## THE WAVE/Face of God/The ONE

Hi Everyone, part of the predictions of this time and not understood is the coming of the WAVE. I have been hearing it for around 6 weeks or so now. High pitched tone in the ears that has a tinkly tuning fork, bell sort of tone to it. I don't have one word to describe it with. We are carrying this on my website now, because it is becoming more intense. And its IMPORTANT, as it is an energy that is going to penetrate ALL of matter, and cause many of you to "feel" the God within. It will be felt physically and will frighten many.

You may ask questions in this thread, or perhaps post something from another site that seems to fit, but I reserve the right to control the material and will remove inappropriate posts per usual. I want this to be an information thread, so I will also remove general chat posts if they become too numerous because I want people to have the meat, and not have to fish thru pages and pages of material to find the meat. There was another thread started here in early February, Called The One Has Arrived, but it was misunderstood, but I might see if there are some good posts in it to add here, or readers may add some, but I reserve the right, because of the nature of my teaching and commitment to remove material that is not accurate enough. Also there is a thread by Urantian, called Stasis, the Interval of NON time started 2 years ago when we first introduced the topic.

The first post, which is one of my favorites, is this one by THOTH, yes, the THOTH of the Emerald Green Tablets, thru Leonette. She does this sort of material well with him. They make a nice team. I made a request for this, because we needed something a bit scientific about what the WAVE is. I have several posts on my website thru various ones and will add them one at a time over the next day or so, so the thread stays up on front periodically. I made other material, in terms of short posting around earth changes and the like to it.

OK, Here's THOTH.

**Thoth thru Leo, a Science perspective on the WAVE.**

09/03/2011

Commenced last night (10:00pm 08/03/2011) and continued today....

-- AH- Candace GLP #5-1 -- page. 1

I asked Thoth to give some information on 'the Wave' in a way to help us to assimilate what it does and how it will affect our world.. The following is what I received.

"The Wave is a projection from Source that occurs in tandem with the 'closing off' of a period of activity relative to a planetary system's growth and development.

It is a 'pulsing rhythm' that attenuates from the 'Primal Sound' and builds up in layers like a series of Sound Waves to a level where the intensity of the resultant vibration is strengthened to a point of implosion. That point, however, is only reached when circumstances have sufficiently been 'fine tuned' to ensure 'that' which is being calibrated' can 'see the face of God' without losing consciousness.

All planetary systems which extend outward from Source will be 'bathed' in this Primal Sound. Those most separated from Source will be subjected to the more acute 'tuning' elements that accompany this 'Sound Wave' for that is really what it is.

The "I AM' issues forth the 'Primal Sound' and it is rhythmically discharged in a series of 'pulsing sound waves', with the lowest intensities being the first to be discharged. As the issued 'Primal Sound' 'tunes up' whatever it comes into contact with and some density is cleared, the issued sound reverberates in the form of a secondary echo and returns to the 'I AM' or Source who in turn projects another 'pulsed sound wave' of greater intensity than the one issued before. This to-ing and fro-ing of sound waves, moving from lower to higher levels result in an eventual 'breaking down' of density. With the breaking down of density, all that remains is Spirit, for all density has been dissolved and as such the dense forms that added to the illusion of 'separateness' become 'unglued'. However that particular situation is some way off and it is best discussed and understood during the period of stasis.

For the moment though the first rhythmic waves are the least intense and are designed to 'shake' everything up at its core. At the higher Cosmic levels the waves will feel like gentle breezes on one's cheek. At the lower levels ALL atomic structures within density will vibrate intensely.

These "Primal Sounds' from the 'I AM' or Source which move through Creation as Sound Waves consist of super-charged particulates which 'roar' through the Cosmos. You may picture it as an image of mighty waves rising up out of the oceans and crashing onto the beach, gradually breaking down anything that stands as a resistance to the ocean's waves.

These 'super-charged particulates' are comprised mainly of electrons which literally attach themselves to each atom that is encountered and 'electrifies' or 'charges' the atom even further. The 'electrifying' or 'charging' process involves the 'harmonizing' of each atom to the frequency of each attached 'super-charged particulate which carries the frequency of the 'Primal Sound'. This is similar to how a 'tuning fork' works. Automatically the atom begins to `{{vibrate}}` in resonance with the particular level frequency of the Sound Wave of the 'Primal Sound' which was projected by Source.

As you know all matter as you see it, is comprised of atoms, held together by sound waves vibrating at different frequencies. Additionally each coalesced sound wave emits its own tone...Once the supercharged particulate 'electrifies' or 'charges' the atom to which it is attached, it effectively changes the nature of the atom.....the tonal quality changes and the now 'supercharged', electrified atom emits its own sound or tone. Each supercharged atom making up particular forms of matter be they humanoid, plant, animal, planetary or celestial... (Yes, celestials, elementals etc. carry form even though it is less dense than human form) release new tones or sounds unique to the now supercharged, electrified atomic structures of their being.... The I AM or

Source responds to these released tones by emitting an even higher level tone of the Primal Sound that 'washes' over all creation again.. The process is repeated in a rhythmic pattern until the desired objectives are achieved (which will be explained during stasis).

So to simplify then: 'The Wave' is one of many to come and it is 'pulsed' from the 'I AM'. It is like a Tsunami of Radiance pouring over all creation and embedded with 'super charged particulates' which consist primarily of electrons and which attach to the atomic makeup of ALL matter. The super-charged particulates, comprised mainly of electrons attach to each atom, 'electrifies' the atomic structures causing such to vibrate in accord with the frequency conveyed by the super-charged particulates.

This causes changes in vibration which facilitates density changes and/or transformation thereby resulting in frequency changes to 'matter'#. The changed matter, now emits a new tone which signals to the 'I AM' that the first level of clearing has been completed. This signal prompts another round of higher level projection of the 'Primal Sound' from the 'I AM'. Each clearing/transformation to matter is considered an 'upgrade' and this upgrade solicits a higher version 'Wave'.

So to bring it to 'home', the first 'spray' of this initial wave has already 'hit your shores' and you are now awaiting the 'crested wave' to touchdown. Once that happens all of Life will be prompted, one way or the other, to find the Divine within.

In spite of what your initial response might be to your perception of what is about to happen, be reminded that the ultimate objective of this initiative of 'waves' is to cause ALL creation to vibrate at the same frequency with the 'I AM'. To realise that objective requires a gradual build up of 'vibrational' changes in 'matter'. Once 'matter' is altered in this way, higher frequency change is inevitable. At the highest frequencies, one can then be in the presence of the 'I AM' without becoming overwhelmed by the intensity of the Absolute Love and Glory of the Source. Surely then, this is what it all comes down to, therefore be in gratitude for the Act of Grace that is being bestowed on all Creation.

I AM Thoth.

Candace: OK, now for the first simple example of the power of sound. Most of you know that a soprano opera singer, can shatter a crystal glass. It is the HIGH frequency of sound that does this, besides also the force of her voice that carries the sound faster. A high pitched squeaky noise doesn't do it, the force of the high frequency sound wave does. Each octave of music has a higher vibration, as measured on a GRAPH, and the same is true of matter on this worlds as it responds to these energies, the vibration is increased. Each level of DENSITY and the dimensions within, can be compared in this way to the piano which demonstrate visually so well, the increasing octaves of the creation.

Your DNA is light and is crystalline, become more of a crystalline nature as it carries more light. While animals are not going to yet have 12 strands of DNA, their DNA is also becoming more crystalline, and vibrating higher also. I should become easier for all of you to thus see their aura's. There is even change even with this early wind that I am seeing aura in MATTER right now. Recently my bathroom counter was glowing in green one evening, and there was not a green towel or jar which would have reflected the green. I was in a meditative state and saw it.

Another example is from the bible in the power of sound, the story of bringing down the wall of Jericho by the army going around it and stomping their feet. In fact, in the case of explosives like dynamite, it is the sound (scalar waves) generated that do the actual destruction. Scalar energy was used to help bring down the towers too, amongst all the other stuff that was done to make

sure, and make them easy to haul away.

Science has always been wrong on what holds together the atom, and I knew this in my early science classes, but I could not remember actually the mechanism, but I knew the so call centrifugal force or whatever we were taught was not correct.

Now, as a reminder, it is simple enough to say that spirit fills up all that space in the atom, it is not "empty." As your frequency rises, you are still made of atoms, but the atoms take up more "space" because they acquire more spirit in them. This is why some beings you may see, are light and fluffy looking of sorts, some you can actually see thru them. This is why spirit beings grow larger, your real being, your real form, those of those incarnate, these are NOT your real forms, but your real forms are larger. There is more spirit, bigger atoms in them. All beings still have some atomic matter in their form, but it's full of spirit. We don't have the right language, I can only use what we have.

The God particle that is being covered, there are 100 of them, the Ultimaton, in an electron. And electrons collected together, make up the protons and the neutrons in the nucleus of the atom, simply stuck together by sound so there is more "mass" of sorts. This incoming wave of sound can vibrate all that stuff apart, thus leaving just the spirit, as above. This is extremely simplistic, but we have to work somewhere.

You can often hear wind, can you not? some of that is the wind rustling leaves and the like, but it has a sound also, as it quickens.

I am hearing the WAVE for several weeks at least now. This is a different sound than that I hear when the BZ is negative during solar storms. It's a different pitch and I hear it more in the evening, because sound is carried more when it is dark. AFter a time of hearing this, I began to realize from memory that I was hearing THE WAVE. it's picking up. Eventually, not long from now, which is why we are covering it real fast now, more and more people will perceive it.

I am seeing postings on GLP by people feeling and hearing something different. Lots of people are picking it up. some are feeling terribly pressured already and fear of the unknown of course increases discomfort, so as people begin to wonder around you, you must start explaining the wave, which may be as simple as this is the incoming energies predicted in the so called end times and these usher in the new times, may be enough initially. Do not force the knowledge if they are not receptive, they will have their time to see, plant your seeds in fertile ground.

I can promise you pretty much that crabby people are very likely as it comes in to get more and more crabby and either stay out of their way, or attempt gently to put them at ease in some way. It will be helpful for many to go exercise or walk to work down or expend that some.

Here is an interesting You Tube video a friend sent to me last night. While this isn't the wave per se at all, its the wind bringing down a bridge built back in the 1940's, I think the way the bridge waves, and the music the person added to it, will awaken something in you.

[\[link to www.youtube.com\]](http://www.youtube.com) This is a nice choice of sound with the movie, has lots of interesting octaves in it. This wave coming may FEEL a bit like this to you. However, it will not do this to the bridges!

#2 I am not posting these in order as being provided. Just as I wish.

### **Message: WAITING FOR THE WAVE**

Seraphin through Rosie, 9 March 2011

R: Seraphin Dearest: I am having trouble going to sleep tonight. Maybe it is the incredible contrast of witnessing the present carnival festivities here – an accumulation of shallow pleasures – while simultaneously being aware of the enormity of the incoming “wave” of new consciousness which is destined to roll over us with profound effects. The tension between these two poles seems so taut as it to snap, and that tension is somehow caught in my body resulting in an inability to relax and a constant feeling of being on alert ...

S: Yes dearest: your eyes are tired, and sleep would be rewarding, but it is this feeling of alertness which will be your saving grace. Do not negate it or blame it for your sense of ill-being, for it is a pointer towards intense living of a kind which is as yet beyond your imagination.

Imagine that your life is so full of meaning, so rich in dedication and abundant in joy that you always find it difficult to stop or sleep. Perhaps sleep is no longer necessary. Compare this with the usual life presently led on your earth – a dull compromise punctuated by meagre highlights.

The new wave will allow YOUR WHOLE LIFE TO BECOME A SINGLE CONTINUOUS HIGHLIGHT, ONE SINGLE STREAM OF ENDLESS ENTHUSIASM, ONE SINGLE FLOWERING OF COUNTLESS GIFTS, ONE SINGLE EXPANSION OF MULTITUDINOUS SEEDS OF POTENTIAL.

Everything which presently seems unfocussed, uncertain and inconsistent will move into alignment with Divine Will, FUSING TO FULFILL THE SOUL'S PURPOSE. When you have adjusted to the immensity of this, you will gradually come into the joy of knowing that you are not a mere speck of sand to the Father but a purposeful warrior in his name.

We rejoice with you at this time of great transition and we say: the stars which seem so far away will be to you as paper foil decorations hanging on a tree. That which was so distant and unfathomable will fall into your reach. You will be able to grasp the unknown in your very hands, feeling it with familiarity, feeling the faces of the universe, feeling the fondness of your galactic counterparts. And as the new worlds open to you, so will you also open your minds and hearts to them. We love you, Seraphin.

Thanks for posting this on here dear NIP!

May we all rise in courage and with grace to the coming **wave of love** that will wash through us.

People are troubled and deeply affected consciously and sub consciously by the recent tragedy in Japan, the sorrow and the wake up call of this event.

With this human crisis and the subsequent planetary transformation still to come there is arriving more global consciousness and interconnectedness.

To all who have a clue, it is time to gather our energy and our spiritual surf boards as we help our brothers and sisters with this evolutionary journey.

With Love to All

**NOW COMES MY WORD** - Father thru Bela (Father is First Source in this case)

Now – more can be said beyond words; more can be understood without obstacle; more can be rooted and blossom in the NOW.

NOW HEAR– nowhere will this be unmanifest! It has been decreed. It is MY LAW unto you that this IS.

Remember your realization thru the endless blossoming that is planted, germinated, grown, rising and endlessly blossoming into more of the ONE FRUIT. THAT IS ME IN YOU. Imbibe this – as it becomes you AS ONE WITH THE FATHER.

Here is the experience of looking upon the face of GOD and being consumed without being destroyed in the process. Only that which is indigestible is dispelled, and even that, even that – can be fodder for further growth. OH THE GLORY OF THE ONE BE WITH YOU. My ever present breath be upon you and animate you to ever greater LIFE.

## A Timely Reminder- Metatron

The journey's end nears and the purpose of your visit on this planet will soon become apparent as you don new attire in service to the One, in remembrance of the great cause, through the precipitous Wave upon thee. Humanity will awaken to the joy and splendour of He who birthed their very soul. Yet the margin of those who will not, for lack of inner fortitude remain great and it is these ones who shall shudder and tremble in the wake of their own fear born of earthly contrivance. The peril to these ones remains in the disbelief which accosts them and renders their understanding poor. Yet even those lowly in spirit will not avert the resplendence of what is to transpire in their universe of timely comprehension. For fears will be faced and dissolved whilst for others there shall be new resolve, new direction and limitless freedom. This is the fundamental shift which will occur in all souls to render a new awakening to immortality and timelessness. Those unfortunate in the awakening shall have to await another experience of this kind in a place and time not yet rendered.

The sequence is in fact non sequential for it shall be upon you like a heaving storm and the winds of change can be either destructive through perception, as those unprepared take new abode out of flesh; or constructive as those prepared and spiritually ready reap the signature of the Christed One penned on their very soul, as a brand new reality dawns upon their being of who they truly are. The grandeur of the occasion will surpass only itself as the mood of man changes in choice. This is the point when he shall knowingly and willingly choose to ring the bell of God throughout creation and reach within to keep the light of awareness at its highest frequency. The call is out now beloved ones, heed well for I am Metatron and I come through my sister to render this most important decree that the Wave is indeed upon you. Little did she know that this would be the content of this message. Let this be another reminder lest you forget through your ample waiting.

And Lo I say to you than not far yonder is this electricity that will sweep in heaving breaths to depolarise and join in unity the hearts that belong to God the Father that creation may be embraced and feel the persona of divinity clutch at their very being. This experience shall surmount all that you have so far partaken of. The gratitude which you shall experience in your hearts at the time of joining will culminate in an experience of pure love that will forever thereafter be imprinted in the hearts and souls of those who have bequeathed unto the Father that which He has give to them- their very lives in Service. The resonance of His Mighty Presence shall assure hope for humanity. This is the FINAL PHASE . Go to prepare your hearts to receive the white light which will birth you into a new experience, a paradigmatic shift and purposeful accord. This is the time. Heed my words.

I AM Metatron

## AN INTERVAL OF NON-TIME Phoenix Journals

When the universe reaches a point of maximum expansion, a unique phenomenon will take place.

There will be a moment when all laws necessary for the creative maintenance of physical matter and all materializing processes become suspended.

Due to the relative velocities of the various star systems, this event will not be experienced simultaneously in all parts of the universe, but will travel as a wave across the sea of creation.

Existing within this ripple of non-time will be the focused conscious attention of the Creator.

As it passes through the material realms, it will stay and take up residence in all life forms with circuitry capable of mirroring its essence.

This is the moment when the Creator will slip inside Creation; the moment for which we are attempting to prepare you.

This is the much misunderstood "Second Coming of Christianity".

It is the event that primitive civilizations have looked forward to as "the return of the gods".

The Mayans went so far as to pinpoint its actual occurrence in what you would call the year 2011 A.D.

Yet while many of your traditions hint at what is about to transpire, none of them have adequately conveyed the magnitude of impact such an event will have.

Indeed, no single conceptual structure is capable of conveying the enormity of what is soon to take place.

Those familiar with the scriptures of your various peoples should be in position to understand what is occurring for these are the times spoken of.

Yet you must realize that God did not invent the words used in scripture.

He merely arranged them In the order most approximating His meaning.

Further, He only presented them in mental pictures and through the years of translation and deliberate tampering most meaning is distorted and damaged.

What is actually happening requires all of biological life to convey its meaning.

Words can symbolize this but hardly portray it fully enough to stand alone.

If you would know the deepest Truth of scripture, look not to words alone but to the great momentum of spirit within your own soul.

This is where the living history is being made.

In a way that would be impossible for your rational intellect to comprehend, this forthcoming event is human history.

The sum total of all that has happened on your planet is but the shadow cast before.

160

In a very real sense, you have not yet been born.

You are still in an embryonic state.

You have yet to receive the touch of God's total definition.

Through the long years of human history on Earth, your species has been forming the cells that are to comprise the directive aspect of the physical body of the Creator within Creation.

Gestation upon this planet has but set the stage for the emergence of the Planetary Being now taking definite form.

This Planetary Being is actually "who you are".

Has it occurred to you that the mathematical probability of your being here is infinitesimal?

