russell, same book as previous post. page 120

The prophets who knew God told men of His love. God spoke to messengers, like Buddha, Zoroaster and Mohammed, who knew His Voice, and the meaning of it. He gave messages to them for His people. God gave the same messages to all their peoples, but they did not know that God spoke to them. God speaks to all creatures of His Creation, but they do not know that He speaks to them.

Birds do not know how to build nests, or to fly south, or why. God shows them how and directs their flight by polarity control. Spiders do not know how to build webs, nor to calculate their necessary stresses and strains. God works with them and tells them how. His Presence centers the spider and ant to manifest His love with the same care that He gives to man. That is what is meant by God's Omnipresence.

God is everywhere, for Mind is everywhere. Every particle of creating matter, and every forming body, are centered by the Soul-Mind, from within, to control it, and two so-called magnetic poles are extended from that center to guide, and balance it. Just as the center of gravity and the two poles of this earth balance and control its every movement and relationship to other planets, so is man centered and controlled. Man can defy that control if he desires to do so, but his defiance is costly to him in many ways. In animals and the elements of matter, which living bodies are created from, there is no defiance of that law, hence Nature is always in balance.

we aren't there yet good buddies. More from Lao written way back when. Today we still observe man in his jungle, and within the upcoming election, he continues in his jungle.

God, man, woman, and Nature are the only elements man has to know, and to interrelate, in order to build an enduring civilization. Man's lack of knowledge of these elements, and how to interrelate them, has caused his hard-built civilizations to fall many times, as it is again about to fall unless man can "be transformed by the renewing of his Mind" in time to save himself from that dread catastrophe.

This new concept is, in reality, a new understanding and a new interpretation of the teachings of Jesus, the only fully-illuminated Christ Conscious mystic of all time. Jesus gave to the world a complete way of life which would have endured forever if men had but comprehended Him. Man was still too new, too close to the jungle of his primate days, to even faintly comprehend Him.

People of this electric, radio-conscious age are now fully able to comprehend His teachings if they will but throw off old pagan traditions which have been too securely riveted into the thinking of this age. If Jesus were here today to give to the world His supreme knowledge, His greatest obstacle would be in overcoming the pagan misinterpretations of His own teachings, which have built an impregnable wall of superstition, evil, magic and belief in the miraculous and supernatural, around man's thinking. When one realizes that many of our highest intellectuals believed in witchcraft and burned witches alive within the last two hundred years, it is easy to see how strong a hold early pagan thinking has upon modern thinking.

This will be the greatest obstacle in presenting the real meaning of Jesus' teachings herein. There are many, however, who are ready for new comprehension. If those who read these teachings are sufficiently open-minded to accept them, then we can in fact save this world from its threatened oblivion and replace it with an enduring world of peace, happiness and good will to men. This high pinnacle can be reached only by unifying the whole world into one family.

Let us, therefore, transform the world by the renewing of the world-Mind. That transformation can take place only by acquiring knowledge of man's inseparable and eternal moment to moment unity with a comprehensible God, and of man's unity with man, woman, and Nature.

The world could have had a dynamic knowledge of God, and of His relationship with man, long ago, instead of the vague imaginings it now has, if it had comprehended Jesus' teachings. He told man to look within himself to find the answer to all things.

What did He mean by that? What is there within man which could be "the kingdom of heaven," and all things else?

He meant MIND. He meant that all there is in this universe is Mind and body--which means Creator and Creation, and which also means Cause and Effect. And that IS the answer to all things. It is the complete answer to what God, Nature, man-woman, energy, silence, sound, stillness, motion, and all things else, are.

God's Mind, and the electric pulsations of His divided thinking, constitute the entirety of this universe. Beyond that there is naught else.

God's omniscient, omnipotent, living, conscious Mind is eternally at rest. God's electric thinking is eternally in motion. His electric, creative thinking extends from centers of stillness to create bodies, which live for a period of time, to manifest His knowledge of power and action. All living bodies thus extended from Him to express His energy by action, must then return to Him for a period of rest, before again extending into another pulsation of action. This is the principle known as reincarnation or repetition of body patterns, which is the characteristic process of Nature.

Man conceives these thought-pulsations of the living, thinking God, to be living and dying bodies of people, who have identity and reality. In this tragic misconception lies all the ills which man has made for himself, all of them, without exception, from business failures to divorces, from degenerative diseases to wars, from frustrations to insanity, and from the periodic rise and fall of whole civilizations.

Oh, the pity of it! And WHY?

Simply because men of that day did not comprehend what Jesus meant when He plainly told them that they could find God within themselves and then all things else would be added unto them.

11/06/2012 09:36 AM

During this election monstrosity of the unthinking "electing" the evil men, let us spend a day in glorious music, and the reading of Walter Russell and his wife. Continuing from her book, which is really a lovely summary of all he taught about education. Page 35 or so God will Work With You but NOT For you.

For you of genius and Inspiration who feel so out of place on this world, words to calm your soul, you aren't stupid after all:

The reward motive which is so characteristic of those who are sense-dominated, does not exist in Nature. Giving, in Nature, creates a vacuum that can be filled only by a balanced regiving. Giving, in Nature, is the first half of every electric cycle. It is an impossibility in Nature for one half of an electric cycle to remain uncompleted. It must complete itself. It cannot do otherwise. It must void itself by its own balancing counterpart. No one can give, therefore, without a cosmic certainty of being equally regiven. For that reason the reward motive in Nature is not a part of God's plan.

For the same reason it is very difficult for the genius to live in a material world. He must live, however. He must bargain with those who would buy from him. He must sell that which is his greatest happiness to give. It is against his very nature to be compelled to do that. It sickens his very Soul, for he is fully aware that he has been born ahead of his time and is compelled to live always in two worlds. His great recompense, however, is the fact that he can always escape from the outer world of material things and live in his own inner world of the spirit where he can commune with God to his heart's content and forget all things else, especially his body.

Judged by material standards the genius is an impractical dreamer, a subnormal who lacks the ability to make money as normal folks do. As children they are usually low in their marks, for the educational plan of this age stultifies genius by "educating" the brain instead of unfolding the Mind. Thomas Edison was sent home from school with a note from the teacher advising his mother to put him in a school for subnormals. The practice of schools has been to develop a civilization which has learned to remember and repeat instead of unfolding their imaginative faculties by teaching them to think and know.

The intelligence test for high scholarship marks is based upon how many questions one can answer. To attain great heights in that respect one has to have a photographic memory which outward-sensed thinkers readily develop. It is impossible, however, for anyone to have a photographic Mind. That is why a genius is often considered stupid in school. A great many children are utterly ruined by this process. They may really be the brightest children in the school with strong creative abilities that a few years of suppression of their creative faculties ruin for world purposes.

Information is not knowledge. It is of no importance whatsoever that one should remember the date of Caesar's death or the date of the Battle of Waterloo. One might be able to answer every question in the encyclopedia and yet have no knowledge. A student who received a low intelligence rating because he could not remember the name of the river which flowed into the Caspian Sea, and the capital of Finland, might be consoled by the probability that Shakespeare or Dickens might also not be able to answer these questions. Under such a memory system the boys who have the greatest initiative, imagination and resourcefulness could be judged the most stupid, while the plodder with a photographic memory and no initiative could be judged the brightest.

Candace: I would never survive one of those shows on tv where one gets money for answering dumb questions of no importance! Nor any of the games contrived for same.

[God Loves ALL](#) (OP)

User ID: 26916259

 United States

11/06/2012 09:40 AM

This is why you don't have "free energy" yet, because man demands MONEY, which is taking to enrich self and not regifting. There is no spirit developed yet on this planet for it to be used. Continuing with material from the book mentioned above. No linky, its from my personal copy.

Information might be likened to food which will nourish a body when it has been digested and enters the blood stream. Information can lead to knowledge when digested through reasoning and Mind-thinking, but as long as it is only brain-recording it is of no value to creative expression. To remember and repeat, through experimentation, reasoning and assembling other brain recordings of observed effects, does not constitute knowledge. It but indicates cleverness. This highly technical world of many skills is very much more the result of great cleverness in the assembling of observed effects of motion than it is the result of knowledge.

When the world begins to acquire knowledge it will show the effects of it in human relations instead of chemical and metallurgical relations. The human race has not yet acquired sufficient knowledge to know the law which makes it possible for man to live with man--or to know the relation of woman to man. It is too concerned with the application of the many physical laws to the relation of physical matter to give thought to God's one and only law that governs spiritual relations.

World desire for knowing what holds the atom together has only an economical and material basis. Such knowledge "would be worth untold millions" in new machines and comforts for man. That is the basis of world desire for knowledge. It has only a money value. Its spiritual value has not yet entered into human consciousness. For that very reason God will not let man have that knowledge, and man will never find it while he seeks in the wrong direction. Actually the answer is right before man's eyes but he does not recognize it while his eyes have outer vision alone. When inner vision comes through inner thinking he will then recognize it in all its simplicity. All who have arrived at the Cosmic Mind state know what holds the atom together, and they do not need cyclotrons to tell them that secret of the invisible universe. Knowledge of CAUSE can never be acquired from motion. It can be acquired only from the Source of motion.

11/06/2012 09:50 AM

Ok, one more and then I move back to my own forum, and the dishes etc which must be washed. Body needs to "move".

