I am starting this so I can control it. I have been posting updating in this thread starting on page 11. I just rejoined so I can actually work here on this one topic.

[Thread: 3 Days of Darkness are upon us!!!! \(Page 11\)](#)

I will move my relevant posts here. The dimming got really serious yesterday and I want to document with interference.

Good for you coming back. It's hard to interface with you as AH is just posting, not communications.

I admit I'm pretty bummed about this not manifesting yet. I actually get upset when I wake up every day to a shining sun. I'm hopeful I'll mature in the future, but for now, my mind is childish and desperately wanting to go.

Not related to 3DD specifically, but a reflection of what all of us serving here from the very highest heaven, who do this for YOU, out of, our love during this time of planetary ascension. Ponder this before you add more derogatory posts that I have to ban and remove from this thread.

Those making it a mission to collect clusters of 3 green thumbs, these works from my website are approved by SHR of GLP for publishing of FULL content. Out OF Love For You

written by Rubens of AH but it expresses all of us here to help raise the planetary peoples. We put up with the most incredible condensations because we love you and wish to assist your journey upwards in the heavenly realms -Candace.

For quite a while my dear brother/sister, you have asked many disparaging questions and made many unkind remarks in an attempt to diminish me and/or my words because, for some reasons unknown to you, I have become a thorn on your side that you feel needs to be removed. The following are a few of those insults in the form of questions and affirmations you have thrown in my face condescendingly over the years:

- Who are you?
- Why God would choose you to receive messages?
- If that was God for real, why did those things not come to past?
- Did you study for this anywhere?
- Why not me?
- Are you OK?
- Are you crazy?
- Why is it that the church knows nothing about that?
- Do you think that you are that special?
- You suffer from schizophrenia
- You need to see a shrink

You can write science fiction to make a lot of money
You have a very fertile imagination...and so on so forth

I could give you a myriad of answers to your questions and affirmations but to put it simply, OUT OF LOVE for you my brother/sister, I took it upon me to inform you of impending events that you yourselves have caused to materialize so you could reverse the process and attenuate the blows that must come to you. I take your discouraging remarks with dignity because I do understand that you do not know what you are doing; you and those similar to you have no clue as to what and who you are so, as a loving brother/sister, I have come to this world to help you save yourselves from the hell that YOU HAVE CREATED. Out of LOVE for you, I have agreed to take your scorns and teach you how to become loving, graceful children of God.

No matter how many times you call me crazy, I will continue to work with you, so that in the end, when all is said and done, I can happily cry with you when you suddenly realize how much of a fool you have been to those who wanted nothing else from you but an acceptance of their LOVE for you.

God works through and with me so that I can bring my sisters and brothers who have lost their way; I am here to help re-assemble the lost flock; I am here because I know there is no separation between me and you and your suffering does affect all of us, children of the Light, despite your ignorance.

OUT OF LOVE for you, I keep tending my hands to you to help you climb out of the precipice where you so selfishly and obstinately plunged head in through your self-deluded creations. No matter what, I will love you despite yourself because I am your brother/sister. It is the Will of Our Father that I bring assistance to those who need it the most and my dear brother/sister, you are among those in need.

Stop wasting your time telling me that I am crazy because I will continue to lend a hand to you until it is so completely clear that you are beyond reach and that all my efforts are of no use to you since you chose REMOVAL and/or UNCREATION.

I AM HERE OUT OF LOVE FOR YOU MY BROTHER/SISTER

well the sun began dimming down yesterday. I have images a team member took of the bright white craft descending, which match the imagery I was given 2 or 3 days ago during meditation.

3 times yesterday that I am aware off, after noon, when the sun was beginning to stream towards my large west living room window , I noticed dimming of the same nature as the light dims when the sun passes behind a thin cloud. There were not clouds it had passed behind. I was able to reduce my eye protection to gaze the sun and at some point when I would normally still require eye protection to gaze it, I did not.

It is not as bright out there as it should be this morning. I gaze shortly after rise without any eye adjustment at all, and now 1 hour and 20 minutes since rise and I can still gaze without eye protection. it is of course brighter then when it rose, but even in the days a few years ago when I sun-gazed regularly on purpose I could not gaze the sun past bout 40 minutes after rise. and in recent months not more than 30 minutes at most, and very uncomfortable. Something IS happening.