Were you not here, living proof of the impossible, an excellent case could be made for your non-existence--and still can prevail in conceptual reasoning.

Within the framework of law that was of necessity instituted to create and govern these material realms, the existence of biological life would not have been possible, except were it to enter through that one moment when that law was suspended.

Ponder this carefully.

Such is the origin of biology; the fusion of Spirit and Matter.

The impact of this single creative moment is so vast, so far-reaching, that the shock waves sent out before it have given rise to all of the biological life that now exists upon your planet.

You are living in the shadow of an event not yet taken place.

Yet it is you, yourself, under all your layers of false identity that cause this event as you approach ever nearer to the Earth.

From within the context of history, it appears that there has been, on this planet, a progression of increasingly complex life forms evolving toward ever higher levels of consciousness.

It appears that there has been an evolutionary process.

But this is not the case.

What is actually occurring is that the matter of Earth is falling under the influence of your vibrational body.

This influence naturally increases as you draw nearer.

Only when the center of your spirit touches the center of the Earth will Life on this planet be fully manifest in form.

The same Truth can be presented, however, in that it HAS ALREADY OCCURRED LONG PRIOR TO THIS MOMENT AS YOU PERCEIVE IT AND YOU ARE BUT A REENACTMENT OF THAT WHICH WAS COME BEFORE.

This is not difficult to understand.

What you have considered to be history or in other terms, the evolution of the species, is only what you have been able to observe through the distorted medium of a fragmented and quite subjective intelligence, trapped within the past-future orientation of linear time.

From such a perspective, the act of Creation could appear as a progressive, sequential process.

To the extent that you are able to identify with the spirit that gives you consciousness however, it becomes a much simpler matter: you have yet to arrive.

You are still on your way, so to speak.

Sitting there reading these words is only a reflection of your unconscious totality as it prepares to become fully revealed on the day of awakening.

Your real life will begin when the Creator gives you His definition in form.

Within the womb of history, your species has been primarily defined by the Earth-Mother who is helping to prepare the clay.

She is only interested in getting the form arranged according to specification.

Her only knowledge of Spirit is that It brings forth her potential.

161

When the Father's center merges with the center of the Faith, the collectivity of human consciousness will awaken to a unified field identity.

You will be born.

After that, the influence of Matter will not affect your consciousness as dominantly as it did during the historical gestation period.

The Earth will continue to suckle the species, so to speak, for another millennium before you are capable of going off on your own, but even during that period the father's influence will be much greater than it is today.

## LAWS

The Creator has established laws to govern the bonding of energy.

Through these laws of materialization, the physical universe is created and maintained.

In the material realms, these laws are right and proper.

But when they come into relationship with biological life, they begin to behave strangely.

From a perspective of consciousness, they translate into limitation, contraction and ultimately death.

In psychological terms, the laws of materialization have given rise to the ego--a fictitious identity with a sense of fear, vulnerability and a need to protect and defend itself.

Spiritual consciousness should not properly be associated with the forces that govern the bonding of energy.

Their historical juxtaposition came about through the process referred to as "the Fall".

During the period of species preparation, the presence of the materializing influence on levels of consciousness has been unfortunate but not critical.

However, in light of the intensifying vibrations of the creative spirit that is now nearly aligned with the center of your planet, the definitions that have been imposed by matter will no longer be tenable.

The Creator Himself will dispel this planetary restraining influence and henceforth hold all life forms in appropriate expression through the new definitions of His love.

This will be a profound transition for each and every form Identity, a transition of a magnitude you can only begin to suspect.

COULD IT BE A GFNERATION AWAY?

As a collective event, the moment of birth Is still a generation away.

But individually speaking, this event transcends the limits of space and time and Is, In fact, already under way.

Your individual birth will take place at the precise moment in linear time when you stop struggling with your rational fear patterns and let yourself go In the divine dance of inner direction.

You must decide whether you are going to accept the inevitable in a state of love and prepare yourself accordingly. or hold on in fear to the bitter end.

Ultimately these are the only two avenues of response.

By the linear time this event takes place, humanity will be polarized according to these two adaptive patterns.

All will be decidedly in one camp or the other.

EITHER OR--

To those of the human race who have turned themselves in to the will of God, the coming interval of non time will literally expand into eternity.

These individuals will be able to experience a lifetime or many lifetimes, in that eternity, while still retaining the option to return to their physical projections as transformed representatives of the Being of Life on Earth.

162

These will be our coworkers during the period of Planetary Awakening--please, I hope you ones read this very carefully.

Dharma, pause, chela, and reread the above for it is indeed most important to some of you in this early awakening.

Some of you cannot drift upon the currents but rather must come quickly into knowledge.

Others, not so finely tuned to the forces that will be released at that time, will feel great surges of energy, lasting for an indeterminate period.

Some few will experience an intense fear and many, dear ones, shall die.

Everything in physical form at this time, every soul in every kingdom, will feel something, something incredible, something that according to all the laws of physics ever known or ever to be discovered, could never happen.

But there it will be before all senses; an impossible fact, like the babe in the manger, like the unmistakable feeling in your heart, an incredible vibration of Truth and Love, shimmering, scintillating, awakening every nerve, every capillary, every cell of your planetary body.

Whether the individual form identity reading these words right now will be a surviving participant in that event depends upon that with which you identify and how gracefully you are able to align yourself with God's creative definition.

If you can identify with the flow of Life through your essential Planetary Being and release all subjective definitions of who you think you are, you will play your part most joyously in the birthday celebration.

God's definition of you in form is much greater than any you could possibly imagine for yourself.

During this present period of Individual Awakening, the first of the three creative periods, you are being given the opportunity to embrace this true definition as the cornerstone of your existence.

## MORNING OF CREATION

On the morning of Creation, you will recognize the Unified Collective Consciousness of all Humankind as your own true identity.

You will know beyond a shadow of a doubt that you are the bridge between Spirit and Matter, between Creator and Creation, between Life and the forms through which Life flows.

If you release the definitions that Matter has set upon you, this is the definition that the Creator will bestow, the definition of Christ Himself!

Can you see yourself as we of the distant stars do, from the objective vantage point of the ages, with the eyes of the Star Maker Himself?

To us, your entire history appears as but a gesture of sorts.

We see in your passage through the vibrational field of Earth, a gesture that you make, a salute almost, to the energy-retention systems of this particular heavenly body.

This is how you express yourself on this beautiful blue and white world whirling through space as a

wondrously blue-green thing of beauty.

WE HAV COME TO REMIND

YOU OF WHO YOU ARE!

Dharma, allow us to close this segment for ones must be attuned to the material thus far given that they can have concept of that which will come.

163

At this time in your racial experience, most of you are simply not yet ready to enter into a closer working relationship with us but we will prepare you, during the coming years of revolutions of your planet around the Sun for the time when your collective vibrational patterns are such that we can blend with them on a very large scale.

We are still experimenting with various ways and means of accomplishing our task of awakening but with the increasing ease of direct informational exchange, our work within the currents of your history will probably subside.

We hope it will not be necessary to shake you out of your exclusive past-future oriented focus on form through any of the cataclysmic events foretold in your various prophecies.

We will use these if we must in order to protect the biosphere of this planet but if you follow through on the information we are clarifying, there is no reason why we should have to resort to such extreme measures.

Through these transmissions and through many others like them throughout the Earth, we are supplying you with more than enough information to enable you to restore your own equilibrium.

AS WE GO

We are allowing a certain amount of ecological destruction to take place without direct interference because such destruction may help to precipitate a voluntary and cooperative return to a pre-Fall state.

You must come to understand that you structure these things yourself and not of outside doing.

This would be far more meaningful than a return that is forced upon you.

A self-initiated awakening will greatly enhance your ability to restore the Earth's ecological harmony.

Consequently, at this time, we are confining our help as much as is possible to the provision of

information and to the development of conceptual clarity.

Meanwhile, there are many among you who will, as time passes, experience one by one the necessary psychological transformation and enter into a conscious working relationship with those of us in a state of grace.

During this coming period we will be largely occupied with the conceptual education of your species along with pointing out that which you are bringing in your own creation.

You must witness the errors of your creation in order to collectively form perfection and balance in that which you are now creating.

As we move along here in this present cycle, we will be withdrawing our activity on conceptual levels and focus more directly on physical and emotional levels.

This is where the real work needs to be accomplished.

The establishment of a conducive conceptual climate however, is a prerequisite.

As we move along we shall be integrating past, current and future perceptions so that you can look at the patterns in somewhat less confusion.

May we abide together, you and us, that clarity becomes our focus and ability to comprehend is granted through grace of Creator.

It is a joy to share in this wondrous experience upon the waves of the universe.

Salu.

Christ Michael Aton on Optimum Finality

By Jess Anthony

Mar 7, 2011 - 2:14:48 PM

3-6-11

Esu, I'm asking for an update on the probable scenario of what now will happen. Things must be at the optimum point of finality, I realize, but linear thinking makes non-time difficult to grasp. Thank you for what you can say and suggest.

Jess, I'm speaking for Esu tonight. This is Christ Michael Aton, as I am referred to. It is important that I be the one to explain what is happening at the present time. Esu understands what is in process, but my decision has set this latest scenario in motion.

As you mentioned above, I am always waiting for the optimum moment of finality to occur before I allow the release to begin. This means that a maximum amount of spiritual discovery and insight has been reached. We can measure this quantity, not you on Earth. Our goals are different, although at times they mesh with your cause and effect sequences so that the end results are synonymous. We look for the fullest measure of involvement and the maximum amount of experience possible. This extremity allows us to gauge the parameters of any given situation as completely as possible.

This objective view of ongoing situations which affect you on Earth may seem clinical and detached from direct experience. The contrary is true. We understand these situations to the fullest extent possible because we leave no alternatives as possibilities. Everything is tried and experienced.

This approach has been the determining factor in setting and evaluating all our projected deadlines and end dates. We can see the completion of any potential occurrence with all possibilities before we initiate a new activity. We have an awareness of all the possible parameters before we start the process.

What has developed since our last update is the switch of financial authority throughout the globe. Key players have switched their allegiances and are now following the wishes of a new master. For the first time in history a switch is both positive and negative. I can say that because, in this case, the bad is balanced by the good achieved.

This stalemate, in a sense, is a prelude to what is to come. There will be a time soon of non-time. That means that your linear sense will stop, and you will have a fuller awareness of who you are and what your purpose is on Earth and in this universe I have created. This moment of non-time is what many are calling the Wave.

Let me explain this further. In all of creation there is a moment when the Creator bonds fully with his materialized idea. This moment doesn't happen initially, although his spark is present to trigger the beginning of the idea's development as an extension. This process is like a growth, or maturation. A child is not capable of understanding his or her father until he or she has experienced life and has developed a sense of perspective and discernment. At that point the child becomes an adult and can understand what the father has done to make himself a fully matured extension.

This is the same concept that invests all of creation. Everything that is created grows and matures and arrives at an awareness that links the creation fully with the Creator. When that point is reached, the Creator completes the connection and becomes fully bonded with his creation. This is when all stops. Time and measurement are only tools devised to grasp the process of maturation to this moment of bonding. Once that happens, there is no need to measure time as before. The creation knows its place within the Creator's mind and understands that past and future are only constructs to grasp at this understanding before it actually happens.

This explanation is a suggestion of what the Wave will bring. This connection comes from the Creator Source when the time is right in the universes his Creator Sons have built for him. This Wave from Creator Source has been moving through Nebadon, and it finally is reaching this planet and its solar system. We have spoken before of the larger process occurring beyond the scope of Earth's ascension. All is timed to occur as this Wave washes over Earth. The solar system is moved into a higher frequency to prepare for this pure energy from source. Earth is going through its throes of resistance because it must resolve as much imbalance as it can before the Wave reaches here. The depths of negativity and darkness must have finality. They have reached their

limit. There is nothing more the most resistant foes can do that hasn't been done already. Everything now is a repetition of past ideas.

The structure devised by the long-standing resistance has been taken over by another group. The power wielded by the former controllers is falling apart as, one by one, their means of control are lost. Those taking over are deluded in their vision of dominance, however. The tools they have seized will be useless without the power structure set up by those they have overtaken. This is why I say this is a Pyrrhic victory. They have won, but they have lost. By the time they realize they have lost, the Wave will be here to rock the Earth and cause all of creation to realize the true power unleashed by the Creator Source. This will truly set a change in motion.

Events on Earth will continue unraveling and man will continue to realize the extent of his blindness. This finality has been set in motion and will continue until it stops. Only then can the next phase begin. Lest you worry about further delay, this end is now, and the Wave from the Creator Source will be here at the moment when all has collapsed. The universe is a continuum of energy and all is linked. There is only a moment when a new connection occurs that all stops. This is the ultimate point and everything is different after that.

Aton, Creator of Nebadon

Candace: The new power spoken of in here is CHINA/Dragons, who have won the war against the Khazars which is good news in a way, but they themselves want dominion of the planet too.

From Abund@ntHope.net

Candace: for those who read the Bible, This is the Melchizedek that came to Abraham long ago. The Melchizedeks are an order of beings created by the Creator Sons and Daughters of each universe. In Nebadon, they run Melchizedek University which is all the worlds around Salvington, our capital world of Nebadon. Machiventa is our new Planetary Prince, as the old one, Caligastia got "fired." I don't know if his trial has happened or not. Machiventa shares this role with Esu Sananda Immanuel. Machiventa will remain invisible to human eyes for along time, Esu will walk the planet. In the game of the correcting time, we need both. Esu and Nada will bascially recreate many of the lost portions of the Adam and Eve mission, the establishment of earth headquarters and universities etc.

Hazel

### **The New Edition**

By Machiventa Melchizedek and Hazel

The New Edition

thru Hazel

I AM Machiventa Melchizedek and this is one of my rare introductions for I seldom come forth in this direct way to usher in messages. Yet a new awakening is being born into this child who carries the Melchizedek gene. She feels me this morning as a subtle vibration around her auric body. She is being prepared now to take up the Melchizedek torch to carry out and throughout the works of Our order in this physical stream. She aspires to the greatness from which she descends and shall bring forth the teachings of old that the knowledge of light within each through the self of the God conscious ones, shall increase. The approach shall be a direct one through the teaching of inner communion with the force that each is, through the dynamic of the God presence born within every mind.

Light flows within and is stored in a spiritual catchment or reservoir, to be drawn upon by those who can reach it, that they may begin the filtering of that light throughout their entire being to be used in the wake of their alignment with the Divine Will.

The light I speak of is the Christ Light pooled within each in its purest state in readiness for flow. It is the desire of each within to discover their Godliness that will create a vibration and movement of this light and transfer stillness into motion, being the movement of that light in a state of unfolding. The gentle stream will in time become a steady river that will eventually break through limitations to enter into the wider ocean of enlightenment that the chooser becomes fully infiltrated and surrounded by that flow of constant God energy.

Polarity within, through perception , is stemmed and there is a monistic flow through feeling and knowing , which will create a dynamic blend of physical and spiritual until the physical becomes forgotten through the emancipation of the spiritual and all that is left is a feeling of purest energy that is untouchable. Why do I say these things to thee at this time you may ask?

The revelation of Light is about to be at its highest known to you, as you enter a diasporadic period where the inherent energies of darkness shall be polarised from the energies of Light. Many shall

be magnetised toward their inner Light as the impending Wave catapults man in to the throes of God's love and understanding. The calendar is almost at its end and the days as you know it are marked off as you prepare for the Wave of cataclysmic proportions from the universe of non time.

Geography as some of you know it will hold no relevance as you are washed in the entirety of cosmic love and enchantment. The cosmic prism shall reflect throughout the universe as the face of God radiates throughout creation breaking through the barriers of self imposed separation to meld with HIS creation. Many at this point shall find their feet in spirit as a bright new morning breaks in rediscovery and the tones of darkness recede. This is the day that the spirit of man has been awaiting notwithstanding an inability at the human mind level to comprehend or even believe.

This shall be a time of the joining of all beloveds and for those who are in the knowing, shall experience new horizons of unity as the mergence with Divinity strikes the core of their being. Oneness shall be understood through the feeling brought about by the Wave, yet only a few will truly experience the ultimate degree. Yet all will be affected to the degree of their awakening and understanding. This is what WE call "The Great Divine Shift".

The Wave that is now upon thee should be conceptualised as bringing forth a NEW EDITION. The Old Book of earthly existence has forfeited its life span through expiration of time and Divine Ordination. What is going to be introduced is a brand new version which will dispel falsities of the old and introduce the reality of truth. The framework of this new edition shall be the energy of the ONE. The New Book has already been published and is making its way to you now. It is free of charge and almost ready for the experiencing. Prepare yourselves to partake. I leave you with this Truth: Wisdom is the growth of the seed of God awareness into the blossom of God Knowing and Being.

I AM Machiventa Melchizedek and I announce that the Glory of God will soon be amongst thee.

One of the things that is certainly occurring at this time that is exacerbating, making things more intense, making things more emphatic regarding the mental realm, is certainly what you would call the Solar Maximum Cycle.

What we are going to address here are a couple of things which relate to what is happening, not only on the physical level, the biological level, but what is occurring in your Mental body, your Emotional fields, your Etheric fields, and what is even having some impact on the lower astral bodies and/or Light Body. The Emotional body is directly connected through this feeling center and so there is always the potential of feeling a low-level anxiety whenever there is a heightened solar radiation cycle. And when there is an astrological phenomena such as what you are experiencing now with the planet Mercury, which is a "signature" tone for the Mental body. It represents in the Macrocosm, what the Mental body represents within the Earth structure, within your humanness and in your physicalness.

We would begin by bringing your attention to the fact that you have noticed erratic energies, a period of time that you are all going through in which

there seems to be sort of a feeling that your are "slogging" through things. Like you have not been able to move as swiftly or as quickly, or as intensely as you would like to. There are certainly reasons behind this in regard to the Solar Cycles. What you have is a "compression" effect; the compression effect is being felt in the etheric realms, in the astral realms, but it is also being felt very much on the physical level.

What you have here, in terms of what you call science, or what you would call physical sciences, is that every time there is a magnification of the proton wave or the plasma wave that is generated from a Coronal Mass Ejection, it travels the distance to your planet in about 48 to 72 hours. When it impacts, or broadsides the magnetosphere of this world, this planetary system, it distorts the field.