"Empirical knowledge" is a term used as a name for the results of sensed observation. Knowledge cannot be gained through the senses, for the senses are unable to see the true picture of any

effect of motion whatsoever. No effect in Nature is what it seems to be. A three-dimensional objective universe is as much of an illusion as a cinema is an illusion. Truth and reality cannot be deduced from a simulation of truth and reality. This universe of motion is but a cosmic cinema projected upon the screen of space from its light Source in thinking Mind. Its reality is at its Source, and not in the projected image.

The most imaginative years of life are between the ages of three and fourteen. During those years whatever is creative in a child should be developed and encouraged. Instead of "cramming" for examinations, where questions are to be asked, children should be encouraged to take an hour's walk, either in the woods, or through a store, or around a city block, then asked to write an essay on what they saw, or what their thoughts were. A creative education should be based upon doing things which cause the children to think and know, rather than to remember and repeat. During school years the main object should be to develop creative expression by stimulating the imagination. That is helpful in awakening that spark of genius which is in everyone, for creative expression compels inner thinking. A small percentage of time should be spent in giving them the essentials for that expression, such as simple mathematics, grammar, spelling and geography. Every other study, such as history or languages, one should get by reading during subsequent years.

It would be better for the new generation if all history study could be withdrawn from the schools. It is all written upon a war basis and the glorification of the desire in pagan man to kill his fellow man. History, as written for schools, is a war to war inventory. Its motive is to promote hero worship of world-killers. The motive upon which history should be written, if its purpose is to enlighten the human race instead of degrading it, is to teach the lessons of agony that wars have given to man. They should be lessons which demonstrate that war does not pay, as some of our crime lessons demonstrate that crime does not pay.

We had a long period of crime movies which promoted and increased crime and juvenile delinquency because it glorified the criminal. Burglars, killers and outlaws were characterized as heroes. The effect upon the world's increase in crime and youth delinquency was so noticeable that the entire motive had to be changed to act as a lesson for crime determent. All history study should be rewritten upon this basis.

(WE STILL DO THIS as to TV and movies! And books. I was shocked when I was organizing a small library where I lived from donations, and hardly any of those books for worth my time to put on the shelves. This is what people "love". Very low level. -C)

Drawing, painting, sculpture and music should be a part of every child's education. Children always love to draw. Desire for drawing and painting develops in early childhood. It should be encouraged in every way. Likewise, the music of the great masters should not only be heard, but analyzed until thoroughly understood in comparison with the split rhythms of sensualism.

The principle of "educating" the senses, instead of unfolding the treasures of the Mind in creative expression, is not only very hurtful to the individual but is hurtful to the effort of keeping the Christian spirit alive, and multiplying it throughout the land. Every accentuation of sensuous thinking lessens the desire for spiritual expression and increases all of the qualities which the human race must eliminate in order to progress towards its goal. To spend valuable years in thus stultifying and smothering that spark of divinity, which must some day be illumined into activity for every man, is a great and tragic pity.

Beloved readers, what was YOUR education like and what are "they" doing still to your children and grandchildren? I could not engage either, much as I loved science, in science courses which were filled with rote memorization that did not convey truth and rhythm of the creation. I found

many experiments also had to be "adjusted" to make the grades, because in fact, they did not prove what we had to memorize.

11/06/2012 09:51 AM

Walter and Lao Russell indeed !!!

How To Think

This is a thought-wave universe. All matter and masses of matter are the bodies of thought. More simply stated, matter is pure thought. All matter has a meaning which tells of the IDEA it manifests. Thinking is for the purpose of building thought-bodies to symbolize thought-imaginings and creating bodies by thought-wave motion to image those thoughts. Your body is the image of your thinking. Its state of health or strength is a record of your thinking. If you inherited an imperfect body, you can think your knowing in the direction of its perfection.

You can think only that which you know, or imagine, or desire. Likewise, you can create or express or give out only that which you know. Your power lies in true knowledge from the still source within rather than information from the sensed world without. Your ability to express that power in building bodies lies in what knowledge your Consciousness is aware of. Knowledge will build for you a stable life. You can continually transform yourself, and your life condition, only through continually acquiring greater knowledge, then thinking that knowledge into the form of you. What you think, you become.

“Knowledge” is that which you can dynamically and scientifically explain—and then demonstrate. Knowledge is idea—and “balanced thinking” is the power to think idea into balanced effect in the perfect image of the idea which is its cause.

The mold of your life depends upon your ability to emulate the balance of Nature in your thinking. Likewise, the status of world civilization is dependent upon its ability to balance its thinking as gravity balances Nature’s actions with its reactions. All creative action requires much effort given in love in order to build the desired expression. Power lies in successful use of the science of creative thinking.

from Lao Russells, God will work with you, but not for you. No linky, from my copy. its a whole book of 124 pages so this is well less than 50%

There will come a time, however, when the whole human race will know itself as one family, with but the one FATHER-MOTHER of all. When that day comes every man will be the father and mother, or brother and sister, or son and daughter of every other man. As love comes into the world with spiritual unfolding, separateness and disunity go out of it. With love comes knowledge of the power of unity which makes the power of every man become the power of every other man. Separateness and selfishness breed each other. Separateness makes one man want for himself what every other man also wants for himself. Separateness takes. It never gives, and long ages of taking must pass before he learns that what he takes he never has, but what he gives he always has.

The long ages will pass, however, and every man will serve every other man whom he knows as his very Self. Blood relationship is mighty in its desire to serve sons and daughters, or brothers and sisters, and fathers and mothers in one separate family. No matter what wrong a son may do to the whole world, the love of parents is greater than the fault.

The happy, peaceful and progressive home is one where each member of the family thinks first of each other member, serves first each other before himself, and freely gives without motive of self-gain. In the ideal family everyone will not only serve each other to make him happy but will refrain from doing anything to make any member of it unhappy. That is the ideal. That is what every home needs to make complete happiness for every member of it.

The world is one family of one world-home. The ideal world is one in which every member of it serves each other lovingly to give him happiness, and refrains from doing anything which will take his happiness away from him. That is the ultimate goal. That is what mankind is striving for. That is what he has been striving for over the long aeons. For these long ages he has ever been searching for the road which will lead to that goal of romance and peace.

Sure and what they should have done as soon as scanning software hit the market. They are LATE. I won't buy a kindle, I hear, but I have not checked it out that there is software now that will allow kindle books on computers? This is man's greed, make a kindle, OK small device nice enough, but you see we already on small readers, and these should be available to anyone with a computer of any sort. GREED IN ACTION. this place lost the connection to God I guess when Lao passed? I don't know. But Walter would have wanted his material broadcast to the world easily and quickly and this organization which supposedly continued his work, has really lost it.

However if you have a kindle or something that will read it, by all means get it now and pay the smaller cost. However, since they wronged his material and if you don't have a kindle or a way to read kindle stuff, by all means, plug the title into Google and find somebodies free copy. This book is really an excellent summary and a good place to start with the Russell material, as an introduction to how the two rays of God work simply stated.

LESSON NUMBER 33 NOT THE FULL LESSON, less than 50% from my copy

The Walter Russell

KNOWLEDGE ALONE CAN SAVE THE HUMAN RACE FROM ANOTHER DARK AG[E]

All of these lessons, past and future, have but one dominant purpose. That purpose is to give you the knowledge you need to live gloriously and abundantly as an individual unit of Creation, and to live collectively, in peace and happiness with all other human units of Creation.

These lessons are a SCIENCE OF LIFE, or a SCIENCE OF HUMAN RELATIONS, for their supreme purpose is to give all mankind knowledge of how to live together gloriously, and abundantly, in peace and happiness. Man has never yet had that knowledge.

The time has come when the human race must have that knowledge and put it into practice, for the world is now in grave danger because of long practice of a cosmically criminal system of human relations which has bred hate and fear into the very warp and woof of the race and made every man the enemy of every other man.

Once again the world is confronted with a swift plunge into long centuries of Dark Ages. The human race is on its downward road to mass slavery which is the first step toward that degradation and degeneracy too horrible to describe which swallowed mankind from the 5th to the 12th centuries. The descent of man toward oblivion has increased with alarming acceleration of speed for fifty years. It will increase its speed until the human race is blotted out by the dehumanization process begun by the new kind of enemy and the new kind of war which he does not understand. It is undermining the moral fibre of the human race so quickly, however, and so insidiously, that he may be too weak to cope with it when he at last does comprehend it.

It can be stopped, however, when the CAUSE of it is comprehended and man has become enlightened with new knowledge needed for the transformation of all mankind.

That new knowledge is here. God sent it to you in His Message to man which has been partly recorded in The Divine Iliad and these lessons. You have read the miracle of how The Message

was sent to you in Lesson No. 7.

You can save the world from another deep plunge into chaos if you learn God's way of life and put it into practice in time--for you have but very little time. YOU HAVE BUT NINE YEARS. [TO STOP MULTIPLYING THE CAUSE OF WARS, WHICH, IN THEIR TURN, ARE DEGRADING THE HUMAN RACE.]

Candace: as to those 9 years, this was written in 1951. It didn't happen.

" Man has free right to choose his own actions, but he must balance those actions with equal and opposite reactions until he learns that God's one law must be obeyed. This God holds inviolate. The whole purpose of life is to learn how to manifest God in Truth and the Law. The lesson is a hard one but man, himself, makes it hard by his unknowing of the law. As man gradually knows his purpose and the law by knowing God in him, life becomes more and more beautiful, and man more powerful in his manifestation of power.