Candace, you are telling lies...the sun is the same in US and in Italy..and here is not possible to see it directly..

why do you say these kind of lies??

and you go out and sungaze regularly over the years so you know? The sun has changed. It is now 4 hours since the sun rose here today and I can still gaze it without dark protective shielding. It took all of about 3 secs for me to discern the disk. Others on my forum are reporting the same. I have pics I am working on posting on my forum showing the craft maneuvering into place from 2 days ago. At this time they are dimming using gradual manifestation of the craft.

Have YOU been able to GAZE the sun 4 hours after rise without welders lenses or heavy googles? to focus on it and have the disk come into view? and keep right on looking? I just watched it for over a minute bare eyed.

well images are diming on Stereo a and b too. We have comparison proof on my forum and I just ran some for myself personally. And at about high noon, I will go look again. I do have troubles reading on the computer for a couple minutes as my pupils dilate again. but I have never been able to stare at the sun this late in the day, not even close and see the actual disk and last time it only took maybe 2-3 seconds for the disk to show. That was over 5 hours after rise. I have set a timer to have me check at about high noon on this. at this time I am not going to stare for several minutes.

why not go out and watch the sun dim.

I checked again and still at high noon my time, 1 pm DST I can still view the solar disk with unaided eye, not dark lens system needed. And super comfortably with just the one set of dark sunglasses on. At high noon I have needed 3 sets of dark lenses. 1. my extra dark sunglasses. 2. a pair of throw away sunglasses the eye doc provided years ago after my eyes were dilated. 3. the dark surgical eye goggles I needed after my cataract surgeries way back about 1998 or so. Before this year, the sunglasses and surgical goggles were plenty to view the sun at high noon. I had to add the 3rd throw aways to view sort of comfortably and it still took up to 1/2 minute for the disk to be clear to me.

Today I could probably watch a minute without anything, but I won't do that, but easily I could watch as long as I wanted with just the dark sunglasses. That was NOT the case 2 days ago. I needed all three.

The sun is considerably LESS bright over the past about 28 hours or so now. HUGE CHANGE, this is NOT NORMAL. As I have said I am an experienced sun gazer, I know what protection my eyes require when to watch the thing and I watched it all day today WITHOUT ANY PROTECTION.

this is the next post, I didn't want to work with the quote feature.

Now likely my last update of the day on the dimming. It is approximately one hour to sunset here. NO CLOUDS, Clear sky. I can freely sungaze without any eye protection, for as long as I wish something not possible fone hour before sunset for me in a few years now. The light cast is dim O THE ROUND with far less contrast between shadows of trees and the light on the grass and pavement, than is normal at this time of day. It has the appearance of the sun being behind more than thin clouds at this time.

As I said I am EXPERIENCED at what I do for years now, as to sun watching and I KNOW OF WHAT I SPEAK.

Ok last post I made there before sun set.

checking one last time before the sun drops behind roof tops etc here, and the contrast between the shadows of the trees and the sun on the ground is minimal. There are NO CLOUDS producing this. I checked at 6:32 after I let my eyes recover their dilatation completely after the last sun gaze. This is NOT normal. The official sunset is 1/2 hour but it is visually several minutes before because of the mountains.

Candace I agree that the sun was dim today and we didn't have a cloud in the sky, just two weeks ago it would have burned out my retinas, very interesting!

I am very interested when you think this will occur. If it is meant to happen I believe it will be soon. There are 6 different cultures that speak of this so i'm very curious.

The visionaries in Medjugore have also stated it will happen in our lifetimes. I'm just trying to put everything together as my grandmother would speak of this from time to time when I was little so its always been of interest. Thanks for any reply and many blessings your way

Alright to answer your question from the other Thread Shadasonic.

It is desired before Yom Kipper this month. It was desired by the end of August, was the target time but addition time was needed to wrap up all the problems. Thank you so much for posting about your experience, people got so nasty I could not work in Being Mindful's thread.

It is important to also do it before the winter starts in this hemisphere as most peoples heat is NOT going to work and there are far more people to consider. We have in part been waiting for the S. Hemisphere to warm up a bit more.