If you can visualize in your own minds what looks like the field that is emitted from a magnet. There is an outpouring of energy at your north magnetic pole and at your south magnetic pole. And out of this streams energy, in a fashion known as a "torus," or as a unified field. It flows out and surrounds the planet for many hundreds of miles out into space, and then gradually it moves back in and coalesces at the southern magnetic pole, and then it forms the center of the magnetic sphere. This is sort of a core, or sheath that the energy runs up through.

So what happens, is when the plasma wave comes in contact with this field, even hundreds of miles, thousands of miles into space, it makes a dent, or impression, or "squeezes" it. Its sort of like what happens when you push on a balloon. When you push on the balloon, the other parts of the balloon sort of expand away from the point where it is being pressed against. When you're moving pressure within the balloon itself, the rest of the balloon changes it's shape. It is no longer a consistent field, a unified field. What happens to the electrons, protons and the nuclei within this field is that they become distorted, their patterns are disrupted and interrupted. What you eventually experience then, within the field, is a disorganized pattern of atomics and subatomics. It takes awhile for the proton and electron flow to realign into their original pattern.

In this disturbed portion of the field, if there are no other things of consideration (that would be life forms, that would be any kind of intelligences, and kind of sentient life) then it is just the disturbance of a field. So, for example, when there is a solar wave or solar wind that disturbs the field of a far distant system, that is just a star, just a protonic field, or what you call nebulae, the energy consciousness of this field is disturbed, but there is no biological life, there is no "dense" life that is having to experience it in any other way. That is much less impactful on an inhabited planet such as Earth.

Now, when you get into a situation where a planet has sentient life on it, when it is holding consciousness of various types, various realms, for indeed within the Earth plane you do not have just what would be called Three Dimensional life, you have Two Dimensional life, you have One Dimensional life, and you have now the impinging and overlapping of Fourth and Fifth Dimensional frequencies. So, within these fields you do have impact every time there is a plasma wave that encounters the physical sphere of the

Earth's magnetic field, and it is compressed and thrown out of its original alignment, all life that is within the magnetic envelope and sphere of this world is affected!

First of all, it is noticed sometimes in your electronics environment as disturbances within those devices which rely on crystal radio wave forms to transmit electrical impulses through the atmosphere in order to communicate such as radio, high-band radio waves, short wave band, etc. The other things that are affected are microwave transmissions of various kinds, cellular phone transmissions, and things that rely on the ionosphere to "bounce" their signals off.

The satellite environment is the next thing that is affected. It is affected directly by the impact of the plasma wave itself, which if it is unprotected will actually destroy circuitry within the satellite itself. But secondarily, it is impacted through the bending of the electro magnetic wave form, so what happens is that communications are disrupted between the surface and the satellite itself. And so it cannot give a clear transmission, data is missing, broadband transmissions are disturbed and so there is distortion on the other end, the receiving end. So, the situation you have here, is that on the physical sciences level there is, first, an impact in the communications environment with regard to transmissions.

The second thing that happens is that you have an impact within the astral or emotional fields. There are beings on your planet, people you know, even yourself, as you would pay attention to it, that would feel the initial x-ray emanations that occur at the time that the coronal mass ejections actually take place. And that feeling or sensitivity (if one is sensitive enough) can be felt seconds after the eruption, after the initial out rushing of energy has occurred from the disturbance. Now, the actual magnetic or plasma wave takes again 48 to 72 hours to coalesce and project itself across the space time continuum and reach your planetary system. One of the things that happens once it hits is that some people will react emotionally at that point in time. They will react with perhaps grieving or they will feel a tension or anxiety. So when you are feeling or sensing these things and you are aware of the cycle that is being reported by your various satellites that are observing the solar activity then you can gauge your level of sensitivity of what you are feeling. Such as a feeling of low grade anxiety or a feeling of sadness, sorrow or agitation or perhaps it is noticed as a feeling of not being yourself. These are things to pay attention to. And then you can look back and see what the activity has been, what has been reported. And see if you are sensitive and acting as an antennae for such activity.

Now, there is no permanent effect or serious concerns that you need to have about these kind emotions. What is happening on the mass-consciousness level by the releasing of this energy, is a purging. So what is happening on the macrocosmic level, some of you are feeling on the microcosmic level. You are feeling a connection to the mass-consciousness and transmuting what they are not feeling at a conscious level. This is similar to what we have addressed before regarding the Kumara function. There are many Kumaras now that have been elected to this transmutational work. Not because they originally came here to do this but because they have signed on during their sleep and dream time to do such work and transmute for the mass-consciousness and for the

planetary memory patterns. And such as it is, it will be felt in the astral and emotional fields.

The other thing that occurs when this happens is that there is a connection, a bleed-through because of the misalignments between the lower four bodies. You may feel or experience this as a physical challenge. There has been a great increase in the number of broken skeletal components within biological species known as human in the last seven to eight weeks. There has been a marked increase, your emergency rooms have been filling up with broken toes, elbows, collar bones and sprains as well, in larger percentages and quantities than have been seen within the same time period in previous cycles, even eleven years ago during the last solar maximum. This is because when the magnetosphere is compressed, it is squished, so to speak, and this impaction can cause people to lose the ability to stay focused within the physical realm and thus cause problems with equilibrium. So, when the solar wave fronts hit the magnetosphere it causes people to feel out of balance, even if they are not consciously aware of it. And it may cause them to fall down easily, or trip or bump into things or cause freak accidents.

The other way this is being transmuted and experienced in the physical body is in various forms of sinus congestion, upper chest and respiratory ailments. There is also a great deal of clearing and imbalance in the lower intestinal tract, and the organs of purification, primarily gall bladder, liver and kidneys. There are also problems in the colon and the lymphatic system. You may see unusual reactions such as swollen glands in the neck, under the arms, and around the thyroid. Also there may be odd swellings around the knees or the groin area. So, these are things to pay attention to in terms of what is happening as a manifestation on the physical level from some of the solar effects.

The other thing that is happening on the physical level and is very noticeable by those who are sensitive, is pressure. Pressure behind the eyes or in the chest, the solar plexus, the base of the spine or the gluteus maximus. There may be complaints of sore spots, aches and pains, etc. These are the result of the body reacting to these wave fronts as they impact and compress the magnetosphere. This has an effect on all the subatoms and atoms of all the physical species on the planet. It is not just humans who are feeling this. The animal kingdom is aware and feeling this impact as well. They are feeling sluggish and tired. This is also something that is being experienced by humans. It is not just your weather, even though your weather is severely impacted by all of this. It is a weather changer. So you are experiencing more and more erratic and bizarre weather.

These patterns will only intensify. So these places that are having 77 degree weather, in the Midwest where it normally is in the 30's and 40's, are wondering what is going on. Spring has been "busting out" anywhere from 60 to 90 days ahead of schedule, depending on the region of the country you are in. In Europe they are not having Spring, they are having late winter in some parts, and they are having accelerated Spring in other parts, although it is very wet. Also in the Southern Hemisphere you are seeing grand high winds accompanied by incredible fires and all kinds of other upsets. The currents in the oceans have also been magnified and changeable in the past few weeks due to the "excessive" solar activity that has been going on. It is only

excessive in terms of your scientist's view. It is normal from our perspective.

One of the things we would have you be aware of is that there are various types of emissions that come with these different eruptions. You have x-ray, which is the lowest class, you will feel the energy from that but it will pass very quickly and it will not actually impact your magnetosphere. The next thing you will feel would be from the coronal mass ejections or CME's. The last is the M-class and X-class. The M-class is very severe but not as severe as X-class. X-class is the equivalent of a five on your tornado scale or a ten on your Richter-scale in terms of earthquake activity. So when you hear anything from NASA or NOAA regarding X-class predictions or the potential for an X-class emission, hang onto your hats and fasten your seat belts, for that will be the most severe time of activity within your magnetosphere.

Now one of the wonderful things on the physical level that you can enjoy from this is that you can see the magnetic charging that is occurring within your atmosphere whenever there is one of these M-class or X-class events. You will see more and more of the incredible sunsets, the incredible skies and the incredible effects of aurora borealis even into these lower latitudes.

So these are one of the wondrous things that you can participate with. And when you have the opportunity to expose your body, to expose your consciousness, to the Light of these, please do so. For it will help you greatly to acclimate what has been transmitted.

We have discussed the emotional, we have discussed the physical, we have discussed some of the planetary species changes as well as the things happening with the weather; what we suggest that you be aware of concerning weather is that you will see things out of kilter. You will see tropical hurricane-type storms happening in the spring rather than the fall. Tornado season could be especially tough through April and May. If you know someone in the Midwest, or you are planning to travel, there we would recommend caution and checking in on what is happening with the solar winds and the solar activity, going into April especially. April is going to be very intense from about the 9th and 10th of the month right through to the end of the month. Things will taper off a little bit around the second week in May but they will kick up again in early June through the rest of the summer before things quiet down.

One of the things that we bring to your attention next, is the mental effect of all of this. What is going on for May is a feeling of sort of slogging through things and having to do things over again and a possible struggle with things. Sometimes there will be a very high energy with an ambition to get things done. And sometimes there will be absolutely not interest and absolute boredom or disgust. What is happening on the mental plane on the macro-cosmic level for the entire planet is the removal of patternings that relate to separation consciousness. Not to enemy patterning, not to lack, not to limitation, but actually to the core level belief that somehow, you and everyone, every being that walks this planet is an island unto themselves. That is the pattern that is addressed here, and it is a difficult one to dislodge. But yet the solar storms are performing their function to do this;

to create a morphogenic field, to create a resonant field, in which this patterning of separation can be released or relieved to some degree in order to allow and to invite in the expanded view or the higher frequencies and resonances of what we call Christ Consciousness. This is the preparation that is bringing everything up to a focal point from May 3rd through the 5th, through the Grand Alignment.

In retrospect, this mental patterning is very, very useful at this time. If you feel disturbed, tired or bored, if you feel in any way like you are losing hope or losing faith, it is the old separation consciousness dislodging; letting go of the old belief that you are unconnected not only from yourself but from everything outside of you. This is the pattern that is being addressed by these energies at this time. It is also, as we mentioned, the last trimester before this birthing process, and as any mother would know, the birthing process is not attendant with out some discomfort, without some kind of aches or pains and a feeling of pregnancy, a feeling of moving energy, of moving the great thing growing within, to move it out and make it manifest. So, the mental field first has to be cleared of all distortions, it has to be re-patterned to its original patterning in order to receive the highest creative impulses to begin the birthing process. This is the labor that is beginning, the little pangs of birthing the new you, the little discomforts and kicking that are happening to you to be rebirthed again in the spring. To be birthed anew.

Now how do you deal with these occurrences? There are different things that can be done to deal with the mental, emotional and physical discomforts. The first thing we will begin with is the physical. One of the things that helps the physical body with any kind of solar storm cycle is magnets and grounding devices. Various types of grounding tools, either using crystals or mental grounding visualizations and techniques. As far as magnetics, there are certain things (magnets) that you have created that will assist the body to stay in it's magnetic resonance. Your field is being bent at the same time in the same way that the planet's magnetosphere is being bent. So when you have that feeling of being wobbly a little off center or out of your body it is the effect of one of these wave fronts. You can use the body magnets that are available to tape onto the body or worn as a bracelet or copper worn as a bracelet or necklace will also help to realign and balance your personal magnet field.

We would recommend highly to carry any items with you, on your person, that help you to ground, be it tourmaline, obsidian, hematite, etc. Any grounding stones that are in harmony with you that work well with you, that would help you to stay centered and grounded are highly recommended. Another technique that will assist, is to stand in your bare feet on grass or soil or dirt for as few as two minutes a day. This will greatly assist you. Especially if you can visualize yourself anchoring your Earth chakra (the Earth Star that is located about six or seven inches below your feet) to the core of the Earth. And anchoring it consciously. Not anchoring your stuff, your Lightbody and everything else down there because that will not assist Mother Earth in her transmutational process but to anchor your physical body. Mother Earth will benefit from feeling the connection with you as well.

Anything that you can do to facilitate this in your daily activities would

be helpful to you to assist in dealing with these impactions of energy. At night when you are sleeping if at all possible orient your bed north to south so that your head is to the north and your feet are to the south. If this is not possible in your current environment then we would suggest that you orient from north to southwest or from east to west. But it is not recommended to have your feet to the north and head to the south. This could be very disruptive to your magnetics. It is best at this time to go with the flow rather than going counter to the flow. This means being in alignment with what is currently the state of the magnetic field of the planet even though its magnetics are dropping.

That drop is also what is causing people to feel this disorientation and causing falls and thus broken bones. We would like to address this additional point regarding the broken bones. The bones are shattering and there is a good reason for this. The bones hold more data than your skin or organs of your body. The bones hold complete astral memories of your Akashic records. So, the bones are where all of the old patterns are stored, therefore whenever you have the breaking of a bone it is usually in response to a pattern that is not being dealt with or is not being owned. So, this actually another benefit. Some people are not dealing with this too well, so they are unconsciously manifesting their unconsciousness through the experience of breaking their bones.

Back to the sleeping orientation, if you do not sleep in this way (north to south) at least spend some time meditating each day lying down with your head to the north. 15 to 20 minutes will be most helpful. Bathing, salt baths are also very helpful, not only for clearing and protecting your energy but they are also very grounding. It is very helpful for your bodies, it soothes them and nurtures them. We would recommend also at this time to expose yourself as much as possible to available sunlight when it is available. This will help you to attune to the plasma waves. It will help you to bring yourself in balance with what is happening in terms of the emanations of the solar disc.

For the emotional level, there are certain stones that would assist you greatly at this time to match resonance and assist you with the magnetics and all that is going on at this time. Primarily citrine will help manifest a resonance with the solar activity and the solar energies, amethyst will be very calming, also chrysoprase to soothe and assist the heart center and for the higher activities the amethyst will do well but watermelon tourmaline will also be highly assistive and calming especially for the first and second chakras. These stones will help you to calm and harmonize the emotional body. Another thing that would be helpful to the emotional body is doing a cleanse of some kind. Not only because it is spring and time for a cleanse but whenever there is a great amount of magnification coming into the planet such as there is now, there is an impetus to let go of density. So when you are feeling a contraction as many of you are feeling at this time, it is always a good harbinger that it is time to expand yourself.

The best way to expand is to drop density, and the density can be dropped very easily by lightening up your diet, which will assist the emotional body. It is a tendency, usually, when one runs a lot of energy to beef up on carbos, to go to starch. We would recommend going the opposite way. We recommend fruits, light dairy, not heavy, such as light yogurts, light

cheeses if you are not vegan. Also, you would do well to eat more greens, more raw foods like seeds and nuts. Just do this temporarily. Save the cheeseburgers and french fries for later and moderate. Go back to baked potatoes instead, but minimal, maybe three or four times every two weeks. Just keep in mind that when you take in sweets, when you take in high stimulus foods (things you burn faster) such as simple carbohydrates, rather than complex carbohydrates and fruit sugars, you are actually throwing your system off. At least for this temporary period of time, at least for the next couple of months, it would not be too good to over-indulge sugars or over-carb. From an energy standpoint you are being stimulated enough. Backing off on the caffeine and going to herbal tea would be good, especially comfrey. Comfrey is a very excellent tea at this time for the emotional body, and it will also aid the physical body and calm things down a little bit. It would also be good to have licorice. licorice root would be excellent.

One of the things that would be helpful for the Mental Body is maintaining clarity by reducing the exposure to your mass media. This will assist you to cut through the "fog". Be very cautious of how much stimulation you give yourself artificially, whether it be through media.TV, things of that nature. Cut down a little bit on the excess stimulus you are getting, whether its from books or handling generator crystals, or playing around with different toys of that kind. Because over-stimulation will only create more confusion. It will only create more of the feeling of low-grade anxiety, or the free-floating, not knowing what your next step is rather than staying in the Now and staying focused. We recommend shortening your meditation times just a bit. Spend less time in the ethers, and a little bit more time here, so you can match the physical body resonance, the emotional body resonance, the mental body resonance.

One of the most important things about the mental body at this time is recognizing the fact, as we have mentioned, that you are losing continuity regarding your separation consciousness. It is a very important thing at this time to mentally connect with other beings through the heart. In other words, be able to express. Even if its gobbledy-gook, even if it comes out like dyslexia (which is especially prevalent during a Mercury retrograde), that you express what is going on in your mind at any particular given point in time with your partners, with your working partners, your friends, with the people that are in your lives. Being able to express in each instant what you've got to say, you've got to get it out. When you do that, take note of your emotional response to it.

So expression at this time is valuable. Its also sometimes difficult to do when there is this much energy impacting you and when have this energy of the Mercury retrograde going on because there is a tendency to want to turn inside, withdraw. We recommend to you the opportunity that is presented by this energy to not withdraw, to not go into separation. For that is the tendency with this releasement, is to isolate yourself even further.

Take the time, call up a friend. Take the time to unburden yourselves, each day, just for a few minutes with somebody. Create a "buddy" system so that you can have someone you can pray with, someone you can talk with, someone you can actually share with about what is going on. Even if its crazy thoughts, crazy stuff. Anything that comes to your mind.

You want to have some way to voice it, some way to express it. If you have no one to connect with in that moment, then sit and write it down. No matter how crazy it sounds, no matter how obtuse or depressing it may sound, or even how joyful it sounds, just write it down. Just get it out of your system or speak it to a friend. Then you will find your emotional body will be less tense, less anxiety-ridden. You will actually free up that energy.

If you find a way to connect with one other person, that is one way to transmute the energy of separation consciousness that is being released on a massive scale beyond what you can even recognize. For this is not impacting just six billion plus souls with physical bodies on this planet. It is impacting many who wander in the lower astral planes, and all the different lower hells and heavens and so forth that are in the Fourth Dimension, that are overlapping and intersecting with you at this time.

So take the time to express, to talk, to commune one with the other. And as two or more are gathered in the Name of the One, then the burden will be lighter, and the joys that are shared will be easier and more fun! The sorrows that are shared will disappear. They will float away, they will not be the big deal it seems to be, because it's inside of you! That is very important "therapy" for the mental body during these times.