Man's power lies in giving. He must learn to give as Nature gives. Each half of a cycle eternally gives to the other half for re-giving. Nature forever unfolds into many for the purpose of refolding into one. Each individual must manifest this universal law.

The desire of some so-called "apron string" parents to run their children's lives for them, often claiming that they have sacrificed their very own lives for them, are taking from their children – not giving. They are taking away the initiative children need to complete their own cycles: they must live their own lives for themselves.

Man must know the principle of Creation: giving between each interchanging opposite half of each cycle for the purpose of repeating its giving. This is universal law and each individual must manifest this law.

Man will forever war with man until he learns to give his all with the full expectation of equal receiving, and never taking that which is not given as an earned reward for his giving."

from Home Lesson 35

**HARD FACTS MAN MUST FACE
OR
PERISH FROM THE EARTH**

UNITY is the one great unlearned lesson of the ages.

Unity of man has always been impossible in a world of fear and discontent where every man, fears every other man as an enemy.

Until man learns this one essential of collective human existence every attempt to build a stable civilization will fail, as this present effort of the last seven centuries is failing.

Why have we never learned this lesson of unity and the universal brotherhood of man, which would have given the world a united civilization of contented people? We are now paying the price of world degeneration because we have not learned it.

First--let us face squarely the cause of discontent in our human relations which makes disunity unavoidable and unity impossible.

Why do we have disunity in every department of our lives, in our HOMES, in INDUSTRY, in RELIGION, in SCIENCE, in GOVERNMENT, and in EDUCATION?

It is because we have violated GOD'S ONE LAW over and over again--periodically--ever since we emerged from the jungle. The reaction to our own actions is sending us back to the jungle. We cannot escape our return except by reversing those reactions. Universal Law is inexorable.

God, the Creator of this universe, divided every unit of His Creation into TWO. Each of these two are equal and opposite halves of the other.

God issued but ONE COMMAND to all units, and all pairs of units of His Creation. That ONE COMMAND is that every unit of His Creation must give to its opposite--and that opposites must regive EQUALLY.

Out of that One Command came GOD'S ONE LAW OF LOVE, which is that there must be a RHYTHMIC BALANCED INTERCHANGE BETWEEN ALL PAIRS OF OPPOSITES OF EVERY UNIT OF CREATION.

Nature gives to its opposite--and is regiven equally. Nature never takes. The measure of giving is the measure which will be regiven.

Man's abundance from earth's givings to man is the measure of man abundant givings to earth. He who withholds his givings withholds also his regivings.

Candace: we have just finished in the Us of a an election of disunity. Our political system is based on parties, which secretly have unity, bur are against the laws of god. It doesn't make any difference if you are a republican or Democrat, its all the same BS. As long as man has political parties, he will not find political unity and peace, for the parties are kept fighting with each other.

a collection of summaries from lesson 35.

DISUNITY on a world-size scale causes wars on a world-size scale, but we have continuous wars everywhere, in every human relation, because of DISUNITY arising from discontent in our small scale human relations.

DISUNITY IN THE HOME

The strength of a nation is the measure of love expressed in its homes. A man "who is master in his own home" pays dearly for his assertion of supremacy by loss of that which he most values. A husband or wife who subtract from loyalty to each other, even by a thought, lowers the potential of the greatest source of power a man or woman can attain--which is possible only through balanced interchange.

DISUNITY IN INDUSTRY

In INDUSTRY we have divided the producer of goods into owner and worker UNEQUALLY. Owners have exploited workers for selfish purposes. CREATORS are those who conceive ideas. PRODUCERS are those who give material bodies to ideas. (and some of the creators do not share equally with the producers, poor wages etc.-C)

DISUNITY IN RELIGION

RELIGION has too many Gods, too many creeds and doctrines which are a source of continual war between the followers of all of them. Man needs religion vitally, but it must be a unified religion which worships but ONE GOD, the God of Love.

DISUNITY IN GOVERNMENT

GOVERNMENT is divided unto itself into parties which have different ideals and different motives. Likewise the separate units of each party have different ideals and motives. A small minority of our governing body have patriotic ideas of a government FOR the people BY the people. The large majority have forgotten the Washington and Jefferson ideals and the higher seats in government

have plainly in view a desire for dictatorial rule by subsidizing enough voters, through patronage, the dole and bureaucracy, to keep their ruling seats permanently.

Candace: this lesson listed 7 devastating world Catastrophes by 1951 of the lesson. How many more since then??????? like all the stuff since 911? Like Vietnam? Like many unheard of or not covered properly situations over all the times since 1950ish?

my goodness, I have neglected this thread for 3 days.

From LESSON NUMBER 38 1951 from my personal copy. It is well less than 50% of the lesson.

SPIRITUAL RELATIONS

We have talked of many things--many fundamental elements which constitute God's creating universe. The only purpose for writing even one line of these lessons is to give men and women a greater knowledge of:

1. Their own individual Source of power.
2. Their mutual Source of power, through mental and physical interchange, or through the unity of balanced mating.
3. The way they can individually or mutually multiply their power to become the Supreme Being whom we all manifest on earth.
4. The manner in which they can intensify desire in themselves in order to multiply the fruits of desire.
5. A workable understanding as to how they can apply this knowledge to build more healthful strong bodies under mind control, instead of sense control, and thus build the human race into more perfect instruments for manifesting its Creator.

We have too long lived in the dark of guessing about the fundamentals of existence. Our lives have been too experimental because they lacked exact knowledge upon which to base the decisions which constitute life.

We have lived in an abstract world of experimental guessing too long. Our human relations have been abstract and experimental, and because of ignorance of the law which governs them we have made a very bad mess of our civilization.

But HUMAN RELATIONS are not the only consideration of life. We are not here on earth to just trade with each other, or have pleasant social and cultural relations with each other.

It is not enough that we have peace and good will on earth with each other.

THE ULTIMATE OF MAN

We have a far greater purpose than that our sensed electric bodies should sense each other, even if we sensed each other in such harmony and unity that war would be unthinkable and impossible.

We are not just humans--human men and women who deal with each other as humans--human men and women who reproduce male and female children to grow up and be the same kind of humans.

We are more than just human beings, placed on earth to manifest our humanity, we are spiritual beings placed on earth to manifest The One Supreme Being--and to know ourselves as THAT ONE.

Candace: This is true what is bolded. On all planets that are SEED planets, Man must in fact, know himself as the totality of the Supreme Being of this planet, before he will be allowed to seed other planets. The Supreme Being is not the Father to start with. The Supreme Being in its totality is all evolutionary thinking people in the entire creation. The Supreme itself is an unfinished "God" in that is becoming all it can be. It is not the Father.

This planet HAS TO PRODUCE the Supreme HERE, and that is why so many of us are here from the very highest heavens to assist, because this world is terribly behind itself for a seed planet, due to the Lucifer Rebellion, which the Prince of this World engaged in. So its the "correcting" time going on, and it has everything to do with the cosmic cycles were are in NOW. We must get enough numbers of this race "ascended" into a single being. now that does NOT mean you are not individuals, far from it. It means enough of you have come into a united unity consciousness that can seed other planets when you begin to move off this world. You cannot move off this world until you are, so forget all those space ships people want to build.

You cannot have them YET, not enough to get beyond the borders of our Solar System. YOU are NOT ONE. One of MIND AND KNOWING AND PURPOSE.

The reason the satanists of the planet have divided religion into so many warring sects, is these antichrist ones are doing everything they can to prevent the Supreme Being of Earth from manifesting. PONDER THAT ONE.

"Great art is simple. My universe is great art, for it is simple.

"Great art is balanced. My universe is consummate art, for it is balanced simplicity.

"My universe is one in which many things have majestic measure; and again another many have measure too fine for the sensing.

"Yet I have not one law for the majestic things, and another for law for things which are beyond the sensing.

"I have but one law for all My opposed pairs of creating things; and that law needs but one word to spell it out, so hear Me when I say that the one word of My one law is

BALANCE

"And if man needs two words to aid him in his knowing of the workings of that law, those two words are

BALANCED INTERCHANGE

"If man still needs more words to aid his knowing of My one law, give him another one, and let those three words be

RHYTHMIC BALANCED INTERCHANGE"

From one of the HOME lessons by the Russels.

You cannot do anything of yourself alone. Whether you know it or not you have to acquire God-power to even lift your finger. You are automatically controlled in every action. Why not be controlled by working with God knowingly at all times, and being fully aware that God, and His law, are working with you. Continuous meditation means continuous God awareness, and that continuity of awareness is forever leading you higher and higher into the high heavens of your own mountain top.

That, and that alone, is the great glory of life, and of living. That awareness, and that alone, leads you to masterliness of achievement, peace, prosperity, happiness and the love of all mankind which is forever enduring.

One more from this, and then I won't be back until perhaps Monday. I will not be on the computer tomorrow.

THE GLORY OF THE UNSEEN AND UNHEARD

It has often been my good fortune to hear such masters as Paderewski or Gabrilowitsch practice scales and finger exercises. The unthinking listener might marvel at such "skill", while one who listens with inner ears hears the silence of the Soul even in one's practicing. The Soul alone can give out love. The body can render a perfect technical reproduction but if the love nature of God is not in it it is not art, for the art of anything is not in the skill of rendering a visible or audible thing but in the beauty and love which only the stillness of the Light of your Soul can give to it. And therein lies the difference between the genius of the master and Soulless mediocrity.