We have chosen for a variety of reasons to bring this on SLOWLY to reduce panic and help people prepare. We DO LOVE EVERYONE and consider circumstances. The dark thugs had planned redundant backup in the media to cause great fright, (invasion, planet x flipping the planet etc), and major media in a few western countries (US of A in particular) were refusing to cooperate. We do not want this to be a surprise. It must be done. These extra days of "dimming" as some people start to notice it, will jump start that process of people wanting to do a soul review. It means everything, and we hope many will decide to climb off that fence. Those who are

noticing WILL put pressure on the media and come to the forums like crazy.

to the one whose post I just removed, todays images on stereo a and b are BLURRED and I suggest there is a reason for that. I will take no more of this stuff in this thread. Although you had comparison images from JUNE, rather than 3 or 4 days ago, I removed your post because of the rudeness. do it again and I will ban you. Those alert who think , go to Stereo and compare the 195 evi images from a few days ago. I have two from ahead I have not uploaded here yet, its late, a job for tomorrow after I evaluate tomorrow. Another of my team also posted some to my forum from Stereo A and B evi 195. I haven't looked at any older SDO images would would require the search feature there.

I welcome serious questions and the sharing of experience. I will not accept the BS like happened in Being Mindful's thread.

the resolution on SOHO images is terrible, old technology. Stereo A and B are much better, and the blurring obvious. to my eyes all of those are blurry because of the resolution and also the intensity of color. Resolution is far better on Stereo.

These are suggested links I did copy to my computer so I could study side by side.

[\[link to stereo.gsfc.nasa.gov\]](#) last link for 9/18

[\[link to stereo.gsfc.nasa.gov\]](#) last link for 9/11. I simply rather than moving back day by day, used the back up one week feature, no other reason.

There is a difference in clarity. It does not "prove" this yet, but it does add some credibility to my own sun gazing since early on 9/17 when I began recording what I have placed in this thread from the other one.

A member of my own forum posted comparisons of both Stereo A and B from today, and from 9/01 same thing, using hours around 1600 Utc as the comparison in all of them.

OH and I did remove your rude post and banned you. Tomorrow when I am awake and can monitor the thread, I will unban you to see if you sincerely have an interest in this. The post I quoted was much better. Whether you are trying to prove me wrong or right, does not matter, because perhaps in trying to prove me wrong, you will ponder some more after your discovery. I would in fact help others to perhaps over come their paradigm boxes. People are so afraid to LOOK, because once they do, everything changes for them. Societies control systems fly out the window. They either have to shut the door on further looking or blast it open all the way. Then they have to deal with people telling them they are NUTS in one way or another, and rather than be NUTS some just shut the door, they cannot stand against the peer pressure.

So go ahead and politely make some observations. If the images are blurred for some other reason, that is fine too. Its important though to have the COURAGE to open doors and walk thru them and stand in what you find. In fact its what 4d is about and so many are failing the test. There are Christians here who started to open the doors, and when their kundalini was rising, they freaked out and called it "demons" and went right back into Hell Fire Christianity. It's apparently so much safer there.

The 3 DD's will force the opening of doors. This planet, because of the Lucifer Rebellion and those imprisoned from it on this world, have created the worse sort of division to be found just about anywhere. It is terribly saddening what people think God is on this world, in all religions in fact.

The sun is not tying this altogether in some meaningful way. Although of course its in the photon belt, the energies from the center of the Milky Way and the WAVE.

STAR FLEET those goodly folks from "Heaven" are here doing the 3 DD's. The sun does not just

all by itself dim. 

These craft and the folks that operate them and the big bosses of the management teams of the creation make these decisions are from very high places. The entire creation is managed by many different specialists and universes do not must naturally pop up there and life does not naturally just pop up on planets. GOD'S SONS DO THIS WORK. THE HIGHLY SPECIALIZED CRAFT CANNOT BE FROM OTHER EVOLUTIONARY PLANETS. Worlds like this are NOT management worlds, although the people on this world may one day help out here and there like the Pleiadians particularly from Thiaoouba do. Thiaoouba is called Jehovah in the OT. Its a PLANET not a god. It is the most advanced planet in the huge Pleiadian system which as 500 suns and not just the 7 sisters.

But these ones do not make high level management decisions. Those from "heaven" do. I am from "heaven" myself, from Paradise, and I am on the team that decides what goes on here. I have my vote and say at these meetings.

There is a hierarchy, very very old and a separate heirarchy for each of the 7 superuniverses. Then lower hierarchies for the lessor sectors within the superuniverses There are 5.6 trillions evolutionary worlds with intelligent life on them, They are groups into manageable organizations. The smallest of these are called "systems" which have NADA to do with Solar systems at all. Lucifer was the system head of the system that Earth belongs too. The system name is Satania. At the time of his removal from office, he managed over 600 worlds with intelligent life. With a full staff of help of course. Up to 1000 planets in a system are managed.