Last thing we would like to express is what is happening on the spiritual plane, the spiritual bodies, the ego bodies. There are ego bodies inside spiritual bodies. Make no mistake. You think the ego is the domain of the mental body in the 3rd Dimension alone. The ego exists through all planes, just as you exist through all planes. It is multi-dimensional. There is a Divine Ego as there is a human ego. So what is happening in the spiritual ego stages is that there is a realignment occurring. This is part of the Ascension process. This is part of becoming God in physicality that you are all participating in.

Even those that are currently unconscious and asleep and unaware of the process, they are experiencing it as well, just not as exquisitely, or as excitingly, or as accelerated as you feel it. Part of the reason for this is that you have made a conscious choice. You also have been triggered awake. Every being who is on the so-called "spiritual path" or "ascension awakening" at this time was encoded to awaken at a specific time, in the timeline continuum on this planet. It was not an accident. None of you designed this to be an "accident." There is no accident possible within the Divine Plan. Everything has been planned and foreordained by YOU! You set your own alarm clock, and then you told us to give you the wake up call!

This, then is the time, the next three months. The next 90 days! All of this is "prep" work for graduation to the next level. There's no end to "it." This particular cycle you are in is a grand opportunity to move up into a new octave of expression, manifestation and self-realization that you have not currently experienced, in this cycle. In this lifetime.

You have set the alarm clock, you have received the wake up call, you are proceeding to get dressed and brushing your teeth, and combing the cobwebs out of your hair and out of your mind, and you are moving along the path to

get to work. Now getting to work does not mean drudgery, in this case. It means becoming your dream, experiencing your dream.

### **A Timely Reminder- Metatron**

Quoting: **Nobody in Particular**

Thank You...

This is one of the most beautiful, concise and eloquent renderings of the 'present' Human condition I've read (!)

The Wave is definitely sent its 'tone' and coupled vibration prior to its complete impact and arrival and the entire chain of being's (including Humanity) entry into the REAL LIFE.

Emitted from nowhere, comes from everywhere. Alignment to it vivifies all sensory input and enables a high vigilance in the beauty of stillness...

Thank You So Much...

### **NADI, a visiting Michael Son introduces himself**

By Nadi thru Kibo

Mar 6, 2011 - 7:00:00 AM

Candace: We have visiting Michael Sons who are not yet head of their own universes, visiting us at this time, to observe what is going on here. this is a very important planet in the scheme of things.

The training period for Creator Sons is long. All 700,000 plus some more, have been created, but some do not yet work. They are still students. Some of the younger of the universes here in Orvonton, do not yet have headquarters, like our Salvington, they are not quiet enough yet to begin the building. A few more were created for the new universes forming in the first level of outer space also.

One of those is Andromeda, in which some folks are now colonizing, but it is still to unsettled there to construct the first architectural spheres. Nadi is awaiting his universe, just as CM awaited his in the distant past. And there are the ascending sons in training also for their future roles in universe management, including as Creator Sons.

Please do pay attention to this message, about the trembling and be not surprised about it, should it arrive before Stasis. Some of you have heard it called The Wave.

03052011

**From NADI, a visiting Michael Son:**

When the power and the glory, the sovereignty and dominion, the control and overcontrol of THE ONE, with, through and in His Sovereign and Master Son, Aton of Nebadon, is made manifest upon the entire face of Urantia; When that time, that moment is, there will all things upon and within her face a huge test:

All things will tremble.

I have discussed it with this one over many days and finally he is ready to accept my words in writing and while I, even I, understand why he insists on doing things this way, it is at times...exasperating in that the message could have simply been accepted and delivered. But I was told that he would be this way, wanting always to understand a thing before he delivers it. So I AM taking this small moment to chide him and admonish him and remind him that which he already knows. That acceptance is greater than understanding.

There comes a test for all of you, very soon, though I AM also told that you are all sick of hearing that phrase in any form, still, it must be said. Everything will tremble. Every speck of dirt, every plant, stone, animal, fish, insect and person. Every atom of everything will tremble when the force and the energy of what comes, arrives. The question that must be answered stands as a testimony to your acceptance of the reality of your situation and being and the circumstances thereof.

Those that already know these things and know what is coming and from whence it comes; those that accept the reality of The One in love and adoration and gratitude, will tremble in love and submit to the source of that love.

Those that think they know what these things are and just happen to be wrong, by however many degrees, will have a decision to make. Can they accept a truth greater than any they have ever known with love for the source of that truth and gratitude for the revelation of it; or will they tremble in fear of their, now revealed distance from it?

Those that know, or think they know, but have always been resistant to it for whatever reasons and feel that they know better and in their ignorance and/or selfishness, have acted against it. Can they accept the reality they find themselves in out of love for a better, higher way that has been revealed or will they tremble in fear of the consequences of their actions that now stare them in the face?

Those that don't know and don't care at all will face the same set of circumstances. Can they bring themselves to love the source of this reality and the revelation of it, or will they fall to fear of the outcomes for them and create a war within themselves against it?

Those that know, always knew and did everything they could to be against it, to stall it, to delay it, to circumvent and prevent it, now that the time has come can they submit or shall they perish?

Can they submit out of love, seeing the error of their ways and sincerely desiring a better, higher way of continued life, or shall they submit out of fear, hoping for a chance to live on in any way possible and permissible?

It does not matter who or what you are, or think you are, or think you know, or want. Your reaction at the moment of trembling will tell all and reveal all about you to The One and His Christ Michael Aton, as well as to the myriad spiritual and higher personalities, physical and nonphysical, that are here at present to attend to these things.

All that matters is whether you will tremble out of love or tremble out of fear. There is no choice in the matter, really. You are what you are and that will be revealed for all to see. There will be no deals, no buts or ifs or maybes or stills.....at that moment you will be more your self than you have ever been and some of you might even be surprised at what you reveal to yourselves.

So please, get ready, be prepared to be completely honest with yourself. It really is all for the best. You will all receive the very best and most loving treatment possible. You will all receive the future assignments that are best for you on your journeys in order to reach the state of perfection that has been mandated for you by The Father of All, The Paradise Father.

There is actually and absolutely no need for anyone to be uncreated unless they absolutely and resolutely insist upon it and even then, all measure of time and opportunity to make a better choice shall be made available until it is determined that you have left no hope for yourself. No one wants to see that happen.

But some of us are concerned that so many of you are so firm in your beliefs that any consideration of anything else being greater and true will place you in a state of shock and disbelief that you could possibly have been so wrong about any of it and you will either cover yourselves with more of the same or reduce yourselves to hiding under the covers hoping that it will all go away. It won't. Resistance is not futile by any means. WE are not about that. However, WE unequivocally state that it is counterproductive to the best circumstances of your personal advancement and so I AM here to deliver this message to you in hopes that such scenarios can be avoided as much as possible.

WE understand that many of you have been led to believe that any contact with any galactic race would be detrimental to you and yet you have already been subject to the effects of such negative races and their intentions and actions for many ages. Now, when the lighted races desire to make their presence known, you are being taught and programmed to consider it an evil invasion.

To this WE can only reiterate that the spiritual reality that is indeed, being thrust upon you should be more than evidence enough of our intentions. WE come to you without fear, not so much for ourselves, but without fear for what would be done to you by your dark lords had WE disregarded their threats and manipulative programming upon you and against What We Are. Through Our efforts, the efforts of The Spiritual Hierarchy, The Earth Allies, The Agarthans, The Universal and Superuniversal Governing bodies and the Paradise Mandates concerning the Ascension of Gaia, all that has been dealt with and WE may arrive without fear of such harm being perpetrated upon you. WE only request that you do not act to harm each other.

**WE SERVE THE WILL OF THE ONE AND NO OTHER!**

That will show itself in the reality of the great trembling which all life on Urantia will experience. It is a simple test; Love or fear, acceptance or denial. Understanding will come to you no matter what. The position you find yourself in when that understanding comes, is up to you.

Thank you.

while this isn't a WAVE teaching, I am putting it here anyway. Its from Esu thru Eve. They have been busy and not giving time for updates, he gave in to her request today.

14th march 2011

Esu, can you comment on Japan?

Ok, Eve, short briefing: Japan is very serious. We are sucking off the most of the radioactivity – we are shift working 24 hours a day. We have taken care of the souls who were victims of the tsunami and there is special care for the ones whose bodys were harmed by radioactivity. Japan is an incredible mess of harm and grief.

A catastrophe like that – in a place of such a high population density - is a pure apocalypse. You see the volcanic underground of Japan. This is merely the beginning. We've told you before, how hard Japan could be hit. A chain reaction is likely to follow from this. The whole place is like an open wound right now – and this is in fact – unveiled – a drama when man sees what he has created.

So many of you have signed petitions for stopping that nuclear energy thing. They have not been heard. To build these kind of nuclear plants on volcanic ground makes it even worse. Chernobyl has not been bad enough, so it seems - to turn the tide. The NWO players have placed a big coup by this. Now they are trying to make you believe they had arranged this by Haarp, as a shock and awe scenario. Your internet is already flooded by rage filled indictions and statements, that Haarp had been used to intentionally make a mess out of this. Not so, beloveds.

The Japanese in special have long played with the fire and now their house is literally burning down. WWII – the nuclear bombs falling upon Hiroshima and Nagasaki were not bad enough to prevent them from building these nuclear reactors. Japan is harvesting the grown up seed now, and unfortunately not only Japan.

On the background info of availability and development of free energy and the technology of Tesla in the first half of the last century even, this whole nuclear thing comes out to be the crown of irresponsibility.

And I' sorry, folks, this is merely the beginning. You have now Japan as a building ground of drama and what does mankind do if further building grounds will be added and become manifest?

Hopefully you will cry out for God to help you. I assure you, what we see in Japan is tearing apart our hearts. You have heard about the high number of missing people. It's more, dear ones. And it will get worse. Go on joining your prayers and empathy to this location exposed to the elements of nature, to earth taking back her power, ... keep firmly anchored while things will be adding up furthermore.

Yes, it's true – „it wasn't raining when Noah built the ark“. But now the rain has set in and I hope you have finished your preparations. This is the final rundown. Esu.

3/15/2011 5:27 PM

I have a question or two for you but first let me introduce myself and explain where I am coming from.

I started a thread a couple of months back about meeting a man with blond curly hair during my meditation's here is the thread

[\[link to www.godlikeproductions.com\]](http://www.godlikeproductions.com)

You approached me on the thread with your interpretation of what had happened and to be truthful I was not ready to listen and apologise if I was a little curt.

I have met these beings several times now and I have been told the blond man goes by the name Lord maitreya.

I have been informed that I have cleared over my 51% karma and will ascend.

I have been given the sacred words/prayer to access my akashic records and told I am not allowed to memorize them but must read them verbatim.

This is still all very new and I feel like I am walking about in the dark and do not know which way is up down left or right if you get my drift.

So far I have not been able to access my A.R so here is one of my questions to you, Do I need to be in a deep meditative state to access my A.R?

I am full of questions but for now I will leave it at that and maybe we could build upon this.

Thanks in advance.

Hi "Jay". well I went backed and looked and got a reminder of Freedom Stands who are not posting under that name here any more. I say "are" because it was at least 2 people sharing the account, and a major purpose in the initial posts was to cause problems for me and others of related purpose. So I see there was a lot of posts discouraging you at that time. Religious folks, at least christians, are often brought up to believe that all beings contacting one other than "the holy spirit" are evil, and the Holy Spirit is NOT a person at all, so go figure.

The circuits to this planet have been reopened and many from the higher realms are appearing to help reestablish "contact" with assorted guides and angels and it's all ok and a discerning person would not take advice of a negative nature seriously anyway. If you get told to go do something unconscionable, you would know.

Generally you do have to be in a reasonable meditative state to contact your soul records, but also you will not yet be given some "files" that are "password" protected, if one wants to use the analogy of a computer, because not all can be released at this time yet.

Now don't let anybody tell you Maitreya is the antichrist either because he is NOT, he is wondrous and is the "coming Buddha" for the buddhists amongst other duties. He is very gentle. We just finally started carrying his work on my website, because of the terrible stuff that has been out about him, somebodies in the powers on this planet must be awfully worried about "goodness."

I would suggest you keep right on doing your meditation and tune out what others will tell you against it. The dark ones will feel dark, but then also if one is still frightened of the process, because of lack of knowledge, that which is good can be initially frightening.

You are entering a wondrous time, dive in!

If Maitreya has taken an interest in you, you are in good hands. Go with it! Keep yourself shielded in white light, particularly during meditation but otherwise if you feel the need.

Jay, here are three messages from Maitreya thru Bela on my site. Enjoy. Others reading here will benefit also.

## **Awaken! Rise and Shine**

5/21/10 Maitreya thru Bela

It is The Christ energy through Maitreya wanting to meet closely with each one of you at this time. Place your thoughts with the Christ energy that is you, with Christ Michael, with beloved Esu and your lighted brethren. It is time for humanity to awaken.

The elements will heave, the energies will rise, outworn systems will shatter - and lo, humanity will be shaken from his slumber in these moments that are upon you now. His attention will be swirling with the lost and broken, the new, the unknown, the now of his moment facing God with eyes opened in a manner that that was impossible before - but now - he will see - he will hear - he will know.

And this opening door is a wondrous thing. It will feel perilous, even for those that know what is occurring and why it is occurring. But for the abruptly woken masses - it will feel truly perilous indeed. Each will be taken care of according to what is the ultimate best. Know this. **KNOW THIS.**

Be of the mantle of Christ now and reinforce it with every breath that you may radiate this light greatly to those who have not yet discovered their own. It will be a glorious surprise when many know it for the first time. Glorious indeed. And then they will fell a pull to slide back quickly into a blanket of forgetfulness. It is your light and love that will stabilize the collective human energy to withstand a shaky transformation. Shine on, shine on, shine on! This is your important part to play.

\*\*\*\*\*

## **Stretching Your Consciousness**

Maitreya thru Bela April 15, 2010

Let's chat a bit more now.

My, my, my, how the mighty have fallen! I speak of the very, very dark controllers and their fall - as

if their stony heads rolled right off their cast shoulders while standing at the podium in front of the world for all to see. This will be laid out perfectly for the world to feast on the essence of this grand lesson. Let your hearts flow with unconditional love to all - for they and their organizations are a part of YOU that has been challenged and overcome. Congratulations.

Now, you will notice that I speak of past, future and present things like a moebius loop rather than in a linear time line - for I speak the truth - and it is the truth that time is not a linear thing. So I teach you of this perspective when I speak of it being accomplished, done, or in your near or far future - all in the same sentence. Beg not this question, for I know. And I share this perspective with you now.

You hear reference to "time will end" or "the end times." Words fail - and larger consciousness grows. LIFE does not end! Your linear concept of time is growing to a corrected version of the perception of the moebius strips of now. It is the now - and space - that is looped and folded and twisted and pinched much like your saying "anywhere, anytime." But this is managed. This you will learn about and learn to do. Your great ones such as Tesla tried gifting you with practical technologies based on this same expanded thinking.

Do not labor over words. Instead hear my energy that I assure you reaches you through the vehicle of these messages. You are being stretched. That is my purpose at this time as I prepare, prepare, prepare the way at the point of the plow to Light and Life. Take your honored place beside me and stretch ahead into the new consciousness of ONE.

\*\*\*\*\*

## **TO KNOW - a message from Maitreya**

thru Bela

Yes, let us grow our connection. This is Maitreya.

TO KNOW. That is what you crave. You want to KNOW the TRUTH. You want to KNOW GOD, and then you'll decide whether to serve that truth or not! This is a mighty current that drives you from within. You choose to align your surface current with this under current in different ways over the globe and from individual to individual.

[Ah, NOW! We're cooking! (kidding tone) Just because it feels so strong and you feel its tug does not mean something negative, my dear! Get over it! You will get more and more used to this and will enjoy being "plugged in" to this current so to speak. This is what you need to do to teach through MY voice. Now, relax... Let us continue.]

**BE!**

If you could gain one concept as knowledge that you own, it would be this: to BE! Through this you gain access to the knowledge of the GOD, for you BECOME the central point as I AM, and the circumference of the circle of ALL , THAT at the same time. Then knowledge comes from your beingness through your DIRECT experience of the ONE.

I AM THAT I AM becomes a growing self knowledge, not a belief. You experience and come to know the true LOVE. All else is pseudo pabulum until you are WILLING to experience this. It is not difficult. In fact it is SO simple that we are amazed that some of you sidestep it so routinely. Do not try so hard, be still in this purpose, stop sidestepping, and bingo! You are there, growing your light of knowing. You are connected to God; you are a fragment of God; ah, so you are God?; and you come to KNOW this.

NO religion, however beautifully laid out can do this for you. NO ONE else's carefully laid out discipline can do this for you. There is God and your growing perception of God through the God fragment within you. That's it. Period. Done.

So why is it that you choose the sidestepping of this wonderful truth through religions or man-appointed religious authority? Oh, you make it so hard on yourselves. But you get a real education on the way don't you? You may have even said to your children "It's OK. It can be useful to experience the wrong way as it points to a better way. But now you know, and will make a better choice next time, wont you?."

We watch you grow your light. We send angels to assist you. We point the way time and time and time again. We are patient. We love unconditionally. We see you grow bit by bit, beyond belief into KNOWING and oh, we rejoice. For LIVING this paves the road for the age of LIGHT and LIFE!

This is good for now.

Bela: Love and thanks to you Maitreya.

Maitreya: Love to you.

Oh I have a been shown a grid it looks like an electric field all crisscrossed but I am having problems fully remembering what was explained to me by the old man.

Do you have any idea about what this grid is and why it was being shown to me?

If not fine but like I said I am full of questions and it has taken me months just to build up the courage to openly talk about this stuff and now I cant shut up lol.

With respect to the WAVE, an excerpt from PAPER 44 of UB that helps give one appreciation of the much larger world of sound that exists beyond our comprehension. Hopefully this might help some hear the tonal WAVE sound coming in. For me, it is a high-pitched, chime-like almost crystalline like sound. It is not overwhelming, kind of nice, it is definitely THERE.