That is why your constant communion with God is necessary for every moment of life and every stage of your creation. God must sit with you on your piano stool or work bench. Your hands must be His hands. Your thinking must be His thinking. Love must be interwoven in every stitch of whatever pattern you are weaving, every word you are writing, and every interchange between yourself and your fellow men. [

11/16/2012 10:47 AM

well I am HOME all day, have been out a lot this week, and will work on this thread today, and add a bunch of posts over the day.

If you have troubles with this one I am pasting here from lesson 42, find a cube and study it. How wonderful it will be as more and more on this plane begin to manifest their own universe in God's image, rather than their own image. Man on this plane mostly still does not understand he builds his own universe..... life after life after life in terms of his knowing and his unknowing of it. All of our thoughts and doings are recorded, not only in the akashia of Earth, but for those of us who are cosmic citizens, to the whole cosmos, and this is most the source of new forming circular nebulas out there which when "activated" by the Sons of God who do that thing as their careers in heaven,

become spiral Nebulae which become new local universes needing new creator sons to organize them, and so on it goes forever.

I like the ending portion of this piece. Maybe I will put it in my signature file. I have noticed some folks who must be reading here, and are members, putting some of this in their signature files. As a group, lets keep doing that and changing them every day or too depending perhaps on your posting habits. Those of you with free and paid memberships have the signature file option to you.

ONE MORE STEP TOWARD BUILDING THE CUBE-SPHERE WAVE-FIELD

In the progress of these lessons the time has now come to clear up much confusion regarding what is so commonly called the "curvature of space", and sometimes referred to as "this curved universe".

We must clarify this confusion. In these lessons we have repeatedly said that all motion is curved. That does not mean that stillness is also curved. Motion springs from stillness and returns to stillness. The example of the fulcrum and the lever fully manifests this principle.

Just as we live in the changing physical universe and the unchanging spiritual universe simultaneously, so also do we live in the universe of motion and the still universe of non-motion simultaneously.

Likewise, we live in the undivided universe of Mind-knowing and the divided universe of Mind-thinking and sensing simultaneously.

In order that you may more clearly understand the relation of stillness to motion, the undivided in relation to the divided, the changing in relation to the unchanging, and the spiritual Light in relation to the physical lights of wave motion, we will draw a simple picture which you may remember and understand more clearly than you would remember a finished picture of the same thing. Here it is:

1. You have a desire to manifest an idea of yours.
2. You ask God to give you the power, and the substance to fulfill your desire.
3. God gives you six mirrors of His still Light, all put together in the shape of a perfect cube. Within the six are three more mirrors of His Lights all three set at right angles to each other.
4. God then says: "Here is the power, and the substance you have asked for to fulfill your desire and manifest your idea. My magnetic surveyors have measured it out for you in My undivided universe in the exact measure of your desire.

"I give you free will to do as you wish within the six mirrors of My Light which balance and control your actions from without, and three more balancing mirrors within the six which control your actions from within. For I say to you that these nine mirrors of My Light are My LAW, and they are also the means of enforcing My Law.

"These nine Light mirrors of zero curvature and zero motion are your limitations, and the measure of them is the measure of your desire. You may change their measure, and your limitations, by changing the intensity of your desire, but beyond these nine you cannot go in any direction without arriving at the zero of your beginning and ending

"Whatever you do in My divided universe, whether good or bad, balanced or unbalanced, or

helpful or hurtful within the boundaries set for you will come back to you in the measure set by you for your own universe of your own desire.

"For long aeons you have built your universe in your own image and desire. You have manifested that image of yourself for ages upon long ages, for you will not know Me in you.

"There will come a time when you shall begin to know the Light of Me in you. You will then manifest Me. You will then build your universe in My image. To know the Light of Me will be your sole desire. To seek and find My kingdom will be your sole purpose.

"What you do for yourself you do for all for all are ONE in Me. You may reflect and extend your desire to all the universe to make a world of your desire with the desires of other men, but naught of motion, or change or unbalance, or curvature shall pass My equalizing boundaries set for you and all mankind without being voided where My zero of rest ends all moving things, and begins them again at that zero of rest which is alone in Me."

Naturally you cannot see the cubic wave-fields of measured and mirrored Light which bound them, but you can KNOW them; and in knowing them you can better comprehend God's ways--and also know that God's ways apply to you, for they are your ways, God's ways are balanced--and your ways must be balanced within the wave-field in which you act.

Candace: In a previous post I placed that man must create a planetary supreme before he can spread his seed, (DNA PLUS knowing) elsewhere, because he must be able to spread properly his universe that is in alignment with God's universe of knowing. Man will not have to be perfect in all ways yet, but he has to have discovered balance and have the desire to maintain that balance before he can seed other worlds.

this is a SEED planet for developing new soul. Then this soul can be used to seed other worlds. It takes eons to develop man as planetary supreme on any planet, and the process is shorted by developing SOME planets, generally one out of every 10, and then let Man from them seed the others.

I would love to post all of this lesson, but one mod prevented me from doing that a page or two ago, so I won't try. (hint hint, maybe one of you if you have a copy?)

From prelude to lesson 41. Beloveds, as mention of those who have risen above their sensing, many of you who are 5d and above in your consciousness are STAR SEEDS coming to show THE WAY, and so many are still sleeping of the 200+ million here now on the planet from "heaven". Its time to wake up beloveds, this is heavily part of my own purpose, to awaken you. You must come out of your own body sensing and remember WHO YOU ARE so you can lead others. This planet cannot become a 5D world until those evolving on it, come into cosmic/god awareness. You must attempt to assist these ones out of their confining religions of which Christianity is absolutely the most confining religion on this planet. Jesus didn't start it, Paul did and Paul was stupid. He was not cosmically conscious and created a whole lot of BS. And the Khazar thugs have further degraded it and some of YOU are somewhat trapped in the shit. WAKE UP beloveds, keep reading this until you burst out of your meat suit Spiritually.

The goal of man is Cosmic Conscious Self-awareness--which is God's awareness.

The mass of mankind is still barbaric. (this is still true, little has changed since 1950) He is still body-sensed-body which lives and dies. He is slave to life then to death--for life and death are real to him. Man must forever be "transformed by the renewing of his Mind" until Mind transcends body instead of body transcending Mind.

The very few transcendent ones among men who are far in their unfolding and have become strong with God-awareness they alone are free. These have risen above their sensing. These have conquered both life and death through their knowing.

The life-death journey from body sensing to Mind knowing is a long-long journey of countless millions of seeming repetitions. He who has begun to know that these seeming life-death sequences are not repetitions--or reincarnations and are but one eternally long and continuous unfolding of one eternal idea from one point in the eternal Light of Mind has gone far toward his Cosmic Conscious goal.

He who can withdraw from the extensions of his sensing into the fulcrum of his knowing from which those extensions spring--and extend and retract them under full control of his will--becomes co-Creator with The Universal One. He is the transcendent being who has become the fulcrum of his own power.

You who are reading these lines with intense interest would not have read ten pages of these many hundreds if you were not one of those few of the human race who have far transcended the early stages of physical man.

It is to you that this Light of new knowledge is directed in order that you may see and comprehend this universe of matter in motion for what it is instead of being deceived by its illusions, that these descriptions of God's ways, and God's processes are directed.

When you fully understand that what we call matter and motion are but electric thought recordings of ALL Mind-thinking--YOUR thinking as well as God's thinking--your power to CONTROL matter and motion AS ITS CREATOR instead of AS ITS SLAVE , will multiply in the measure of your comprehension of the electric wave which records all thinking.

well maybe tomorrow some more, I got attached to this thread today: [Thread: I have had I think a prophetic dream. I saw Angels and this is what they said..](#) lovely message came thru to OP of the thread from Uriel and boy did the "shit" fly from those not accepting it. I had to put in my 2 cents worth, I was mostly supporting Op and a member of my team works with Uriel and I posted links to her work, took me an hour to collect them. Maybe tonight I will go thru the material and see what i might add before bedtime.

Ok some intro from home study lesson 44. Beloveds it is true science that proves God. And how he creates. and How thus WE also create even if we realize it not. YOU ones intuitively KNOW what balance is, who are attracted to this and who are star seeds. Seek it always.

ANSWERS TO STUDENTS QUESTIONS

We find it very surprising, as well as gratifying, to find that the questions which students are asking are becoming fewer as their knowledge increases, and are becoming more and more scientific and philosophical rather than metaphysical as they were in the beginning.

As a matter of fact many beginners among the students have frankly stated that the scientific parts were way over their heads and were difficult to understand. These same students now say the very opposite. Many very eagerly reach out for the scientific explanation of things and write us that they are becoming "more scientifically minded" and more and more they automatically apply LAW and PRINCIPLE to the solution of problems.

Over and over again we say as we now again say, that the knowledge which is scientifically given in these lessons, and applied as workable philosophy, is sufficient unto itself for the solution of all problems. It is sufficient also as a basis for laying down a policy of action for today and the future.

There is no need to go to others. You have the LAW and full knowledge of God's ways. Month by month you have observed the interweaving of that golden thread of BALANCE which has become a strong force in guiding your meditations.