Now Systems are brought under higher hierarchy. 100 systems are monitored in each constellation. Again here, Constellation does NOT mean the labels man has given for star groups in the sky. There are 100 constellation governments in any local Universe. A local universe is a managed and governed area of a superuniverse. A specialist Creator SON of God develops and overseas each Local Universe. That being for OUR local universe is the one that played the role of Jesus here 2000 years ago. Michael of Neadon I yak about all the time. The Creator SON has as "parentage" the Father and Eternal Son of the Trinity. Our Michael with our Creative Mother Spirit have created all the "angels" (managers and teachers, judicial experts, legislative experts, life carriers, melchizedeks,, guardian angels and far more), needed to run a massive local universe. Currently there are 3.8 MILLION evolutionary planets with Intelligent life in Neadon. That's a LOT OF MANAGEMENT. ON top of the evolutionary worlds are specially constructed worlds to serve all these folks and ALL OF YOU once you graduate from EARTH!

This is the short story. Please be open to opening boxes. You have boxes because the black operatives create them for YOU. Time to unzip them.

THE CRAFT AND TECHNOLOGIES BEING USED FOR THE 3DD ARE FROM THESE MANAGEMENT TEAMS. THE CRAFT TO ECLIPSE THE EARTH IS NEARLY THE SIZE OF JUPITER. IN FACT THE HEAVEN WORLDS THAT ARE CONSTRUCTED FOR ALL OF YOU TO EVENTUALLY LIVE ON ARE UP TOO 10,000 TIMES THE SIZE OF EARTH, AS TO THE SUPERUNIVERSE CAPITAL WORLDS! THIS IS NOT SMALL SHIT!

The crafts from ordinary evolutionary 3 to 9d worlds (like Thiaoouba), are made of ordinary matter of these world and matter mined and are simple per se. As worlds grow in GOD and are given advanced technology by the SYSTEM HEADS, they may develop ordinary cloaking. Such as invisibility to radar like earth has now. Simple shit. Even to Thiaoouba, because evolutionary worlds matter does not change all that much as the people ascended. It does vibrate somewhat faster.

The worlds of heaven, that is a different story. They have more elements, much higher vibrations, matter does indeed change considerably from what we will ever have here, no matter how this world changes, it will always be 2D, 2nd Density, but it can go to 9th dimensional spiritual growth.

Now the CRAFT of Orvonton, (our superuniverse), Nebadon, and the Central universe while still being "matter craft" it is a much higher vibratory refined matter and these one materialize and dematerialize. Can be manifested or not, to use the crumbly words I have to use to teach with. I am regularly dematerialized to ship by scotty beam me up and brought back by scotty beam me down. DITTO THESE CRAFT. OK?

The sun, when the craft are dematerialized, can shine right thru them. As the craft materializes, it becomes more solid. That is what is going on. You cannot see the people that operate them, because the spirit and semi material forms are outside OUR VISION. Unless these ones slow their vibrations to within our range of our eyes. Any of you with CATS who have paid attention to them,, know that cats can SEE beyond the human vision here. And dogs of course can hear beyond the ranges of our ears too. These bodies Stink. OK But thats another story.

The point is, this is not a "natural event." This is a custom made event decided upon by management and its been used on this planet before, and probably on all evolutionary planets at one point or another. It is the JUDGEMENT time. During the 3DD the thugs are removed, so a new age of light can be opened. It has come to be necessary, there were other options, at this time. We either close up the planet for thousands of years and let her cleanse normally, or we try to repair the damage of the Lucifer Rebellion and give the poor deluded sad people of this world a leg up.

We nearly went into the alternate plan of stasis end of December but many of us wanted MORE OUT OF OUR LOVE FOR YOU. You have been shit on, under the Lucifer management. Now probably most of you interested in my work, are not probably the sad deluded people of earth, you are star seed and tis time to wake the fuck up, because the black ops have done such a good job in religion, new age, and schooling that many of you, while you sense more, are still happily sleeping away and preferring the tired old paradigm to waking up and doing what you came to do. Its not your fault necessarily as the dark are very good at deception and in the western countries life is just good enough perhaps you don't see. I don't know what it is. I always saw since a small child. but its hard going against the grain. Your whole societies condemn you for being different. SO WHAT. So you not think I have not been thru earth hell enough times myself and even with those that know me. Jesus would never choose a old lady in a mobile home park you know..... REALLY????