#### 44:1 THE CELESTIAL MUSICIANS

44:1.1 With the limited range of mortal hearing, you can hardly conceive of morontia melodies. There is even a material range of beautiful sound unrecognized by the human sense of hearing, not to mention the inconceivable scope of morontia and spirit harmony. Spirit melodies are not material sound waves but spirit pulsations received by the spirits of celestial personalities. There is a vastness of range and a soul of expression, as well as a grandeur of execution, associated with the melody of the spheres, that are wholly beyond human comprehension. I have seen millions of enraptured beings held in sublime ecstasy while the melody of the realm rolled in upon the spirit energy of the celestial circuits. These marvelous melodies can be broadcast to the uttermost parts of a universe.

44:1.2 The celestial musicians are occupied with the production of celestial harmony by the manipulation of the following spirit forces:

1. Spiritual sound —spirit current interruptions.
2. Spiritual light —the control and intensification of the light of the morontia and spiritual realms.
3. Energy impingements —melody produced by the skillful management of the morontia and spirit energies.
4. Color symphonies —melody of morontia color tones; this ranks among the highest accomplishments of the celestial musicians.
5. Harmony of associated spirits —the very arrangement and association of different orders of morontia and spirit beings produce majestic melodies.
6. Melody of thought —the thinking of spiritual thoughts can be so perfected as to burst forth in the melodies of Havona.
7. The music of space —by proper attunement the melodies of other spheres can be picked up on the universe broadcast circuits.

44:1.3 There are over one hundred thousand different modes of sound, color, and energy manipulation, techniques analogous to the human employment of musical instruments. Your ensembles of dancing undoubtedly represent a crude and grotesque attempt of material creatures to approach the celestial harmony of being placement and personality arrangement. The other five forms of morontia melody are unrecognized by the sensory mechanism of material bodies.

44:1.4 Harmony, the music of the seven levels of melodious association, is the one universal code of spirit communication. Music, such as Urantia mortals understand, attains its highest expression in the schools of Jerusem, the system headquarters, where semimaterial beings are taught the harmonies of sound. Mortals do not react to the other forms of morontia melody and celestial harmony.

44:1.5 Appreciation of music on Urantia is both physical and spiritual; and your human musicians have done much to elevate musical taste from the barbarous monotony of your early ancestors to

the higher levels of sound appreciation. The majority of Urantia mortals react to music so largely with the material muscles and so slightly with the mind and spirit; but there has been a steady improvement in musical appreciation for more than thirty-five thousand years.

44:1.6 Tuneful syncopation represents a transition from the musical monotony of primitive man to the expressionful harmony and meaningful melodies of your later-day musicians. These earlier types of rhythm stimulate the reaction of the music-loving sense without entailing the exertion of the higher intellectual powers of harmony appreciation and thus more generally appeal to immature or spiritually indolent individuals.

44:1.7 The best music of Urantia is just a fleeting echo of the magnificent strains heard by the celestial associates of your musicians, who left but snatches of these harmonies of morontia forces on record as the musical melodies of sound harmonics. Spirit-morontia music not infrequently employs all seven modes of expression and reproduction, so that the human mind is tremendously handicapped in any attempt to reduce these melodies of the higher spheres to mere notes of musical sound. Such an effort would be something like endeavoring to reproduce the strains of a great orchestra by means of a single musical instrument.

44:1.8 While you have assembled some beautiful melodies on Urantia, you have not progressed musically nearly so far as many of your neighboring planets in Satania. If Adam and Eve had only survived, then would you have had music in reality; but the gift of harmony, so large in their natures, has been so diluted by strains of unmusical tendencies that only once in a thousand mortal lives is there any great appreciation of harmonics. But be not discouraged; some day a real musician may appear on Urantia, and whole peoples will be enthralled by the magnificent strains of his melodies. One such human being could forever change the course of a whole nation, even the entire civilized world. It is literally true, " melody has power a whole world to transform. " Forever, music will remain the universal language of men, angels, and spirits. Harmony is the speech of Havona.

First thanks Jamesbo for the piece from the UB. You might want to go put in the UB thread too if you haven't already.

OK, her is the latest teaching about the WAVE with Seraphin and Rosie.

### COMPLETE DEMOLITION AND STRETCHING FINGERS

Seraphin through Rosie, 16th March 2011

R: Dearest Seraphin, I hardly know where to start, as I am so full of sadness but also of joy in the knowledge that a new wave of consciousness is on its way. Chile, Haiti, China, New Zealand and now constant large quakes in Japan. Surely there can be no doubt to anyone now that there is SOMETHING BIG GOING ON. Yet for many here in Europe it still feels distant, beyond their reality, beyond their powers of critical assessment – a hazy spectre somewhere on the horizon

which is impossible to influence, separated from self. The magnitude of this does not reach the heart continuously – only for fleeting moments.

Like the immense palaces and state buildings which ruled the empires of Europe, old structures and symbols of power seem to be still visibly in place. But I sense that on the inside, discussions are intense, devising a last desperate attempt to stem an overwhelming incoming tide which will sweep everything away in its path. I recall the Hapsburg Dynasty and Empress Maria Theresia with her 11 daughters, 10 of whom were married off (including Marie-Antoinette) purely to strengthen political power ...

S: Yes, dearest, your thoughts are similar to ours when we consider the grinding of political power machine which is grating in a last desperate attempt to fortify itself in view of the incoming wave. It is not for us to describe this wave or the impact of this “breakdown” in your normality and reality, but rather it is to point out that each one of you will experience this in a different manner. This will be according to your own individual psychological makeup, your spiritual capacity and your ability to connect with others.

The community aspect is highly significant. Even if you are surrounded by helpful and sympathetic people, TO WHAT DEGREE can you confide in them? TO WHAT DEGREE are you able to ask for help? TO WHAT DEGREE are you able to offer help? TO WHAT DEGREE are you able to admit that you are encountering extreme difficulty and TO WHAT DEGREE can you gracefully and gratefully accept advice from others? And – and this is the hardest of all: TO WHAT DEGREE CAN YOU ACCEPT THAT ALL THESE DISASTERS ARE SELF-MADE? TO WHAT DEGREE CAN YOU SAY: I ACCEPT FULL RESPONSIBILITY. THESE ARE OUR FRUITS.

Without this recognition process, there is no chance for change to take place. It will simply mean that you continue on the road to further catastrophe, whether on a personal or collective global level, whether in this life or the next. KNOW THAT THE ROOTS MUST BE EXAMINED AND IN ORDER IF THE WATER NECESSARY FOR THE SUSTENANCE OF THE PLANT IS TO REACH THE DIVIDING CELLS WHICH BRING FORTH THE OUTWARD APPEARANCE OF GROWTH.

And I say: in this sense YOU ARE THE PLANTS, all living beings with an innate desire for nurturing warmth. You wish to stretch and grow your leafy fingers towards the strong spiritual glow which is rapidly approaching. Your soul thirsts for this divine watering. It does not wish to spend a lifetime closetted in the dark cavernous and luxurious mansions of the Hapsburg palaces, surrounded by gold, sacrificing its own flesh and blood (as Maria Theresia did) to keep the same.

And I say IT IS TIME TO GO OUT ONTO THE STREETS, NOT COWER IN DARK COSY CORNERS, AND IT IS TIME TO SPEAK YOUR TRUTH AND RECONNECT TO A HIGHER LEVEL OF AWARENESS. Do not feel dwarfed by towering buildings, important personalities or prodigious names, for they are illusions of grandeur with the intention of binding you as minions to the false desire for riches on earth.

But I say all this will crumble as it has crumbled in the past. There will be no restructuring or repairing, for this will be a completely NEW START, A TABULA RASA. Your structures are so outdated and hardened and soulless and deviant that they require COMPLETE DEMOLITION. This is what you are seeing on a mental and physical level, COMPLETE DEMOLITION OF HARMFUL THOUGHT STRUCTURES and of the physical landscape, resulting finally in the rise of new thought structures and new lands.

In the face of such enormities, know that all the gold in the world cannot bring you comfort, which is a feeling of solidarity with your fellows, this overwhelming and all-consuming desire to serve in love. Do not be blinded by shows of opulence or wealth, for in these end times they have little

meaning. The source of eternal richness and fulfilment lies in the quality of your heart, in the abundance of love given, in the degree of dedication you personally manifest in service to the Divine Source acting in the interests of harmony and peace.

Hello,

There is this idea about attuning/tuning/harmonizing to 'the Wave'/pulse/higher frequencies and vibrations, or being so in disharmony that one kind of shakes apart or goes crazy...

[Nobody in Particular](#)  (OP)

yes attunement is a good word, and this will encourage many to attune who haven't been, but some will not and it will be harder on them. This "tunes" in a sense all the matter of the planet higher. those that are not intune will find the fit uncomfortable.

Hello you,

So there is a high degree of personal choice involved right? That's how it feels anyway, that when we tune out of the outer fluff, we can hear, sense, or feel this, or something like that...

Is that how it feels to you?

Its always personal choice, but many people don't a have about that. They place choice outside themselves. That is what I have such a distaste for around religion. It places choice some place up in those clouds where God seems to live. People don't understand that their FAther Fragment and angels can provide some advice, and they can listen to it, often it's intuition etc on this planet. Even when they do perceive intuition they ignore it much of the time. Other times the answer comes when they wake up, or as "light bulb moments." Religion fails to teach personal choices and responsibilities. I think everyone is going to feel the wave, it will make matter actually tremble, and sadly that will scare a lot of people, because the matter in their bodies will too.

From what I understand it is like God's radar, excuse this term, God says hi, and if you don't answer the call then, in subsecuent waves(is more than one), you will get more full with fear.

In the contrary if you answer the call then you will get more "in-line with God" with every wave in crescendo.

I have been reading your site, and I must say there is some material I like and some I don't, I see previous posts with dates and events, that then never occurred or there was a "change of plans", so I have to ask, I know you cant give a date, but lets say this will occur from here to december 2012, is this correct?

There is always change of plans depending on man's choices. Some things work, others do not and some things are given as a warning as to what could happen, well in advance of when it will happen.

If man would awaken some of these things would not need to happen even. Miracles could occur. And we don't have enough of the star seeds who have awakened to serve and even the ones awakened are lost in all the mess and can't figure it out. very complex. this planet is extremely important as the major seed planet.

I really need a simplified answer....if that is possible. My father died 2/17/11. He was not nor ever full of medication & definitely not prone to any kinds of hysteria. While at his bedside, moments before/at his death, he heard incredible "winds rushing." He kept turning his head, looking to the right & left (I believe he looked for the source). Something I can't explain was an effort to blow "feathers" away from his face/mouth. He was lucid - he was not at all "crazy" & we've so wondered what this experience really was for him. He said, "My God, Dear Jesus," just before his heart stopped. This thread is the first I've read regarding the winds coming in & scalar waves - this makes the most sense of anything I've come across. Any intelligent/helpful info is deeply appreciated!

### **The Sands of Time- Christ Michael**

The element of time cages man in a euphoric state of non awareness. He counts the milliseconds if he must and watches often the clock to direct him in readiness for moments of importance. He cannot fathom that which is of true import for if he did he would utilise his time more productively. His measurement of time is now obscure for he has lost control of it. It is no longer his to measure for I now control this seemingly important facet of his life. All shall enter into a state of timelessness being an interval of non- time. This fast approaching event will be the culminating event which shall usher in the great change, the momentous shift that so many are speaking off.

Time is mans' purchase, poorly used in the endeavour of progress. Yet there has been no real or true progress and time has failed to serve man. Man has become a veritable slave to time which now pinches him for he no longer has time to secure his power as the brewing storm curtails what little time remains. The planet and man is in the midst of great upheaval, the mark of a planetary cycles' end.

By his own hands man has created and will destroy the efficacy of time. His jaundiced approach

bestirs fruitless events and he cannot see that the moments are spent in absolute internal and external mayhem. He fails to use his time in preparation for the 'coming' for he believes that he still controls that which he calls time. It is mans' endearment for control that keeps him bound in regressive states of thinking and will seal his downfall.

WE have warned them dear ones, those whose intransigence is the very rope from which they will seal their fate. They listen not to OUR words. WE have efforted to place out there all manner of warnings but few hear and many ignore. WE the Celestials must now manoeuvre this ship to its next port regardless of the readiness of the masses. For a timetable exist which must be adhered to. Man has been given chances ad infinitum. He must now take responsibility for his actions and choices. I am a compassionate God and the Father, being the Source of All is most compassionate for WE are but ONE. Yet the infestation cannot be allowed to continue lest our innocent ones become infected or defect due to pressures.

What say I to you? Prepare. Know that what impends and now occur on your earth plane is not the wrath of God but the result of mans' continued disobedience. The outplay of events in your world at this time is merely a transference of mans' inability to listen and learn. He is fulfilling the prophecies of the wizen ones that came before.

The purse strings of the controllers are empty now and they must raid the temples of others to secure their position of power in the world. They are likened to flees sucking the blood of the innocent and defenceless. Let them heed these words- WHAT YOU DO SHALL BE DONE UNTO YOU. This law you will not be able to escape from.

Man has plagiarised the stories of the olden civilisations by re-writing the script; for yet again another must come to an end for want of man's integrity, abuse and impoverishment of spirit. I declare here and now that this shall be the last time, for the VOICE has spoken and the righteous and awakened shall be led out of bondage into the land of true life. I am coming to meet you, to seal our union with the remembrance of ME, to take you to a brand new level of understanding. Yes my children light shall shine once again on your planet and the tears will cease to flow. But I must admonish that before this time you will witness the end of the old through destruction and collapse. All that must go will turn to sand and be blown away by the heavy winds of celestial encounter. You are living now in this time. There is no more time left beloveds; for these last days have assumed a speed which portends the end of time as you know it. WATCH THE SAND TIMER AS THE GRAINS BECOME FEWER AND MAN BECOMES DEPRIVED OF TIME.

Every little moment now should be cherished in learning, observing and reuniting with ME from within. Prepare yourselves for ME; for I am coming. I ask that in the remaining season that you hold on tightly to your spirit's anchoring that you may brave the harsh winds and energies around you now. Allow ME to be your effort, your strength and you shall remain standing.

I AM Christ Michael Aton. For those who can discern divinely read these MY words and find the untold message within. The truth WE cannot fully disclose at this time for you WE must preserve.

My seal I place hereto that you may know that I AM ALL AND ONE IN THE TIMELESSNESS THAT IS CREATION .

Salu!

## THE ROOM WITH NO CORNERS

### Message 43: THE ROOM WITH NO CORNERS

Seraphin through Rosie, March 23rd 2011

R: Dearest Seraphin: last night while walking I suddenly stopped to wonder at the stars. A minute later I noticed a movement in the CORNER of my eye. When I looked down again I was shocked to find myself staring straight into the golden eyes of a very large tabby cat, sitting on a doorpost. Corners, and their surprising revelations, seem to be significant for me at the moment. I have found dust, spiders, lost money and old diaries while cleaning out. Frustratingly, one lamp does not work, making one of my dark corners difficult to spring-clean. Presently there seem to be so many dark uninvestigated corners and issues in our world (the dangers of nuclear power, to voice an immediate concern). What I know for certain is that there is always something “unknown” beyond the perimeter of my present vision or perspective. I feel that it is this cleaning of corners which you would like to comment on today...

S: Dearest: it is of utmost importance for everyone at this time to OPEN THEIR EYES AND CLEAN OUT ALL THE CORNERS THEY HAVE BEEN AVOIDING. This is a time of personal and cosmic spring-cleaning. It is as if a very finely meshed net is being pulled systematically through and across your planetary system, through every cell of every person, SIFTING OUT EVERYTHING WHICH IS NOT OF GOD. NOTHING CAN HIDE WHEN IT IS ILLUMINATED BY DIVINE LIGHT.

If you so desire – and this is my greatest wish and highest recommendation – you can examine your corners previous to the arrival of this mantle of light which comes to reap the harvests of seeds sown. This includes not only the state of your immediate physical surroundings but the condition of your minds. WEED OUT ALL SENTIMENTS WHICH YOU STRIVE TO KEEP UNDERCOVER, FOR IF YOU CONTINUE TO HARBOUR THEM, A GREATER FORCE WILL COMPEL THEM TO SURFACE.

This is an appeal to look at everything – without exception – straight in the eye, in full awareness of your surroundings, in full awareness of your concealed thoughts, of your unexpressed resentment and your unexpressed LOVE. Attempt to understand the roots of why you find it difficult to have loving thoughts about any particular person, however horrific their crime appears to be, in the knowledge that you are not yet privy to a further enlightening perspective.

The time for stargazing – drifting away from immediate reality – is over. The more you have drifted, the greater the shock. The more you have failed to investigate, the more appalled or delighted you will be at the results of your investigations. The more you have been asleep, the greater the wake-up call. And if you wait too long, you will not be staring into the eyes of a cute kitten but the eyes of a lion.

So we say to you all: GET YOUR LAMPS WORKING and look eagerly to discover the truth. Do not allow truth to be presented to you conveniently on a plate, always coloured by the same perspective, always flavoured by the same familiar and reassuring condiments, always at the

same temperature for exactly the same tastes. Go beyond the boundaries of the familiar, for this will serve you well. Search the dark corners and you will throw out the cobwebs of neglect and the dust of resignation to discover your inner wealth and the true story of yourselves and of this planet. Retrieve your own biographies and reclaim your divinity, realigning your purpose with the incoming light before it arrives to force open your eyes. Your wellbeing will depend on the degree of your authenticity, and the intensity with which you have searched out your shadow worlds.

And I say THE HIDING GAME IS OVER. Preceed the wave. Purify yourselves to better serve as an instrument of peace. Use these moments to examine your relationships in gentleness, knowing that this process of recognition on all levels in all areas has already begun. We joyfully await its intensification until it is clear to all that paradise is living in eternity in a room with no corners.

this wave does create a new earth, changes the atomic structure etc, but we also have to be involved that, and many of us here from other places, we serve, our bodies because our DNA is a little different to channel new energies into the earth and in addition our works to lift up society etc, as way showers.

Being \* gnieB

User ID: 1189285

Here are some WAVE material:

1997, "The Pillar Of Celestial Fire" Robert Cox. Masters in Veda Studies. His insights transcend the labels.