We treasure hearing of the wonderful results of strength in the carrying of your DESIRE into meditation with full knowledge that the way for fulfillment of your desire will come to you if you talk to God about it. When you ask advice from others you subtract from your own transcendancy.

Transcendent beings do not thus subtract from themselves. For this reason we again say to you that we are pleased because you want to know more of God's ways which you can only know by the direct scientific approach rather than the indirect metaphysical one.

The actual Lord's Prayer Given by Jesus 2000 years ago.

"MY SPIRIT, YOU ARE OMNIPOTENT. YOUR NAME IS HOLY. MAY YOUR REALM BE INCARNATE IN ME. MAY YOUR POWER REVEAL ITSELF WITHIN ME, ON EARTH AND IN THE HEAVEN. GIVE ME TODAY MY DAILY BREAD, AND THUS, LET ME RECOGNIZE MY TRANSGRESSIONS AND ERRORS, AND I SHALL RECOGNIZE THE TRUTH. AND DO NOT

LEAD ME INTO TEMPTATION AND CONFUSION, BUT DELIVER ME FROM ERROR. FOR YOURS IS THE REALM WITHIN ME AND THE POWER AND THE KNOWLEDGE FOREVER, AMEN.

"To meditate is to become one with God. It means to STOP THINKING and thus get out of the awareness of body. One can be aware of his body and of material things only while, and because, one is thinking.

... To concentrate is to think very hard and focus your thoughts to a point. To meditate is just the opposite – it means to expand one's thoughts into space until one stops thinking and steps into the still Light of KNOWING.

Thinking is sensing, and sensing is vibratory motion. Conversely, meditation is becoming still in order to talk with God. When I say "talk with God" I mean become inspired with His Light of all-knowing. One talks with God in timeless Light. Inspiration comes in flashes of still Light – invisible Light.

If you want to know anything whatsoever, just desire to know it, then stop thinking. Try to get into a state of universal ecstasy or inner joyousness, which is a state of consciousness like unto the God-Mind. Void your mind of thoughts, thought forms and ideas. Become perfectly blank insofar as idea and form are concerned.

In that manner, you become transformed from man as an individual unit of mankind, and become all Soul – the universal Soul. In that manner you make the transition from the state of sensing some things materially to knowing all things cosmically."

Walter Russell

From Lesson 45.

PRELUDE TO LAST FOUR LESSONS

Not one word of science, philosophy or law has been written in these lessons simply because they were science, philosophy or law, but because they are God's ways which you must know in order to make God's ways YOUR ways.

The more you know how God controls His power to create His orderly, balanced universe, the more you can use that power to control the universe you are creating around the center which is YOU.

God expresses His power because He IS power. God expresses love because He IS love. God manifests law because He IS law.

When your KNOWING places you at the still center of the universe which YOU are creating, so that all of its power stems from YOUR KNOWING instead of from your SENSING, then YOU are that power which extends from the still center which is YOU into that electric universe of your body and its extensions which YOU are creating.

We are not trying to make scientists or philosophers of you. We are trying to awaken within you an awareness of the Source of all science and philosophy by knowing God's ways sufficiently to make His ways YOUR ways.

God's command as given in The Divine Iliad was that all men must know God. These were His words: "See Me, know Me, be Me. Be thou the fulcrum of thine own power."

The fulcrum from which all power springs is KNOWLEDGE. When you have that Omniscience which is unfolding in Cosmic Man you will no longer misuse, break or disobey God's law, because of being unaware of it, you will COMMAND it because you KNOW the law from being the law.

We are teaching science, philosophy and law to you only for the purpose of awakening God awareness in you, and not for the purpose of adding to your cultural achievement, or for raising the standard of your educational status.

When we explain how Nature perpetually polarizes and depolarizes, in its every expression, we do so because you do that in your every action. You do it each second of your life in your breathings--each hour of the day in unfolding and refolding, but you are not aware of it.

Mankind has not yet learned the continuity of life and death--and that each leads to the other. When life depolarizes and "dies" it is for the purpose of rebirth. When a business man buys goods or builds a plant he is depolarizing and devitalizing his strength for the purpose of multiplying it. That is also the reason you go to sleep at night. You are devitalized. Your power to polarize has reversed by depolarization. You sleep to again reverse it and awaken to find that you have reversed it.

another portion of lesson 45. No linky, from my personal copy

3. Science believes that the moon would fall upon the earth except for an initial impetus given by it which is just fast enough to keep the moon from falling upon the earth and not fast enough to make the moon fly off at a tangent into space. Sir Isaac Newton thought that he had proved this theory mathematically, but there were so many things which Newton forgot, and so many others which he did not know, that his mathematics are useless.

Planets are not falling into their suns, nor are moons falling into their planets. The exact reverse is what is happening. All planets are slowly spiralling centrifugally AWAY from suns and all moons are likewise spiralling away from planets. More than that, all suns and stellar systems in our great nebulae, such as our own Milky Way, are spiralling away from their central sun. This mystery must also be clarified.

4. Structure of the atom theory. Science has a strange belief about atomic structure which has no basis in Nature whatsoever. Science conceives that the nucleus of an atom is made up of certain numbers of positive and negative "charges" in corpuscles called protons. These are surrounded by concentric shells of electrons which determine the substance of the element by their number and arrangement in the shells which control their orbits. Every electron added presumably changes the character of the substance to another element.

Nature does not work that way. All matter is electrically polarized to manifest both of its polarized characteristics in every mass. Every corpuscle of matter in the universe, whether atom or sun, is divided by an equator between its two hemispheres, one for its north pole and one for its south pole.

Every particle of matter, or mass like our Earth, radiates and gravitates, and these are not confined to hemispheres where gravitation functions alone in one, and radiation alone in the other. Both function in the whole mass and in both hemispheres. Even the two poles of a bar magnet manifest both positive and negative abilities to pull inward and thrust outward.

The theory of separately charged particles has, therefore, no precedent in Nature. Every atomic system follows the same law that solar and stellar systems follow. These you can see by the hundreds in the heavens, and there is not one of them which is not centered by one doubly charged polarized mass, which marks the point of highest potential in its system, and is surrounded by lesser masses of lowering potentials whose orbits are elliptical because all are in planes which are conic sections cut at angles to conic bases.

There are no atomic, solar or stellar systems which have circular orbits. Even those which are upon the plane of wave amplitude, such as carbon, are centrifugal during the transition from one side of the equator to the other. Circular orbits are impossible in nature for there are no spherical systems, such as modern science has conceived, to cause them. This principle must be clarified to bring the structure of the atom within the wave instead of outside of it. No theory of science is valid which will not fit into the wave, for waves are all that are, in Nature.

Candace: I knew within in high school there is no such thing as a positive charge and a negative charge. There is charge only. it cannot be negative and this great misteaching keeps people repeating nonsenses in the sciences.

And remember, Russell was a not scientist, he got all this stuff from the universal cosmic mind. Particle physics is dumb. the particle is only so briefly a particle as it moves in its wave and not really a particle then. I knew matter was I used to tell people was "solid energy" the only words I could find. And in college they and come out with black hole theories that didn't meld with me. That was about 1973 when I was pregnant with my son. While I could not consciously recall all the stuff of why our science was mucked, I still knew it was mucked and could not continue with it.

From Lesson 47

Displacement and replacement are equal and opposite. The wave is a pendulum which marks out sequences of events in time. The wave is a piston which pumps one condition into two and interchanges them forever with the one to again make two.

Give deep thought to this last sentence. Let us think it with you by suggesting that you visualize water waves held in suspense, so that neither troughs or crests move until you have thoroughly realized that two unbalanced conditions have been created which cannot be maintained.

Now let them move very slowly, like a slow motion picture, and see what happens. If you watch carefully you will see them interchange with each other by GIVING to each other until both trough and crest have flattened down to their common equator and disappeared in it. You stop the motion again right there and what do you find? You discover that the surface of the water is as calm as it was before you created the waves. There is no longer an equator for there is no division into two, nor is there extension of wave levers from fulcrums.

Now turn the motion picture again and you see waves reappearing. Crests now descend to become troughs, and troughs ascend to become crests.

WHY DO THEY ARISE AND DESCEND? IT IS BECAUSE THEY ARE FULFILLING THE LAW OF POLARIZATION WITHOUT WHICH NOTHING CAN BE CREATED.

We still must continue to think with you to make more certain you do understand this utterly simple principle out of which comes everlasting birth and death as just one continuity.

Instead of thinking of the universe in terms of Creation, or that which God created, let us think of it as a product which God manufactures to give body form to his ideas just as you or I manufacture shoes--or automobiles--or monuments--or books--to give body forms to our ideas.

Also let us think in terms of light instead of waves. When you think of light as the incandescence of a sun surrounded by hundreds of millions of miles of dark space it probably never occurs to you to think of that light as having been manufactured by simultaneously making a black hole of equal potential in space, and that each is the cause of the other.

You manufacture incandescence when you turn on your electric switch which polarizes the equilibrium of a tungsten filament. You create two tremendously resistant forces which explode that tungsten in two opposite directions--inwards and outwards. Heat appears where there was no heat. Friction likewise appears as a product of resistance where it was not heretofore present. Likewise incandescence appears where there has been no incandescence.