Ok enough. Please READ THIS WHOLE THING and start being observant yourself. You are needed to jump in and make a difference. We hope to get a whole year to teach those lucky ones "left behind" and you are so needed. People will fear this anyway, but we can lessen it. They are going to deal with removed loved ones. Many are married to thugs and don't even know it.

We have carefully laid out a plan in every possible detail to make this as good an experience as possible, a glorious experience for the left behinds. NONE will be left hungry as things settle, banking changes for the year, people in craft start cleaning the planet in day light, emails to ships, tv cameras on them, and as things settle, trips to and from physical crafts which are here because physical people live on the planet.

The CURRENT plan is slow ingress into the eclipsed state. Thus the dimming and perhaps cause for some of the new blurred images on stereo.

YOU ARE LOVED and NEEDED and I surely hope the star seeds wake up real fast and come into service and anybody else for that manner that can help others during this time and assist in the

huge box opening that will have to occur.

I am giving you the "HOW IT IS" here.

Hi Candace,

I have been looking in on AH website for about a month after it being recommended to me.

Every message I read resonates very highly, I keep feeling at last there are others who think like me!

Anyway thanks to all of you, I have noticed all the crap all of you are facing.

I was gazing at the sun a couple of days ago and was bemused at how I was able to stare right at it with my bare eyes, never have been able to before. I was fascinated, probably did it longer than I should have but no ill effects.

Then I found this thread and it's a bit spooky that others are experiencing the same thing. It was late afternoon in Australia, fairly clear day.

I have never understood this world, I have had difficulties my whole life, always felt that I am not

really from here. I see the worlds crap yet have never known what to do about it but have had the strangest sense that I was here to do something of significance.
Still lost but holding out hope that the world of my dreams will be realised and we will know who we are again.

Many thanks.

Quoting: **Anonymous Coward 24004539**

Yes the day Christ hung on the cross. That s why it went dark that day, ship eclipse. You don't hang Creator Sons who gift themselves to a world. Of course that was for a lessor time than three days. Stars don't go dark, they are eclipsed on purpose.

there are possible old records in existing holy books about days of darkness, there is one in the OT, perhaps during passover? I forget the circumstance, somebody brought it up in another

thread.

Quoting: **Anonymous Coward 23869380**

You can read the material in my signature file.   Anything NOT on the electrical grid will work. Gas lamps would work, any thing battery, hospital backup generators will work, your car will work until out of gas..... gas pumps if electrically operated will not. The electric GRID will be purposely shut off. The sun itself is not responsible. There have been posts all over the place here for weeks now about electricity being out for short periods, systems being tested, we had two tests where I live mid summer.

Contrary to catholic stories you do not need "blessed candles", any candle will work. water and gas to homes may or maybe work, depending if they are on electrical grid pumping systems, that is why say, if you do not know, store water. You can do this how many people get thru electricity down from serious storms? Two folks that i know of on my forum have been thru 10 to 11 days without electricity. Of course they did have light in the day, but one endured with little of that because of dark skies from the hurricane for a couple days. The other case was in a very cold winter from massive blizzard, towns people all pitched in and got thru it. The actual darkness and no electricity is ONLY 3 days.

This method WILL GET PEOPLE's attention to the trashing of this world. Those with NO respect for life get to leave.

This is INTENTIONAL from Heaven, it is God's JUDGEMENT EVENT. Many people will fall to their knees over it. And perhaps choose eternal life. The hot sun has nothing to do with it. While seeming Hotter it is not really, just more energetic actions of it. It is converting from a hydrogen dominated sun to a helium dominated ETERNAL sun.

Well, I've waited for the last couple of cloudy days to see the sun.

I'm surprised and excited!

I can actually look directly at the sun with no problem.

I've never been able to do that. I couldn't even look at the sky near the sun without my eyes stinging and watering.

Three times today I've looked directly into the sun.

No stinging, no tearing.

I'm able to see the rays around the disc go dark--like a negative--and the disc appear clearly in the middle.

I don't even feel the urge to blink.

Of course, afterward I have to let my eyes readjust, but there is absolutely no discomfort.

This is the truth, therefore I do not care who believes me or not.

So have at it.

Anyway...

Candace, is it possible that only the ones who believe are able to see this at this stage and everyone else will follow shortly whether they like it or not??