... This transformation (which is almost upon us), which sometimes is referred to as the Second Coming, Judgement Day, the Descent of Heaven on Earth, the Rapture, etc (Return of the Gods, Interval of Non-Time, Conclusion of the system of things, Armageddon, End of the Cali Yuga) is not due to anything that we as human beings have done in the past, or that we will do in the future. It is an inevitable consequence of certain celestial mechanics that are beyond the reach of human influence. I believe that these mechanics are about to deliver an immense flood of celestial fire or cosmic life force to our planet. When this wave of cosmic life force washes over our planet, everything will be transformed and changed in ways that are almost unimaginable.

Although we cannot alter the inevitability of this transformation, we can change the way in which this transformation will influence us. To survive the wave of celestial fire and flourish in the new Golden Age (reference to yugas) that will dawn in its wake, we must begin to prepare ourselves for it...

Cox assembles a very coherent timeline (from diverse sources) for the arrival of the Wave per the procession of equinoxes (which we are in NOW), Yuga durations etc.

Cassiopeia Transcripts Copyright 1994-2002, Laura Knight-Jadczyk (cobbled together from within 2835 pages of material)

Q: (L, 1/21/95) Okay, ... I want to know what this humming sound is that people are hearing all over this country? ...hearing this intense hummingsound that literally drives them crazy. There was a TV special on about this the other night. What is this humming and where is it coming from?

A: Increased EM waves in preparation for oncoming wave

Q: (L) What is the source of this sound, I mean, where specifically, location-wise, is it coming from?

A: Cosmic.

Q: (L) Okay, it's cosmic; it's not coming from the planet itself.

Q: (L) What is plane convergence?

A: What will happen to earth.

Q: (L) Is this going to happen soon?

A: Yes.

What does this wave consist of?

A: Realm border.... Realm border follows all encompassing energy reality change...

Q: (L) Is this realm border a dimensional boundary?

A: Yes.

Q: (L) When was the last time a realm border crossed as far as the earth is concerned?

A: As you measure, on Earth, 309,000 years ago.

Q: (L) What does this wave consist of in terms of energy?

A: Feeling.

Q: (L) This wave is feeling? It is a wave of emotion?

A: Hyperkinetic sensate.

Q: (L) What does that mean?

A: All.

Q: (L) We don't understand

A: Too complex for this medium.

Q: (L) Recently I read an article about bursts of gamma rays in the upper atmosphere. What are these bursts of gamma rays?

A: Increasing energy with approach of wave.

Q: (L, 11/3/94) What is the generative source?

A: Part of grand cycle.

Q: (L) Is this the cycle understood by the Mayans?

A: They understood partially.

Q: (L) Their calendar extends to 2012... is that accurate as to the time of the realm border change?

A: Close. Still indefinite as you measure time. Lizzies hoping to rule you in 4th density. Closer to 18 years.

Q: (L) Well, why is all this activity happening now?

A: The grand cycle is about to close presenting a unique opportunity.

Q: (L) Does this mean that this is a unique opportunity to change the future?

A: Future, past and present.

Q: (L) So, do realm borders have something to do with location?

A: Realm borders ride waves.

Q: (L) And where do these waves come from?

A: They constantly cycle.

Q: (L) Does it have something to do with the movement of the planet earth into it or does it move onto us?

A: Either or.

Q: (L, 11/24/94) Can you tell us about this recent volcanic eruption? What was the cause?

A: "Heating up" of earth.

Q: (L) What is causing it to heat up?

A: Vibrational frequency changes.

Q: (L) What is the source of these vibrational frequency changes?

A: Oncoming wave as we have told you before.

Q: (L) This oncoming wave, is this a wave which is so large or so vast that its effects are felt many years in advance of its absolute arrival point?

A: All waves in nature have a "contract" phase.

Q: (L) Does that mean like just before a wave comes up on shore it kind of sucks everything out?

A: Yes.

Q: (L) So we are in the sucking back phase [demonstrates with hand motion and sound effects.]

A: Cute analogy.

Q: (L) You have told us through this source, that there is a cluster of comets connected in some interactive way with our solar system, and that this cluster of comets comes into the plane of the ecliptic every 3600 years. Is this correct?

A: Yes. But, this time it is riding realm border wave to 4th level, where all realities are different.

Q: (L) Okay, so the cluster of comets is riding the realm border wave. Does this mean that when it comes into the solar system, that its effect on the solar system, or the planets within the solar system,

(J\*\* or us), may or may not be mitigated by the fact of this transition? Is this a mitigating factor?

A: Will be mitigated.

Q: (L) When the energy changes to 4th density, and you have already told us that people who are moving to 4th density when the transition occurs, that they will move into 4th density, go through some kind of rejuvenation process, grow new teeth, or whatever, what happens to those people who are not moving to 4th density, and who are totally unaware of it? Are they taken along on the wave by, in other words, piggy-backed by the ones who are aware and already changing in frequency, or are they going to be somewhere else doing something else?

A: Step by step.

Q: (T) In other words, we are looking at the fact that what's coming this time is a wave that's going to allow the human race to move to 4th density?

A: And the planet and your entire sector of space/time.

Q: (T) Is that what this whole plan is about, then, if I may be so bold as to include all of us here in this. We, of the beings of light who have come here into human form, to anchor the frequency, is this what we are anchoring it for, for this wave, so that when it comes enough of us will be ready, the frequency will be set, so that the change in the planet can take place as it has been planned?

A: Yes.

Q: (L) When this happens, will we piggy-back all those who are still unaware?

A: Open.

Q: (T) Okay, when the people are talking about the earth changes, when they talk in literal terms about the survivors, and those who are not going to survive, and the destruction and so forth and so on, in 3rd, 4th, 5th level reality we are not talking about the destruction of the planet on 3rd level physical terms, or the loss of 90 per cent of the population on the 3rd level because they died, but because they are going to move to 4th level?

A: Whoa! You are getting "warm."

Q: (T) Okay. So, we are anchoring this. So, when they talk about 90 per cent of the population not surviving, it is not that they are going to die, but that they are going to transform. We are going to go up a level. This is what the whole light thing is all about?

A: Or another possibility is that the physical cataclysms will occur only for those "left behind" on the remaining 3rd level density earth.

Q: (T) Okay, what you are saying, then, is that we are anchoring the frequency, so that when the wave comes, we move to 4th level density as many people as possible, in order to break the hold the "Dark T-shirts" have got on this planet, those who remain behind will not have enough energy left for the "Dark T-shirts" to bother with the planet any longer. There will be less of them so the planet will be able to refresh and they will be able to move on in their lessons without interference?

A: Close.

Q: (L) At this point of dimensional transition, is what we are doing, anchoring a frequency, are we creating a sort of "super string" network that will literally create another earth in 4th density, which will then exist in 4th density, and the old 3rd density earth -- almost like the splitting of a one celled organism, only in this splitting one half of it moves into another dimension and is energized and quite literally created by the anchoring frequency, while the old one remains and experiences 3rd density reality?

A: Step by step.

Q: (L) Now, as I was starting to say, if, theoretically an individual was to develop in a natural way by making all the proper choices, and was to arrive at the point in time when the major transition is to be made, would that individual's body pass through into that heightened dimension in a physical state? Remember, this is just a theoretical person...

A: Of course.

Q: (L) Now suppose this theoretical person were to pass through this transition to the other side, what state would they find their body in? Would it be exactly as it is now in terms of solidity? What

would be the experience?

A: The key concept here is variability of physicality.

Q: (L) Does this mean that everybody will be different or that an individual will have greater control over the substance and constitution of the body?

A: Not exactly either. Your physicality will be variable according to need and circumstance.

Q: (L) Okay, does this mean that sometimes we will be more of a light body?

A: Close.

this was good material back then. Except its not 4th density. We will always be 2nd density. This is a dimensional change within our density. Some of the whining in those ears was generated by earth technologies, like GWEN etc though. The WAVE itself was not being so perceived then. It is being perceived now.

It does change the vibratory rate of atomic structure on this earth. the biggest bulk will hit during the stasis, and that is what is meant, in the above, that the effects will be mitigated, because we have a different plan for this world. But in the giving of the time given above, you can see what the "FALL" meant. It meant the FALL of the vibration rate and now it's going back UP.

Thanks for finding this, I had considered looking for it, because I even had copy of it on my old desktop which is not operational anymore, and I am not sure if my CD backup would run well on the mac and I don't want to risk viral infection in some way. Did you post the link? I will place this on my webiste.

To the BS flag folks, post it once, I remove the post, post it twice I remove YOU from being able to post. I will NOT tolerate such behavior in my threads. This material is important, it is truth, and the day you begin to shake, and the ground shakes under you and the sky trumpets above YOU, you are going to remember your BS flags.

Hey you!,

I saw this cool video today that was labeled Gravity Wave, but it seemed more atmospheric and does look like a sea wave even:

We already are, but it will be a bit longer as the intensity builds before more will feel it, it is going to get a bit nasty at some point. but that will not last long. I can't give the details yet on the rest of the planning.

hm..9 1/2 yrs ago a sound began inside my head, it was quite loud, sounded like rushing water. wasn't arterial, the rhythm was too erratic.

over the years it changed in various ways, moving from the limbic region to the sides, then to the top and front, becoming smoother and softer, but always the same tone. at this point is it barely discernable and thruout my whole head. maybe what you are saying is what it is, idk. it has gone on 24/7 all this time.

Anonymous Coward

User ID: 1154424

3/24/2011 6:46 PM

guess i could have described the morphing of the sound better. started like rushing water, morphed to sounding like a turbine generator. then to an ohm sound, and now it is kinda like the ohm but so subtle i can't really describe it. and this all started after i made a vow of celibacy to God and all that stuff..

Mine has changed alot over time also. started actually sometime before 2000, but really don't remember. I thought maybe it was tinnitus, having been a nurse back then. but it was different. I had the LOUDEST noise ever in my left ear yesterday, it's one I get which I associate with the earth ripping some place. Usually it's my right ear, but this time it was the left, lasted at least a minute and was just huge. Something is going on, and I fear another very large quake, because although the RIP sound is gone, there is still strange feelings in the ear.

Hey there!

The idea regarding the effects of the waves are interesting.

Also what it may look like to even what it is in essence.

I do wonder if it is Light based, or the wave(length) property in light. Something like this:

[\[link to upload.wikimedia.org\]](#)

Also the thought of beings in a similar, matching, more harmonic levels of frequency, to beings that may be on a disharmonic frequency, or a personal frequency that is at odds, or clashing, against a bigger frequency.

Hello,

This article reminds me of an aspect of your thread's subject:

[\[link to www.universetoday.com\]](#)

"

...**All electromagnetic waves carry some amount of energy**. The rule of thumb is, *the higher the frequency (and the shorter the wavelength), the greater is its energy*. Thus, since UV waves have much shorter wavelengths than visible light (400 nm – 700 nm), they carry more energy.

Subsequently, those with **higher energies have greater capabilities of altering the atoms** on which they are incident on. For example, they are more capable of dislodging electrons. That is why you'll never get a burn when under a fluorescent lamp for 24 hours but you will if you stay out in the sun for even just a couple of hours...

"

Also there are ideas about information in Light, and also light being a factor in DNA on some level, right?

yes, that has a lot to do with being in the photon belt, it has information. And energies now coming

-- AH- Candace GLP #5-1 -- page. 63

from the Milky Way Center for 4 1/2 years now make changes too, the special gamma rays do a lot of DNA remodeling. Even on this planet we are learning to use gamma rays to make changes in plants, and to kill organisms on food. They can kill and they can build up or change. Depends on the intentions and type and how they are used.

REgards photons carrying information, you can observe this in the fiber optic cable that connects you to the internet. Remember the dial up days? Some of you are still stuck with that! The reason dial up is slow, is that the information is carried by electricity, the flow of electrons. Electrons also carry information, but near the quantity of the photon. That is WHY the fiber optic cable works so much better, and of course the size and quantity of cables is also a factor.

While MIND is non physical, you have to store what you KNOW someplace, just like your computer has to store the stuff you put on it on the hard drive.

The ANIMAL mind stores it's knowledge on electrons. An electron is powerful, it can hold **3G's**. POnder that, because your harddrives say, a 240 G drive like I have, would only require 80 electrons! and one day our computers will use this method in fact. BEcause they will be LIVING minds. The functions of the body are complex, and the mind of the body that RUNS the body, thru the so called autonomic nervous system, uses a LOT of electrons. As does your thinking mind.

GOD knowledge is stored on PHOTONS. And some of you having read in the Urantia Book, have learned the term Thought Adjuster. I really more like Father Fragment for that, because that is

what it is. It doesn't adjust your thoughts, it provides you Fatherly advice.

Now the chief feature of the Father Fragment IS the PHOTONS. And as you clear your karma, your electrons collide and form photons, which is how your "light body" is built.

YOUR knowledge goes beyond what the electrons can store. And the Father Fragment brings you a HUGE amount of knowledge of the Father. The thought adjuster as part of the soul also connects to other realms etc. It is multifaceted and also your whole soul structure is multifaceted and one day. Man will scientifically prove the soul and how it works.

So as you ascend, you gradually change your animal mind electrons storage system to god mind photon storage system. By the time you graduate, as an ascending son with an adjuster from your local universe of origin, Neadon for you unless you are visiting from elsewhere, your mind Storage system, is ALL on photons. That is what makes you then a spirit being and you have no use for any part of an animal or morontial body form either. But if you want to work on a place like earth you do have to pick up a body, usually by method of birth. With the body, you all of a sudden have again an electron system that gets programmed by your experiences here, religion, mind control et all.

You have to mostly DROP that one, and use your REAL photon storage mind. That is behind the teaching in new age of getting OUT of your EGO mind. It can take quite a bit of effort to drop it, usually in bits and pieces as you drop the programming here. The lousy DNA and reduced animal brain structure does not encourage that. The newer star seeds are coming in with much better DNA, more strands of it, and thus better brains equipped with more spiritual structures. some are born now with an elementary 3rd lobe, the psychic lobe. Us older ones are growing at this late date, my head has even single suture on it expanding. I have more "baby soft spots" that I had when I was born. I have spreads as much as 2 inches. Be feeling your heads! That is from all the new stuff coming in.

indeed! Much love to all of you other me's out there and blessings on your path. Candace, I know at times this work that you are doing seems like a thankless task.....however, we of the indigenous worlds both past and future do take notice and we watch and pray with you. We feel that you are connecting with the father god of the sun universes and we are holding the ancient earth mother which is now in travail. We see this as a merging of the devine feminine, through our many traditions we have kept and honored our mother and the merging of the father(the suns of god). Take heart and know that we too pray that this linking of the heart and mind of GOD or the two great spirits will be as painless as possible, however, it is not for us to know this now.

Know that at some point into the wave process, there will be an intervening process to reduce the pain when the time is right. thankyou for your lovely post and support! 🌸❤

PS. I had a native american incarnation here in the rocky mountains some place, and my heritage in that regard is in the peoples who used TeePees for housing, which is why I have a strong resonance in that regard with such. I to this day love "camping" in tents, not RV's. I haven't done that for a very long time now, but our most treasured vacations when my children were young were the camping ones, being outdoors all the time and roughing it a bit. We did it both as a vacation and when traveling distances by car, if the weather was ok, camping instead of staying in motel rooms.

Man needs to get back in touch with nature. I go often close to my home where there is a bit of nature anyway, and walk with the coyotes who do not fear me, nor me them. I invite wildlife too into my yard as much as possible and I find it awfully sad that there are much fewer birds than a few years ago. My beloved bluejay family remains however, these ones came down here after the big forest fire some years ago in the mountains, and I make sure I always have the peanuts in the shell they love so much. I can put the nuts out and whistle, I don't whistle very well, but they hear it and know to come. I could just as well telepath them actually and save the lousy whistle.

I have had many memory dreams of my life as an American Indian, and they are always good, as that life was good. The white man had come, and in one of them I am trading furs with some. I assume my tribe made use of the flute, because I very much love wooden flute music. I don't have a recordings, did copy some to a prior computer off the web, but that was lost with the computer death.

Any suggestions here, for good albums?

The following is ~70 years old & pretty strong stuff. It has remarkable "Wave" aspects & prophesies (Ice will melt, etc).

Peter Deunov (Beinsa Douno) 1864-1944  
Esoteric Christianity  
"ERADICATION OF THE OLD"

"A new Wave is coming from out of the Cosmic Space: the Wave of Divine Love. It is also called 'the Wave of Fire'. This Wave has powerful vibrations which not every human being can endure. It has been said, for this reason, that God is an all-consuming Fire. Those who are ready to withstand the vibrations of this Wave and assimilate them will become luminous. Yet for those who cannot bear them, it will be a Fire which will either consume them or will cause them to pass through great suffering. This will prepare them to awaken and receive Love.

This Wave of Love which is coming is also called the Divine Fire. Everything old and impure will burn in it. After man passes through this Divine Fire, the Kingdom of God will come to Earth. I say: when the Fire of Love comes, some people will become luminous; but others will burn, will pass through repentance.

"Today you find yourselves in a great phase of Life. Not too much time will pass before you will find yourselves passing through the Fire. This will be in your lifetime. This Wave of Fire will soon pass over the world and purify it. All human thoughts and desires will pass through this Fire and become purified in the most perfect way. The Great Life will enter you, and you will become transformed. As the smith places the iron in the fire in order to refine it, so too, the Intelligent World will pass us through the Fire so that we can be purified and tempered.

"Those Beings which descend from above say, 'We will turn the earth on its head and will chase the evil away from it.' The evil will not attempt to come near it again.

"The great destruction which occurs today is due to this great Life which comes now. If people do not accept Christ voluntarily, the whole culture will pass through Fire seven times, but in the end, it will be purified and renewed.

"The Wave of Fire will pass through the minds of all people. You all will pass through this Divine Fire; you will free your souls and be liberated from bondage.

"If man does not awaken and arise, all the 'blankets' in which he has wrapped himself will burn. Everything which man has created will burn and turn into ashes and dust. What I am speaking of is the Coming of the Day of the Lord. I say now, 'We are in the Day of the Lord!'

"Only one-half hour remains before the last train leaves. Woe to those who have not yet managed to settle their accounts. If Europe does not correct her past mistakes, great tribulations will come her way.