Perhaps you do not know it but when you think you also create incandescence and blackness in your brain cells which are recording your thinking. Desire in you creates light in you, and your thought-wave pulsations vibrate between light and dark until you become so fatigued that the light goes out and your thought pulsations seek rest in their dark, just as the cathode black in a vacuum tube swallows the light in it when polarizing vibrations cease.

From Home Lesson 47

MISCONCEPTION OF WEIGHT

There has been much confusion concerning weight. It is generally considered that weight is a fixed quality of matter, and not a variable one, which has an above and below zero, as temperature is measured.

A man who weighs 150 pounds on the ground, weighs less and less as he ascends above the earth, weighs more and more as he travels toward the north pole, less as he travels toward the

equator and has no weight at all if he floats in water. The moment that his body displaces an equal weight of environment he loses all weight.

The weight of anything depends upon how far out of balance it is with its environment. The glass of water in Figure 160, page 846, may weigh eight ounces when its environment is a gas, because the two conditions are out of balance with each other, but if you expand the water until its density is such that it is equal to its environment it will float like a cloud and have no weight.

Science believes that this planet [our moon] has weight and would fall to the earth if it were not because of an initial impetus of just the right speed which keeps it from falling to the earth or from flying off at a tangent.

On the contrary it has no weight whatsoever. It is like the man who has no weight when he floats in a balanced environment. Also the moon is actually "falling" the other way, as all planets and moons all do. The reason they all recede from each other is the same reason that water vapor rises from water.

Every star and planet in the entire heavens is floating in its wave-field and has no weight whatsoever in respect to any other star or planet. Also every planet and moon have just the right velocity to keep them floating where they are in their own vortices. There are countless billions of these and it couldn't just "happen" that Nature gave each of these just the right "initial impetus" to keep each one in its right orbit. That would be too colossal a coincidence to be even considered.

portions of the conclusion of a very large lesson, #46

Balanced physical mating will reproduce balanced physical bodies but unity in marriage between unfolding humans means more than physical unity.

Humans have God awareness in them. To the extent that they have God awareness in them they have the capacity for love in its Spiritual or Mental sense. When the minister declares that "ye twain are now one" they are united physically by the union of their polarities in sex interchange but they are not united as one Spiritually.

When a man and woman find unity in both physical and Spiritual balanced mating they have found the greatest and most priceless of treasures which life can give. Mental mating multiplies the Mental power of both far beyond that which is possible in individual expression.

CONCLUSION

A new world of unfolding Spiritual humans is in the making. How much of beauty and inspiration are you contributing to that new world by knowingly working with God as co-Creator of His universe with Him.

It is in your power to immortalize your name by your immortal works. Beethoven will be reborn in countless humans for ages because of his gift of love to the world. Your immortality depends upon

what of your Self you give to the world. That which you take without having given is buried with you in the oblivion of a nameless tomb.

A FINAL THOUGHT

One of the great unanswered questions of all time is the question of how the seed unfolds true to the pattern of whatever species it represents, whether man, oak, birch or pine tree, bird, insect or elephant. In each case the seed is a microscopic still center, surrounded by an infinitesimal volume of inert gas, which is again surrounded by a minute amount of nourishment for the reborn body to feed upon during its first stage of generation into a body.

(Candace: beloveds your SOUL is surround by an inert gas, which binds it , the knowledge of your mind, together. In fact, as animals separate from their group soul also bounded, their mind becomes bounded just as yours and continuously also follows the laws of god in the re seeding of itself. known as "reincarnation" on this world. When something stands and says I AM, it becomes unto itself as an individual. Therein is also its personality, which always continues, into infinity. look at the different personalities in your evolving animals. This planet begats a certain number of personality types, and it starts in the animals that stand and say I AM. Most of your pets do sense their own existence, they are self conscious. I have sitting behind me, a kitty that lived with me 40 years ago. My "sub conscious" remembered him, and pointed it out to me, and as I look back, this is decidedly the same personality, just matured more since then, happiest little guy you can imagine, constantly in love with his life.)

The answer lies in this lesson just closed. God's bookkeeping and recording system lies within the inert gases. They are the libraries of all Cosmic records. The mechanics of making those records is the electric wave system of light projected through light-pressure lenses to make micro-cosmic film negatives which are Nature's prototypes of micro-film negatives made by man for recording his actions.

The spherical and radial systems of curvature control the shape and form of every particle of growth which unfolds into any species of body into its proper pattern. Bear in mind, however, as we have before stated--that every creating thing which unfolds from its seed refolds back into its seed simultaneously. **THUS IS GOD'S LAW ENDLESSLY FULFTLLED.**

Ok now maybe today some more here, things quieting and hopefully people will read.

this is a portion of the final lesson #48 of the year long series of home lessons. I advise obtaining the collection which has been made free on the net by several folks.

SUMMARY AND CONCLUSION

From whence cometh man's help?

You should now fully comprehend why it is that God answers your prayers and gives you that which you desire when you work with Him to manifest your Self in Him.

You should, likewise, more fully comprehend what we have before stated, that God works WITH you but not FOR you. When you know that He fulfills your desire as surely as you know that your car will run when you turn on the switch, or that you will be illumined with electric light when you plug into the generator at the power house, you will also as fully know that when you plug into the universal generator of that inconceivably vast power house which God has created, His power will be extended to you in the measure of your desire.

Niagara generates great power and you know that it is dependable if you plug into it. Every star in the firmament is an uncountable trillion Niagaras, and the stars in the firmament are uncountable trillions.

It is impossible to even conceive the vastness of power which this polarized storage battery of matter and space is. Now you must realize that Cosmic Mind created this vast incalculable voltage by dividing the earths from the heavens so that the interchange between the two expresses the mighty power which moves the countless trillions of stars of the firmament at inconceivable speeds.

The wonderful part of it is that all of it is extended to you to use in the measure of your desire to use it, and the Measure of the effort you put forth in working with that universal power to be worthy of your desire.

This fact you must understand. You must always remember that DESIRE is of the Mind. Desire is expressed in thought-waves at the universal speed of thought polarity, which is 186,000 miles per second, and the knowledge, inspiration and conception which patterns your desire will come back to you at the same speed.

If that is all you want out of life, however, you may sit at ease and commune with God with inspiring thought exchange, and be uplifted by it until your very body falls apart from inaction, which it would soon do.

You want more out of life than that, however. You wish to give form to your desires. You wish power to achieve. You wish to grow in physical and mental stature, build your body and other bodies, and manifest your thoughts and conceptions. This you can only do through physical action.

It is right here that man fails to obtain his desire through not knowing his Mind relation to the Mind fulcrum of universal power, which God is, and the polarized extension from that fulcrum, which God's universal body is. The frustrations and failures of men who ask much from God and perform no service in working with God to be worthy of their desire are many.

Such is the belief of many that they allow their bodies to die from lack of willingness to give the attention of right action through right knowing that is demanded of all bodies, whether of men or machines.

Countless husbands, and wives, and children are allowed to suffer untold agonies of pain which the Mind of one who KNOWS, followed by right action through right knowing would alleviate or cure.

Instead of extending desire for Mind healing to a Mind who knows CAUSE, and a skilled hand trained by KNOWING to remove ill EFFECTS of CAUSE, many appeal to Minds who do not know and who have no skilled hands, and these many advisers who are called in to treat unbalanced bodies beset with many ills, deceive those who appeal to them into working against Universal Law instead of with it.

These are the ones who teach man to expect God to perform the physical action that is expected of physical man for his physical body as well as giving him the mental balance which lies in the Mind of our Father-Mother.

These many who thus deny suffering mankind the Mind-healings of skilled doctors and surgeons who KNOW, become unskilled doctors who do not KNOW, and thus work incalculable injury to the bodies of man through their not knowing of the body, and to the Mind of man, through their misinterpretation of the teachings of Jesus who lawfully healed through KNOWING the LAW which these many Mind-doctors have not yet begun to know.

Jesus was a master scientist. He was illumined with all-knowing in the Light of Cosmic Consciousness. Any man can do what He did when he has the Cosmic knowing which Jesus had, and any man can heal himself or others to the extent of his knowing, but the many metaphysical schools, which instruct their too many graduates to go out into the world and do what Jesus did, forget that Cosmic Minds like that of Jesus cannot be trained in schools of any kind. Such men as Jesus receive their illumining in the Light of Cosmic Consciousness from God alone.

It is quite true that Jesus said "What I do ye can also do," to which we add, "when you are what I am and know what I know". That which we have added to His meaning is what the thousands forget who believe that they can do what Jesus did.

God Will give the greater part of man's desire to him who asks it because God has that mighty universal power to give, but man must give his little power for multiplication by the universe.

Man must give the initial impulse. God gives, the momentum of inertia to multiply that little to the measure of man's effort.

Please excuse for being off topic but the following is most recent message from Abundant Hope which seemed appropriate to share::hf:

Important Decisions that Will Begin to Affect Life on Earth Seriously

Dearly Beloveds,

I AM Siraya, representative of Papa Source to Orvonton,

As per this scribe I would like to announce from Papa Source and Christ Michael of Nebadon that we have come to important decisions that will begin to effect life on your Beloved Mother Earth seriously. You all know what we are talking about, but it was seen as best to all involved and in the knowing to give you some heads up. Although given before without immediate results, you also have been explained why.

To prevent further atrocities out of sheer desperation and to stop a mad goose chase for power and control , IT IS TIME.

You know if you are prepared to the best of your abilities, yet check again, it will and can never hurt.

No need for further words, as all has been said and explained, it is now through action that the rest will unfold. If you have the eyes to see and the ears to hear, front row will be quite the place to be. Just don't get caught up in the drama unfolding left-, right- and center stage as your usual senses might fail to capture it all. Shifting gear into Higher Senses will be like watching a movie in 3D and give you a depth of understanding others will have to miss for now.

Only advise : those living in low laying areas and coastal environment, NOW IS THE TIME TO GET SERIOUS TO FOLLOW YOUR INNER AND HIGHER GUIDANCE. And Going Within, to support our scribe in what he does best.

This My Beloved Light Warriors, and Star Seeds will do and more confirmation might come, but if not, no way you can say : " I was not aware. "

Greeting you warmly and sincerely, I AM Siraya, In Divine Service to Papa Source.

Love and Light,
Johan

I have this on my clipboard from posting in another thread. I can't remember if I posted it here or not. doesn't hurt to repeat.

The Divine Iliad is an inspired message that cannot be published in its fullness yet. As much of it as can be given to man year by year will be given. And in this book, The Secret of Light, which is the first part of the Message that will make man know man better, before each chapter is a page or two of The Divine Iliad Message, that which can now be printed. As my text for tonight's talk, I will read to you these words:

"I am the One Whole, the ALL.

"Glorify thou Me, the One Whom I am, for I am ALL, and no other is.

"I, the sexless One, am Unity.

"What I am, thou art, for thou art Me; thou art the Whole.

"Glorify thou thy Self, for in so doing thou art glorifying Me.

"I, the One Whole, am knowing-Mind. I exist to think. All thinking is Light of my knowing but My thinking is not Me.

"I am Creator, creating with My thinking.

"Out of My Light of knowing are My two lights of thinking born as sexed pairs of opposites.

"Mind thinks Mind-knowing. Mind exists to think.

"To think is to create. I create with Light. Nothing is which is not Light.

"I, with man, am creating man in my image.

"What I am, Man is.

"I think, and all things appear in the image of my thinking.

"I think man, and man appears in the image of my thinking.

"Man thinks man, and man appears in the image of man's thinking.

"Man's thinking is My thinking.

"I think idea. Light registers My idea in the two sexed lights of My thinking, and form is born in the image of My thinking.

"Form has no existence, nor have My imaginings. These exist not, for they are not Me. I alone exist; I, the ALL.

"I create my imaged body with the inbreathing of My pulsing universe of Me.

"My universe is My image; but My lineage is not Me.

"All things are My image, but they are not Me, e'en though I am in them and they in me."

Ok, now off the home lessons, I shall do some quoting from the very large Divine Iliad #1 this is well less than 50% of a whole book of 123 pages. Off my personal copy. YOU can search the web for versions. this below is sort of a summary of how creation works.

Q. Is it true that in the final analysis there are only two opposites; and if so, what are their names?
A. Yes, there are only two opposites. God has divided everything into two opposites--two opposite halves of a cycle. One half of every cycle expands; the other half contracts. Every cycle is a journey from rest to rest by way of contraction--or expansion. Rain falling on the earth manifest compression. Mist rising from the earth expands to complete the cycle. Rain generates--mist radiates.

All opposites are, in every case, extensions of a centering equilibrium. The equilibrium which centers them is their source from which two opposites are extended, as the lever is extended from its fulcrum.

Q. Could you give us some examples?

A. Yes! Compression and expansion are represented by matter and space, by the earth and the heavens; by positive and negative, by the male father principle and the female mother principle. Compression and expansion are also manifested in the mechanical principle of a piston in an engine which moves to express power. But the expression of the power is not in the compression or in the expansion. The power itself is in the still center which lies between the two. The dead center is fulcrum upon which each wave-lever loves to express power, It is the one balanced condition.

In an electric battery, we have two opposite conditions which we call negative and positive. They are the two opposite extensions from the fulcrum--like children on a see-saw--from which the piston or motion operates. An electric current interchanges between these two opposite electric pressures. But the power is not in the electric current; it is in that dead-center between them across which they oscillate. That equilibrium is their source. All the current off electricity is gradually voided in the dead- center source of rest from which it came.

If you want to recharge a battery, you must borrow the two opposed conditions from its dead-center. Two opposed positive and negative conditions must be created from the one balanced condition so that the two unbalanced conditions can interchange to manifest the One universal balance from which they sprang.

If you put a short wire across two unbalanced opposed poles and short circuit them, they go back to a balanced position of rest immediately. Or if you put a little wire across, you may light a hundred electric light bulbs for a day or two while the electric current slowly goes back to its dead storage battery condition of rest. The effect is the same as though a short circuit did it in only one second.

Candace: just a note, you ones have been and continue to be falsely taught. Opposites do NOT attract. They VOID EACH OTHER back into well, the voided condition.

A portion of the forward to the Divine Iliad #1 which was given by the Father of the Creation to Walter Russell.

FOREWORD

THE MESSAGE OF THE DIVINE ILIAD is sent from our Father to give unfolding humanity the needed comprehension for taking the next transforming step in man's long journey from the jungle of sensed awareness of body to cosmic conscious awareness of omnipresent Light of God as the centering motivating force of man.

For millions of years, man was unaware of his conscious Self. He was but body, expressing the desires of body, constantly seeking that which his body needed, and taking it by his might of physical strength. During those aeons of his unfolding, man was totally unaware of his unity with God and mankind. Likewise, he was totally unaware of the universal inexorable law which governed his every action.

Then came the dawn of consciousness. Man began to know. Then he created extensions of his body to do for him what his body could not do. He created a boat to transport his body--then a sail for the boat- -then a wheel--and fire to warm him and cook the food which he formerly ate raw during the animal stage of his unfolding.

Then came the long savage and barbarian stages of increasingly complex human relations based upon the jungle principle of taking that which he wanted by the power of might-over-right. During thousands of years tribes warred upon other tribes, building themselves into nations, and then empires, to gain possession of the wealth and services of other tribes and nations by acquiring their lands and people for ownership and exploitation.

Our own United States were thus acquired. We killed without compunction to obtain what we wanted. We stole hundreds of thousands of Negroes and made slaves of them. England, France, The Netherlands, Russia and other nations multiplied their empires by the sword of the mighty slaying the weak.

Industrial empires came into being as our supposedly highly civilized and enlightened society of humans increased its knowledge and practice of the arts and sciences. Advancement in our cultures and standard of living continued to deceive us as to our status as civilized beings. We failed to realize that we were illegitimately still practicing the law of the jungle---which takes only what it needs for survival---while man took thousands of times more than he needed for material gain. The jungle kills one at a time for food, but man kills by millions for enslavement and exploitation.

Such practices are a normal part of our present standard of civilization. It is difficult to realize that we are still barbarians. A civilization which kills and exploits others for mere gain can hardly call itself civilized. Humans can never justly call themselves civilized until they practice the love principle which God practices in all of His Creation.

Mankind has reached that stage of his unfolding where he must either learn the facts of inexorable universal law and practice them, or perish by his own hand. He will die by the sword he slays with unless his entire human relations are reversed from the taking principle to Nature's principle of balanced giving for regiving.

Man's scientific skills have made it possible for him to slay his entire race. A continuation of the old barbarian practice of taking, which has bred his many wars of hatred and aggression, will inevitably lead to a war of extinction unless Nature's love principle of giving replaces it.

Candace: I may have posted some of this before, either from the Divine Illiad or other of his works.

Those of you supporting again these wars of the United States, Israel and Great Britain, you should be thinking again, for man has made it possible to slay not only his race, but all life upon this world which is YOUR home. The current supported wars remain about the TAKING BY FORCE of Oil rights, mineral rights, and the pure desire of the Khazars to steal all of old Israel. They are not from Israel. This is the land they want. Just for the sheer wanting of it! However, I want NO posts on this here in this thread, just pointing out the obvious.

III

1. "Say thou to men; ye are My body. Hear thou Me when I say that thy desires are thy Selves, yea both body and Spirit of thee.
2. "That which thou would'st possess is Thee, e'en though thou possess it not. In body it is Thee. In patterned Seed and Soul it is Thee. That thou canst not evade. Thou, thy Self, create thy Self in thy image.
3. "If thou desirest gold of earth without balancing thy taking of it by giving gold of heaven in equal measure thy very Soul records the changing of thy unbalanced Soul pattern to the measure of thy unbalancing.
4. "He who discords the patterns of My balanced will discords his very seed. Its rhythms he must make absolute e'en as the disturbed rhythms of earth's storms must be made absolute. From this, My decree, there is no escape for man, nor star, nor galaxy in My universe which I imagined into seeming being to manifest Me.
5. "Balance thy desires and they will bless thee with multiples of their kind. Beware lest thy taking shall outweigh thy giving and gain thee naught."

IV1. "Consider well My will. Disregard it not, for thou shalt well pay heavily for e'en one whit of it's breaching.