"The Lord is coming, and He has already set His Foot upon the earth. I can easily prove that He has set foot upon the earth. How? The great suffering which is constantly increasing is the proof that the Lord is coming to this world. Do you know what His decision is? Everything impure is to burn. One has never before seen the dust that will be raised on earth. You have never suspected what great cleansing is coming before the Great Day. Nothing will remain of the European states and of the planning of the European diplomats. Love will destroy everything old. After that we will start to build. This turbulence among societies, this unrest among those who are in distress, indicates that God permeates everything. All this is linked to the eradication of the karma of humankind which has accumulated for thousands of years. Until all old concepts, thoughts and feelings burn in the Fire of suffering, man cannot enter into the new Life which is due to come now.

"Because for thousands of years man was under the influence of the negative forces, these forces now turn against him. Man has strayed from his right path, and all misfortunes are due to that. People have deviated from many things and for this reason, have remained behind in their development. The Invisible World wants to help them so that they may develop properly. The Invisible World is sending workers with their hammers to work on people's homes. These misfortunes are called 'the unfavorable conditions of life.' With their imprudent way of life, people let loose the evil, and as a result, tribulations come. That which man experiences, and feels hanging heavily over him, is his karma. This is a debt which is due to be paid. In Matthew Chapter 24, the woman who was 'taken' has paid her karma, she is free of any debt. On the other hand, the woman who was 'left' has not yet eliminated her karma. And so, the present events indicate the paying off of an old debt: the eradication of karma. An acceleration in the eradication of the past error of humankind is taking place at present - everything that has accumulated is being eradicated.

"In the fall, all old leaves fall whether they want to or not. Only new buds which will produce new branches in the coming spring - only new leaves and flowers - remain on the trees. The beauty of life is in the changes. After a storm, the weather clears. The present events are like a storm: they will pass. Everything that occurs is for the better. We think that the present order is good, but God is weary of the transgressions which people commit.

"The karma of the European nations is already ripe and creates tribulations for the whole of humankind. The tribulations indicate that man must change his way of life and apply the Divine Teaching. The Jews did not accept the Teachings of Christ, and tribulations came upon them. The Christian nations did not apply Christ's Teaching, and the present tribulations came. The present troubles come because man did not accept voluntarily and with an awakened consciousness to fulfill the Will of God. Even greater disturbances - external as well as internal - will come in order for man to awaken and fulfill the Will of God. to serve God. This will be forced upon humankind.

"Modern culture is in its departure. The new culture is coming, and its application in life will begin. The Invisible World has decided to teach modern civilized people a lesson which they will remember for a thousand years. The Scripture says, 'The Wrath of God will come upon the sons of disobedience.' In other words, the Potter will break up the imperfect pots."

On another occasion, the Master said:

"The whole earth at present is undergoing a great change, a reconstruction. This will continue until its forces become balanced. The earth will undergo disturbances. There exist ways to predict in which region of the planet the greatest turbulence will occur.

"All of Europe, the entire earth is in turmoil. The entire world is in disarray. Be not afraid. In such times of trouble, people will come to know God: will come to understand that He is that Great Intelligent Power which turns all things to good. You must remain calm and peaceful and know that the times in which you live are most favorable.

"All of Europe will pass through unimaginable trials. Modern Europeans have built a dam on the river which one day will collapse. Therefore, whoever is above the town should search for refuge in the mountain, and whoever is at the low level must run for higher ground. I speak symbolically.

"People ask what will become of them in the future. Imagine that you live on the North Pole where everything is ice. Your homes are made of ice: nowhere can you see water. I say to you that you need to take some precautionary measures because the earth will undergo great changes. The sun will start to shine very hot. It will melt the ice: the homes will fall apart, and you will start to sink. You say, 'What bad fortune has come to us.' This is not bad fortune - simply the ice melts.

The same I say to you now: if you do not correct your life, the same will happen to you. I do not say this to frighten you. It is the natural course of life. The Great Wave which comes now breaks up the ice and turns it into water. This is the Great Intelligent Wave that already draws near to the world.

"After these events, human egotism will vanish and people will begin to live freely and as brothers. The time has come for all people to abandon the old way of life.

"The God of whom I speak to you will shake the earth. Only then will you come to understand whether or not I have been speaking the truth. The Scripture says that God will shake the earth and that every living creature will realize that Justice, Truth, Virtue, Love and Wisdom exist. All people throughout the world must know that God is present in the world - and people will come to know this.

"You say, 'We are not prepared yet.' When will you be ready? You say, 'The time has not come yet.' Who told you that the time has not come yet? If you do not follow the Divine, the earth will begin to shake.

"After the earth shakes, after all your guns and cannons are destroyed, you will be asked, 'Will you obey?' You will say, 'Yes, we will obey.' When you observe all these things, you will become wiser. The entire earth will shake with such power that no trace will remain of the present culture. This will take place as based upon the great natural laws. Not one nation in Europe will remain unpunished: the present order and all human lies will vanish.

"Christ has said, 'The sun will darken, the moon will wane, and the stars will fall.' Interpreted, this means that all false human religious beliefs will lose their meaning, all worldly power will be overshadowed, will lose its hold. Therefore the disciples should work to improve themselves: clothe themselves in armor and don helmets in order to withstand this Wave of suffering and trials which man must endure. This armor is Love.

"Many people can learn from their own mistakes. If one tries to speak to them, they will not comprehend. Such people will learn on the path of suffering. The turbulent flow which represents the tribulations and conflicts of humankind will abate by the end of the century. Naturally, the human souls who are more developed will be freed from this flood sooner. The nations are healed through suffering. It is impossible to heal a nation without suffering. It is the only medicine.

"What needs to be corrected will be corrected. What needs to be destroyed will be destroyed. Take advantage of the short time which remains. Now is the time to begin living in harmony with the new Life. The evil has exhausted all the conditions for its existence. It can no longer succeed, and it is retreating - only its dregs have remained. The Light will drive away all the darkness. Owing to the present tribulations, man will awaken. Unless the pure is sifted from the impure, the life of man will be meaningless.

"After these events, the new will immediately gain control of the world. The good times will come. Now it is difficult. We all know that life is hard during the winter. It is easier when the spring comes. It is also easy to live in the summer and the fall. At present, we are coming to the end of the winter.

"When the New comes, violence will no longer exist. Nothing will remain of modern weapons or of modern courts and prisons, as well. The present order will be cast out. God is creating a new World. The old world is giving way to the new.

"When people enter the new Life, they will converse with Angels and with God. How will they

Speak with God? In silence. In silence you will look at the stars, the moon, the sun; and you will be filled with gladness. God is in all of them. You will be joyful for every little stone, plant and animal. God lives in them. You will rejoice in the soft wind, the pure spring: in them is God."

This post has strong 'Wave' & Christian characteristics...

Posted on GLP from Prophet (507633) 1/24/09

Time is short and the Divine Fire will burn hotter than anyone can imagine.

Jesus Christ is the way, the truth, and the life. Soon, everyone will KNOW the truth of this statement.

Vision 1-06-09

In the vision, I was looking at the world from a suspended position. I could see people and areas from a panoramic position and also at times, I saw things close up. The position varied as it did with the scenes and with the messages that I was given to understand by the experiences given to me.

I saw what looked to me like great fiery rain coming from heaven and it came in great drops or elongated streams. It was not like the natural rain that we know of, but it was like spiritually infused living molten lava, a real fire, but it was Living Spirit; the living fiery essence of the Father that was raining down towards the inhabitants below.

As I watched, I saw that it fell simultaneously in one great event all over the earth. But it did not fall everywhere, and it did not upon everyone. It rained down suddenly and I saw that many people did see it coming from above as it happened, as it was a real physical event that men could actually experience and see, but it was also a divine event that not all men would experience, but I understood that men would know that God had entered into the corporate natural affairs of men divinely again.

It was not a slow natural event like a storm or a weather phenomenon that you could track, or follow and monitor, actually, from my perspective it looked like a slow unfolding event, but I understood that it actually happened very fast. I was just being given an enhanced view for my understanding and learning.

The raining fire of the Father that I saw falling was the Real Living Essence of the Father Himself that was being released upon those whom He had prepared to receive it below. It was interesting to watch this happen, as it fell upon people whom you would not expect nor think that it would, or even that it would not, by our thinking or reasoning of qualifications.

The fiery rain would come down and fall upon a particular person who would be either aware of it falling or not be aware of it falling at that particular moment, but when it did hit them, they underwent a sudden tremendous change. I watched close up as the living fire seemed to penetrate into them and infuse itself or radiate itself throughout their beings and bodies. They literally became the very same Essence of the Father that the rain was that had fell upon them.

Their eyes burned with a new life and even their skin was changed. It was not like ours now. It had a different texture or spiritual component to its makeup, and the fire flowed throughout their skin like a radiance, but it was not just an outward surface shining, but it was an internal radiance from within the skin layers itself. It was not like human skin as we know it, the qualities had been divinely altered, and the people now had new natures. I did not fully understand all of this process, but it was real and it was new. They were of a different spirit, as they now embodied the divine in such a way that we have yet to experience up to now.

The people who were infused would now physically embody the divine fire, but it also lived through them and it became them as they became it, also. They did not lose their individual personalities

through the process, but each person was still their own unique vessel, but they were also now divinely infused and were more divinely aware of God and understood their earthly purpose now. The fire seemed to fully express itself within them so that it flowed outwardly also by the transformation that was happening to them. By this I mean that there was such a Holiness and a terrible Presence of the Father in them and on them, that you knew that God the Father walked in them, and that He was now walking through them in a manner that we have yet to experience in any generation yet. God was manifesting Himself in a people just like He did with Jesus, when Jesus walked amongst us. But now these people did it openly.

I then watched in the vision from a view further away, and I saw that it indeed only fell upon some and not on upon others. The selection of who it fell upon was the Father's and not of any man. Most of those that I saw that it fell upon were some people were very weary and very embattled people. From earthly standards, we probably wouldn't have thought that they would amount to anything by their current life and their struggles that they have endured. But I understood that their unique trials and their life's struggles that they lived out had actually served to prepared them for this new infusion that now came from the Father.

One man that I saw in particular that received the fiery rain was very emotionally and spiritually broken. He had endured much physical hardship and I understood that he had endured much persecution from the church. He had been misunderstood most of his life and he also had thought that he had failed God and that he had missed God and that he had lost his place. But God used these things in his life to lead him closer to Himself and to purify this man to be able to be one that would become His chosen vessel. He was very beloved by the Lord and he had learned humility through the suffering which caused him to rise above the hardness and the hatred that's in the world, even though he did not understand why his life was this way.

Not every person that I saw was as broken as this man was that had received this infusion, I was just given to notice certain ones for my own learning and for our beneficial clarity. Many of the people I saw seemed to be living successful lives and seemed to be spiritually healthy or spiritually active in their walks in spite of the hour in which they lived in. But the common factor that I noticed with them all was that they each had undergone recent trials and they were currently experiencing various levels of spiritual warfare and were in various stages of purging by the Lord in their walks. Most did not understand the full reason why their lives were embattled, nor understand the full plan of God behind it all, but they did seek God in the midst of it all.

Another person I noticed was one that did not receive the divine infusion. But rather, this person watched as others were filled and was angry and yelled at God. One man I saw screamed out that he was one of the servants that had prophesied of it's coming, and had taught on it, so he should be one that received it and that he deserved it. He was angry that the Father did not give it to him. I was afraid as I saw this in the vision, as I knew that his anger was pride and arrogance and that the Father was just in this, for this man's heart was not truly right. I also knew that this man would fall as he did not have the right heart necessary to stand in the next hour and to fulfill his course successfully. He had allowed the pride of position and the pride that comes from being used by God to bring forth revelation from God to others, to cause him to be disqualified and to harden his heart. I feared the Lord as I watched, for I knew that we all stand by Grace, and not one of us can receive anything from God unless we truly believe and unless we truly are fully surrendered to Him in every way.

I divinely understood that it was a matter of the individual's heart before God, and not just on his outward qualifications, knowledge, or training. God walks with each of His People, and He daily leads them on their life's journey, and what they learn throughout their experiences and through their dependence upon God through it, determines their receptiveness or not. God desires that we utterly trust Him, that we utterly love Him, and that we utterly believe Him. Even though we each experience different levels of trials and events in our personal journeys, the lessons are the same for all men. We must each come to a death of our own ego and self life and we must come to a deeper personal knowledge of God and into an intimate relationship with God. Our responses to God in our life's process will determine if we will walk fully with Him or not, and if we will allow Him to change us into what he wants us to be. God sees us all and knows each of our hearts. He

knows who will let Him have His full and complete way in their lives. Even though we might think we have failed Him, because of the severity of our individual paths and trials, and also because we did not understand the process of why we were in the events, the Father knows the depths of what lies deep within each of us.

I watched as others were transformed here and there, and it was also a very shocking event on the earth as it was so sudden and unexpected. It also did not come in the manner in which we had been taught from the church leaders, but it came as it had been ordained from the Father, for this generation. There was worldwide upheaval as the newly infused people began to quickly then be sent out by the Father all over the earth on the Father's business, and the people around them realized that they did not receive what the others had. There was a lot of crying out from people all around also, as this event also produced a huge surge of spiritual searching and even chaos in the church as the people who were not infused questioned the established church leaders of their knowledge of this event and its significance.

I also was given to know that out of those who did not receive the infusion of the Fiery Essence, this did not mean that they were not the Lord's people. It just meant that they had missed the divine release because of their lack of inner spiritual preparation and that they had not fully developed their hearts before God in their relationships in a timely manner for this event. They were still God's children, but they had missed the opportunity to be used in this higher divine manner for the next stages of events that would come upon the earth. There was a great sorrow expressed over this reality, as many of them realized that they did not fully lay hold of the higher call or obtain to the mark that God had set for them all to achieve.

What I did see was that this divine event caused a great sobering wave to spread across the church and also a wave of a great determination to seek God exploded across the church and also across the globe.

Many began to rise up and decide to be purified themselves and they began to sacrifice everything to obey God, but it did not come as a reality in their lives until after these events happened.

Nevertheless, this event served to bring about the corporate awakening and the rising up of the majority of the true Body of Christ across the globe. Many now questioned what they had been spiritually taught by others, and many returned to studying the Word and they began to search it out for themselves. A new respect for the Church began to also spread amongst the Christian people, as they realized the reality of being the Body of Christ, and repentance began to burst forth and a new sense of purpose caused them to not persecute one another, but to see each other as Christ.

This event also brought about much chaos, fear, confusion, and anger amongst the unbelieving Christians, and among the religious, and especially the general world populations. Great persecution also immediately broke out against the divine fire, as many did not understand it and they feared it. The newly infused people of God were not like them anymore, as they had been divinely changed, and this caused much panic and turmoil. But it also caused revival to break out and a great fear of the reality of God to begin to be spread worldwide.

The devil was also greatly enraged as the Divine Essence now was embodied again in the earth, and he no longer had dominion over God's people to prevent them anymore, and a great resistance and opposition and war broke out in many areas as the Divine Light now clashed with the darkness. I saw great upheavals and war in many areas, but also great restorations and great Light begin to spread throughout God's people all across the globe. The Father is in full control of the earthly events, even those to come and He is active in all of the affairs of men.

The vision ended.

Matthew 3:

10 And already the ax is lying at the root of the trees; every tree therefore that does not bear good fruit is cut down and thrown into the fire. 11 I indeed baptize you in (with) water because of repentance [that is, because of your changing your minds for the better, heartily amending your ways, with abhorrence of your past sins]. But He Who is coming after me is mightier than I, Whose sandals I am not worthy or fit to take off or carry; He will baptize you with the Holy Spirit and with

fire. 12 His winnowing fan (shovel, fork) is in His hand, and He will thoroughly clear out and clean His threshing floor and gather and store His wheat in His barn, but the chaff He will burn up with fire that cannot be put out.

Luke 3:

16 John answered them all by saying, I baptize you with water; but He Who is mightier than I is coming, the strap of Whose sandals I am not fit to unfasten. He will baptize you with the Holy Spirit and with fire. 17 His winnowing shovel (fork) is in His hand to thoroughly clear and cleanse His [threshing] floor and to gather the wheat and store it in His granary, but the chaff He will burn with fire that cannot be extinguished.

Matthew 20:

21 And he said unto her, What wilt thou? She saith unto him, Grant that these my two sons may sit, the one on thy right hand, and the other on the left, in thy kingdom. 22 But Jesus answered and said, Ye know not what ye ask. Are ye able to drink of the cup that I shall drink of, and to be baptized with the baptism that I am baptized with? They say unto him, We are able. 23 And he saith unto them, Ye shall drink indeed of my cup, and be baptized with the baptism that I am baptized with: but to sit on my right hand, and on my left, is not mine to give, but it shall be given to them for whom it is prepared of my Father.

Mark 10:

37 They said unto him, Grant unto us that we may sit, one on thy right hand, and the other on thy left hand, in thy glory. 38 But Jesus said unto them, Ye know not what ye ask: can ye drink of the cup that I drink of? and be baptized with the baptism that I am baptized with? 39 And they said unto him, We can. And Jesus said unto them, Ye shall indeed drink of the cup that I drink of; and with the baptism that I am baptized withal shall ye be baptized: 40 But to sit on my right hand and on my left hand is not mine to give; but it shall be given to them for whom it is prepared.

Joel 2:

1 Blow ye the trumpet in Zion, and sound an alarm in my holy mountain: let all the inhabitants of the land tremble: for the day of the LORD cometh, for it is nigh at hand; 2 A day of darkness and of gloominess, a day of clouds and of thick darkness, as the morning spread upon the mountains: a great people and a strong; there hath not been ever the like, neither shall be any more after it, even to the years of many generations.

3 A fire devoureth before them; and behind them a flame burneth: the land is as the garden of Eden before them, and behind them a desolate wilderness; yea, and nothing shall escape them. 4 The appearance of them is as the appearance of horses; and as horsemen, so shall they run. 5 Like the noise of chariots on the tops of mountains shall they leap, like the noise of a flame of fire that devoureth the stubble, as a strong people set in battle array. 6 Before their face the people shall be much pained: all faces shall gather blackness. 7 They shall run like mighty men; they shall climb the wall like men of war; and they shall march every one on his ways, and they shall not break their ranks: 8 Neither shall one thrust another; they shall walk every one in his path: and when they fall upon the sword, they shall not be wounded. 9 They shall run to and fro in the city; they shall run upon the wall, they shall climb up upon the houses; they shall enter in at the windows like a thief.