2. "For I am balance. As heavens and earths of My balanced radial body vary not one whit in their rhythmic balance, so shall man vary not one whit.
3. "Unknowing man unthinkingly counts upon his own power to set aside My one law to fit the measure of his desires, but, I say, I alone hold balance.
4. "Man walks through his cycles upon a tautened rope. Where'er his foot toucheth I am there, giving him foothold as the fulcrum of his effort.
5. "From My rest at that fulcrum he takes the power I give to him to express his desire. Without Me he can do naught.
6. "And behold Me also at each end of the lever of his action to balance his unbalancing in My universe which knows no unbalance.
7. "Yea, be it ever known that two eyes of man's very God watch o'er each action of each man whose body My body is.
8. "And if man would know where those two eyes of his God are located, I say seek them at each end of his wavering pole which keeps him upright upon his tautened rope.
9. "For man cannot be without Me e'en though he deny Me in him.
10. "Have a care, therefore, that desires of man for things of earth be balanced by desires for heavenly blessings, without which man has naught."

Regards the Off topic work of Siraya thru Johan, this world is about to enter its rebalancing, according to the Laws of God that is covered thru out the work of Walter Russell, of which I have posted some here. The FACT that our planet has a TILT to it is PROOF of its being OUT OF BALANCE. Gaias rebalancing has been delayed on purpose but the Forces from Heaven, who manage such things, so that you ones had time to grow up. It hasn't gone well in that regard. Every social system of earth is grossly out of balance. Russell did a lot of teaching about how business must operate to create balance. as to out of balance, the United States alone, is in debt for well over \$3 Quadrillion now. How much is the debt total of other countries who borrow all the time?

continuing from the Divine Illiad Part 1

"since the beginning My Voice within man forever asks: `WHENCE CAME I?'

"And My Voice forever answers: "I came from God. "I am of God.

"I am Soul, record of Idea.

"Where God is I am.

"Where I am there God is."

"Within man My eternal Voice demands: `WHAT AM I?'

"And My familiar Voice within man answers:

"I am of the body of God, born of His substance. "God is Mind. I am Mind. "God is Truth. I am Truth.

"God is Love. I am Love.

"God is Life. I am Life.
"God is Light. I am Light.
"God is Power. I am Power.
"God is Rest and Balance. I am Rest and Balance.
"What God is, I am. What He commands, I command.
"My purpose is His purpose.
"God lives in me. My inheritance is from God and of God.
"He gives His all to me. He withholds nothing.
"The Divinity of me is Thine and mine. It is that which is recorded within the soul of me. It is the Holy spirit within the sanctuary of me.
"I am an Idea of Thine. The body of me is the Idea of the Soul of me. It is Thine and mine.
"I am the Master Sculptor. My body is the plastic clay. My Soul is the mother-mould of my body, the matrix for my regeneration.
"I am what I am.
"I shall be what I desire to be.
"What I am I have desired to be.
"I am the sun of my own desire.
"I am Thou, creator of myself.
"Thou are I, Creator of all.

Any of you familiar with Walter Russell are free to add short quotes here. Here is the one I currently have running in my signature file. This one is from the Home Study Course.

Meditation is the key that will open the door to your inner Self wherein lies all the true power for material manifestation for as sound springs from the silences so does positive action come from inner KNOWING.

It has been said that one must lose one's life to find it. Applied to meditation it means that one must lose (forget) one's mortal body in order to become aware of one's immortality.

That is exactly what happens when we seek the Light of Self illumination in our eternal Selves. The great glory of existance is reached only by Mind awareness. You can only reach supreme heights that way.

In that ecstatic existance is the seed and Source of all power and all knowledge which is yours by just desiring it. Walter Russell

Religion "believers", why aren't your ministers./houses of worship TEACHING YOU THIS???? Or at least to follow heart and intuition? If they were worth their salt they would teach the actual ways to connect with the cosmic consciousness.

Quoting: **God Loves ALL**

Glad I noticed this gem. 5 stars. Thank You for sharing!

Continuing from the Divine Illiad #1 by Walter Russell. The part in italics is the Divine Illiad, the rest is Walter's teaching of the material in italics.

"When they shall know the Light of Me in them, then they shall be Me and I them.

"When man knows Light, then he will know no limitation, but man must know the Light for himself and none there can be who can make words of it, for Light knows Light and there need be no words. "Wherefore, I say to thee, exalt thou thyself beyond they sensing. Know Me as fulcrum of thy thinking. Be Me as deep well of thy knowing.

"Until then he is but moving clay, manifesting not Me in him while sensing naught but moving clay of him; knowing not MY Light in him.

Every man wants to be great and powerful. The most important thing for any man to know who wishes to express power is his own relationship to the universe. Until he does know this relationship, he is like a blind weakling seeking his own way through the dark. His power is measured by the extent to which he knows his relationship to his universe. It is also limited to that measure.

Man's supreme error lies in thinking of himself as an individual unit of creation. Practically the whole mass of mankind believes that each man is a power unto himself, independent of anything else in the universe. Each believes himself to be an individual entity whose thinking is his own, confined within his own brain, and who has power of his own within himself to act. Very few think of themselves as utterly helpless in themselves. Very few know that they are as dependent upon their Creator for even the slightest of their actions as an electric light bulb is upon the generator from which it extends.

The relationship between the electric light bulb and its generator-- from which it draws its power-- is exactly the same as the relationship between man and god--man's only source of power.

An electrician is thoroughly aware of the fact that he cannot get any light whatsoever if he disconnects his bulb from its generator. To give light, it must be connected. To get more powerful lights from his generator, he must know how to make each individual bulb stronger and more powerful. It is only through such knowledge that the electrical engineer can multiply the power of a small candlepower light to the candlepower of a search light.

Likewise, the only way a man can multiply his own power from mediocrity to genius is to become thoroughly aware of the one supreme universal fact that GOD ALONE IS – and that nothing is existent but God. He who knows this knows that he of himself is nothing, but is all-powerful because of the Father abiding in him. Any man who knows the source of his existence without reservation as to his own independent existence is already omnipotent, omniscient and omnipresent. The illumined ones alone have this knowledge in its fullness.

Only such men can say with full cognizance of its meaning "I can of mine own self do nothing. The Father within me doeth the work."

Jesus alone, of all men ever born on earth could say this with as full a certainty of its meaning as the electrical engineer could say: "These bulbs have no light in them. They can do nothing of themselves. Whatever light comes from them is extended to them from their source. It is not their own light; it is that which is in their generator."

Jesus knew God as the One fulcrum of the entire wave universe. He knew the nothingness, the unreality of this Mind-imagined thought universe which only seems to be.

In no department of life has decadence of morality been felt more keenly than in religion. The reason for this deplorable condition is because dogmatic and creedal religions have outgrown their usefulness in this electric age of greater comprehension.

The old hell-fire and brimstone of orthodoxy no longer frightens people into being good. Orthodoxy, such as it was, held people to a greater practice of religious devotion than it possibly could in these more enlightened days. The God of love is replacing the God of fear in man's

concepts. Fifty years ago, practically the entire population went to church, and the child who did not attend Sunday school was rare.

Today, sixty million people in this country do not regularly attend any church, and a very large percentage of children do not attend Sunday school. That does not mean that people are less desirous of religion. It means that creeds and doctrines which have been inherited from pagan days are no longer applicable to this more enlightened generation. Sin has a different connotation in this electric age.

People no longer can be convinced that the naturalness of birth is sinful. Because of the many beliefs of early day religious teachings, over a hundred different disunited creedal religions sprang into being. The world is on its way to finding unity. A disunited church can never unify mankind.

A church which depicts the nature of God as any other than love cannot exist. The god of anger who must be appeased by sacrifice for the remission of man's sins appeals to the ignorant but not to the intellectual.

The comprehension of man has risen far above man's willingness to accept such concepts.

We have come to the eleventh hour in our civilization where God's Law of Love must rule all mankind. We must have One World with One Religion of Love.

Until the Law is lived by all men, we shall continue to produce materialistic men who destroy world unity. We are at a crucial point where the whole world must produce great men who know God in them---men who manifest the love principle upon which the universe is founded--or perish. The world concepts of values in human relations must change from accent upon money and material possessions, which are transient, to accent upon spiritual values which are eternal.

Candace: Sadly when Russell wrote the above, he did not apparently know yet that fundamentalistic evangelicalism was being planned by the dark brothers. We have back all the trash he said was decreasing but we do have people who do not accept it in increasing numbers. When I was growing up in the mid to late 1950's, most people did attend church in my small town of my birth and childhood. I don't know what goes there now. But I never once myself accepted the BS presented. Thinking, actual thinking can prevent the adoption of religion. the Evangelical satanic movement has been moved not only from those churches, but into the baptist churches, the methodist churches, and all the other brands of church. I watched it happen. As I was preparing for my work, I visited most of the churches in my area and was appalled at how the old main line churches are being made "modern". And it sucks big time.

"I always looked for the CAUSE behind things and didn't fritter away my time analyzing EFFECTS. ALL KNOWLEDGE EXISTS as CAUSE. And it is simple. It is limited to LIGHT of MIND and the electric wave of motion which records God's thinking in matter. EFFECT is complex-infinately complex - but one can have no KNOWLEDGE of effect. One can but be INFORMED of effect. Information is not knowledge. Our educational processes INFORM us but until we have recognized the eternal truth which underlies that information we have no knowledge of it. Like food in the grocery store, it is not nourishment until it is converted to the blood stream. ALL-KNOWLEDGE is possible for anyone - and the Cosmos gives it to him who asks but all information is impossible."