10 The earth shall quake before them; the heavens shall tremble: the sun and the moon shall be dark, and the stars shall withdraw their shining: 11 And the LORD shall utter his voice before his army: for his camp is very great: for he is strong that executeth his word: for the day of the LORD is great and very terrible; and who can abide it? 12 Therefore also now, saith the LORD, turn ye even to me with all your heart, and with fasting, and with weeping, and with mourning: 13 And rend your heart, and not your garments, and turn unto the LORD your God: for he is gracious and merciful, slow to anger, and of great kindness, and repenteth him of the evil.

14 Who knoweth if he will return and repent, and leave a blessing behind him; even a meat offering and a drink offering unto the LORD your God? 15 Blow the trumpet in Zion, sanctify a fast, call a solemn assembly: 16 Gather the people, sanctify the congregation, assemble the elders,

gather the children, and those that suck the breasts: let the bridegroom go forth of his chamber, and the bride out of her closet.

17 Let the priests, the ministers of the LORD, weep between the porch and the altar, and let them say, Spare thy people, O LORD, and give not thine heritage to reproach, that the heathen should rule over them: wherefore should they say among the people, Where is their God? 18 Then will the LORD be jealous for his land, and pity his people. 19 Yea, the LORD will answer and say unto his people, Behold, I will send you corn, and wine, and oil, and ye shall be satisfied therewith: and I will no more make you a reproach among the heathen:

20 But I will remove far off from you the northern army, and will drive him into a land barren and desolate, with his face toward the east sea, and his hinder part toward the utmost sea, and his stink shall come up, and his ill savour shall come up, because he hath done great things. 21 Fear not, O land; be glad and rejoice: for the LORD will do great things.

22 Be not afraid, ye beasts of the field: for the pastures of the wilderness do spring, for the tree beareth her fruit, the fig tree and the vine do yield their strength. 23 Be glad then, ye children of Zion, and rejoice in the LORD your God: for he hath given you the former rain moderately, and he will cause to come down for you the rain, the former rain, and the latter rain in the first month. 24 And the floors shall be full of wheat, and the vats shall overflow with wine and oil.

25 And I will restore to you the years that the locust hath eaten, the cankerworm, and the caterpillar, and the palmerworm, my great army which I sent among you. 26 And ye shall eat in plenty, and be satisfied, and praise the name of the LORD your God, that hath dealt wondrously with you: and my people shall never be ashamed. 27 And ye shall know that I am in the midst of Israel, and that I am the LORD your God, and none else: and my people shall never be ashamed.

28 And it shall come to pass afterward, that I will pour out my spirit upon all flesh; and your sons and your daughters shall prophesy, your old men shall dream dreams, your young men shall see visions: 29 And also upon the servants and upon the handmaids in those days will I pour out my spirit.

30 And I will shew wonders in the heavens and in the earth, blood, and fire, and pillars of smoke. 31 The sun shall be turned into darkness, and the moon into blood, before the great and terrible day of the LORD come.

32 And it shall come to pass, that whosoever shall call on the name of the LORD shall be delivered: for in mount Zion and in Jerusalem shall be deliverance, as the LORD hath said, and in the remnant whom the LORD shall call.

This apparently describes the 'centerpiece' of all Human history and activity (!) the 'point' of the Wave's purpose. It's the 'end point/starting point' and is one of the warmest, concise and 'belief-system-neutral' renderings I've ever read (although it has a Christian tinge).

The reason for my admiration of 'belief-neutral' is it may 'end-run' the 'self-righteous' (unconscious ego) trap which can always deflect and shunt even the best intended information...

AN INTERVAL OF NON-TIME - 'The Starseed Transmissions' by Ken Carey, Copywrite 1982.

There is another version published in 'The Third Millennium' in chapter 14; 'A Moment of Quantum Awakening' (K Carey). The Phoenix Journals, this almost verbatim, but more 'cryptic'... (The origin debate does not concern me, as the Source of the material -Raphael in Carey's case, Gyeorgos Ceres Hatonn in the Phoenix Journal case would both want the material in the population regardless -in my opinion)

When the universe reaches a point of maximum expansion, a unique phenomenon will take place. There will be a moment when all laws necessary for the creative maintenance of physical matter and all materializing processes become suspended. Due to the relative velocities of the various star systems, the event will not be experienced simultaneously in all parts of the universe, but will travel AS A WAVE across the sea of creation.

Existing within this ripple of non-time will be the focused conscious attention of the Creator. As it passes through the material realms, it will stay and take up residence in all life-forms with circuitry capable of mirroring its essence. This is the moment when the Creator will slip inside creation; the moment we are attempting to prepare you for.

This is the much misunderstood Second Coming of Christianity. It's the event the primitive civilizations have looked forward to as "the return of the gods". The Mayans went so far as to pinpoint its actual occurrence in what you would call the year 2011 A.D. Yet while many of your traditions hint at what is about to transpire, none of them have adequately conveyed the magnitude of impact such an event will have. Indeed, no single conceptual structure is capable of conveying the enormity of what is soon to take place.

Those familiar with the scriptures of your various peoples should be in position to understand what is occurring, for these are the times spoken of. Yet must realize that God did not invent the words used in scripture. He merely arranged them in order most approximating His meaning.

What is actually happening requires all of biological life to convey its meaning.

Words can symbolize this, but hardly portray it fully enough to stand alone. If you would know the deepest truth of scripture, look not to the words alone, but to the great momentum of spirit within your own soul. This is where the living history is being made. In a way that would be impossible for your rational intellect to comprehend, this forthcoming event is human history. The sum total of all that has happened on this planet is but a shadow cast before.

In a very real sense, you have not yet been born. You are still in an embryonic state. You have yet to receive the touch of God's definition. Through the long years of human history, your species has been forming the cells that are to comprise the directive aspect of the physical body of the Creator within Creation. Gestation upon this planet has but set the stage for the emergence of the Planetary Being now taking definite form. This Planetary Being is who you are.

Has it occurred to you that the mathematical probability of your being here is infinitesimal? Were you not here, living proof of the impossible, and excellent case could be made for your non-existence. Within the framework of law that was of necessity instituted to create and govern these material realms, the existence of biological life would not have been possible, except were it to enter through the one moment when that law was suspended. Such is the origin of biology; the fusion of Spirit and Matter. The impact of this single creative moment is so vast, so far-reaching, that the shock waves sent out before it have given rise to all the biological life that now exists upon your planet.

You are living in the shadow of an event not yet taken place. Yet it is you yourself, under all your layers of false identity, that cause this event as you approach ever nearer the Earth. From within

the context of history, it appears that there has been on this planet, a progression of increasingly complex life-forms evolving toward ever higher levels of consciousness. It appears there has been an evolutionary process. But this is not the case. What is actually occurring is that the matter of Earth is falling under this influence of your VIBRATIONAL BODY. This influence naturally increases as you draw nearer. Only when the center of your spirit touches the center of the Earth will life be fully manifest in form.

This should not be so difficult to understand. What you have considered to be history, or in other terms, the evolution of the species, is only what you have been able to observe through the distorted medium of a fragmented and quite subjective intelligence, trapped within the past-future orientation of linear time. For such a perspective, the act of Creation would appear as a progressive, sequential process. To the extent you are able to identify with the spirit that gives you consciousness, however, it becomes much simpler matter: you have yet to arrive. You are still on your way. Sitting here reading these words is only a sleepy reflection of your unconscious totality as it prepares to become fully revealed on the day of awakening.

Your real life will begin when the Creator gives you His definition in form. Within the womb of history, your species has been primarily defined by the Earth-Mother who is helping to prepare the clay. She is only interested in getting the form arranged according to specification. Her only knowledge of Spirit is that it brings forth her potential.

When the Father's center merges with the center of the Earth, the collectivity of human consciousness will awaken to the unified field identity. You will be born. After that, the influence of Matter will not affect your consciousness as dominantly as it did during the historical gestation period. The Earth will continue to suckle the species, so to speak, for another millennium before you are capable of going off on your own, but even during that period the Father's influence will be much greater than it is today.

The Creator has established laws to govern the bonding of energy. Through these laws of materialization, the physical universe is created and maintained. In the material realms, these laws are right and proper. But when they come into relationship with biological life, they begin to behave strangely. From the perspective of consciousness, they translate into limitation, contraction and ultimately death. In psychological terms, the laws of materialization have given rise to the ego - fictitious identity with a sense of fear, vulnerability, and a need to protect and defend itself. Spiritual consciousness should not properly be associated with the forces that govern the bonding of energy.

Their historical juxtaposition came about through the process referred to as the Fall. During the period of species preparation, the presence of the materializing influence on levels of consciousness has been unfortunate, but not critical. However, in light of the intensifying vibrations of the creative spirit that is now nearly aligned with the center of this planet, the definitions that have been imposed by matter will no longer be tenable. The Creator himself will dispel this planetary restraining influence and henceforth hold all life forms in appropriate expression through the new definitions of His Love. This will be a profound transition for each and every form of identity, a transition of a magnitude you can only begin to suspect.

As a collective event, the moment of birth is still a generation away (material you are reading was written in 1982). But individually speaking, this event transcends the limits of space and time and is, in fact, already occurring. Your individual birth will take place at the precise moment in linear time when you stop struggling with your rational fear patterns and let yourself go in the divine dance of inner direction. You must decide whether you are going to accept the inevitable in a state of love and prepare yourself accordingly, or hold on in fear to the bitter end (many on GLP apparently reflect this choice). Ultimately, these are the only two avenues of response. By the

linear time this event takes place, humanity will be polarized according to these two adaptive patterns. All will be decidedly in one camp or the other.

To those of the human race who have tuned themselves in to the will of God, the coming interval of non-time will literally expand into eternity. These individuals will be able to experience a lifetime, or many lifetimes, in that eternity, while still retaining the option to return to their physical projections as transformed representatives of Being of Life on Earth. These will be our co-workers during the period of Planetary Awakening.

Others, not so finely tuned to the forces that will be released at that time, will feel great surges of energy, lasting for an indeterminate period. Some few will experience an intense fear, and many will die. Everything in physical form at this time, every soul in every kingdom, will feel something, something incredible, something that according to all the laws of physics ever known or ever to be discovered, could never happen. But there it will be before all senses; an impossible fact, like the babe in the manger, like the unmistakable feeling in your heart, an incredible vibration of Truth and love, shimmering, scintillating, awakening every nerve, every capillary, every cell of your planetary body (many contributors on GLP have experienced this).

Whether the individual form identity reading these words right now will be a surviving participant in that event depends upon what you identify with, and how gracefully you are able to align yourself with God's creative definition. If you can identify with the flow of life through your essential Planetary Being and release all subjective definitions of who you think you are, you will play your part most joyously in the birthday celebration. God's definition of you in form is much greater than any of you could possibly imagine for yourself. During this present period of Individual Awakening, the first of the three creative periods, you are being given the opportunity to embrace this true definition as the cornerstone of your existence.

On the Morning of Creation, you will recognize the Unified Collective Consciousness of all Humankind as your own true identity. You will know beyond a shadow of a doubt that you are the bridge between Spirit and Matter, between Creator and Creation, between Life and the form through which Life flows. If you release the definitions that Matter has set upon you, this is the definition that the Creator will bestow, the definition of Christ Himself.

Can you see yourself as we of the distant stars do, from the objective vantage point of the ages, with the eyes of Star Maker Himself? To us, your entire history appears as but a gesture. We see in your passage through the vibrational field of Earth, a gesture that you make, a salute almost, to the energy-retention systems of this particular heavenly body. This is how you express yourself on this beautiful blue and white world whirling through space. We have come to remind you who you are.

NIP, don't know if you pinned SILVERHAWK yet, I posted a link here anyway and placed a link to this thread there as well. Hope don't mind the pro-activity.

For those looking for more WAVE-related info, here is one about SILVERHAWK, a sort of Hopi style look at our coming out of the fourth world and into the fifth world (now). I especially like how he describes the following:

**"THE PRIMITITVE PREMISE"** the ultra simplicity of the Children of The Law of One, how

meditation, becoming ever simpler, allows for the all-silent knowing.

"**THE BIRTH OF THE RANGER**" as one who has awakened, remembering his past and realizing his awareness of the universal consciousness.

"**THE REBIRTH OF THE SHAMAN**" The spiritual mechanic/doctor, the reflection of the intent of God or spirit that is an inherent desire in all life and all life forms.

"**THE GAIA MIND**" man's connection to Earth, connection to re-activation process, how are "Modem (monad)" got turned off and how to reconnect.

**SILVERHAWK's The Winds of God, The Resurrection**, is such a good read, recommended as "The alpha-omega medicine itself, that ends the old world and begins the new".

enjoy

I had not pinned it yet, I did look at it and thanked Jamesbo I believe for it, forget now what I posted where. I have not had time to finish the thread, but I was happy to see it, because I had been remembering him, but not his name just a few days ago. Ask and you shall receive is how it goes.

thanks for placing the other material here, it helps to have multiiple viewpoints from other teachers about this. ❤️🌸

I advise you all to keep stocked on what you need, as not could quakes and storms cause problems with distribution, but also people may get awful nasty. feel free to post anything that seems like wave material for study.

I posted it, probably under Giuseppe'ssection because of his interest. I have no idea where it is, sure go ahead. I know another is also under Giuseppe, that is a photon being "dancing" are a get together at an islamic party of some sort. That would be interesting to post too, if you can find it. The cell phone camera used picked it up.

Hi everyone, Here is the ultimate link to the "WAVE" as you see, NASA found it a few years ago. Notice they do not know where it is coming from. [[link to science.nasa.gov](http://link.to.science.nasa.gov)]

Notice also the fast high energy electrons as mentioned in the first post in this thread, from Thoth.

Nope, it's not that long to read, you can do it, I don't need to do cliff notes on everything. REAd THOTH and read NASA and you will see. Doing your own reading and then putting 2 2 together will do more for your own understanding than my cliff notes. You must do some of your own seeking in order to confirm.

it doesn't appear, according at least to the artist's representation, that those are waves. they appear to be beams. also, you described the wave as not having reach us yet. something like "feeling the spray" at this time. consistency is key. im interested in your claims.

What the artist thinks does not matter, the term WAVE is merely a metaphor to describe the process of how it works, and has been common in other literature about the topic. You would not expect NASA to even provide how this will work and the purpose. I posted it because it is about the high energy electrons they found. However, the schematic is in a way ok, because this affects certain folks more than other folks, as to reaction.

I have had constant ringing in my ears for as long as I can remember (I will be 40 in August). Only recently it has started changing pitch. Along with the ringing is this pressure in my head which I normally only get when there are ghosts or spirits present. This pressure seems constant. I need to read up more on your links and threads because I'm not familiar with some of the stuff you write about. I am a Christian and feel that something is happening or about to happen because I can feel it in my energy.

God Bless,

Stacie

*This is a new message regarding the coming wave.*

Time Of Divine Grace by The Hathors thru EsKay  
29/3/2011 - 4.30pm

WE are the group known to you as the Hathors. We are a consciousness of benevolent beings in service to all those currently residing in physical form upon Earth.  
WE come to you this day to inform you of what lies ahead.

There is much that lies in the unconscious of each individual, as well as within you all collectively. This is shortly to be brought to the conscious awareness of each of you with a sharp jolt. Preparation time is effectively over, although many of you have been preparing unconsciously. However, what is about to happen will surely shock most of you. And here WE see the value in being shocked. It is a state that serves to trigger people into both awareness, and if they are open

enough, a state of accelerated growth.

As with your previous life experiences, it is always a question of how you will choose to respond to that which you witness and experience. Perhaps for some it is even to be a time where more growth can and shall occur than at any other time in this and many other physical incarnations. This is to be a time, therefore, of great gifting from those who rule this domain.

[SK: I interrupt the flow to query why in the past from this group consciousness I've sometimes felt what I call a feminine 'flavour' coming through and sometimes a masculine one. Today it's a feminine one.

H: Sometimes WE appear as a feminine 'flavour' to you and sometimes as a masculine one. But it matters not as what motivates us is assisting you ones on earth who are open to receiving our teachings. It matters not that your limited perceptions of physicality and gender associations restrict your perspective about us as WE are ever committed to our service to you. Please take the nub, the kernel of what we offer to you within our messages, rather than become caught up in these limitations.

May we continue?

SK: Please do. Apologies for the diversion.]

H: We would like to add something about that which you call The Wave and are reading about. This event, broken up into numerous smaller events, is to have possibly the most profound impact on humanity than has ever occurred or been witnessed in many, many thousands of your earth years.

For those ready and prepared it is truly to be a time of Divine Grace. A bestowal of blessings, the nature of which cannot be described here as there is little in your current life experience, (conscious) memory or vocabulary to begin to identify, and therefore understand.

Many of you who have spent lifetimes preparing for this time will be exalted beyond their own understanding. This will be an excellent example of their humility and worthy enough reason for their leadership of the many.

Please note that many are to discover their true spiritual beingness for the first time at a conscious level in their lives. This will require some management amidst the mayhem and chaos that abounds around them. When WE say 'management' WE mean of the kind that puts the highest good of both individual and group needs above the needs of all other things at that time. Of course, we do not mean at the expense of yourselves or your own lives. It is important here to separate martyrdom from service and be very clear on the distinction between the two.

Many are to come to the fore during this period with a (re)newed sense of purpose with which to guide others. It is to be said that these ones will provide the best 'teachings' by sharing of their own personal experiences and stories of their own growth. Nothing serves better than both experience and example, in the eyes of others. It will also be in the honest reflecting and sharing of how challenges were overcome in your own lives that will be most honoured by your people.

WE are most honoured to be a part of these proceedings and a conscious interaction will be possible in times to come and when sufficient numbers of you are open to our presence. We say this is to be far sooner than later. But there are experiences humanity will go through between now and then.

WE would like to wrap up by saying all is proceeding according to the unfoldment of great plans. And even though a certain amount of 'disasters' are occurring and will continue to occur for the learning of humanity, it is preferable to perceive these as great opportunities to stretch the consciousness, expand the heart, feed the mind and strengthen the physical form.

In benevolence and service to all upon Earth.

WE are the Hathors.

Note: I asked whether I could change words for variation that were repeated a few words apart or in sentences that followed. But was told there was some type of encoding/activation? that took place with the use of this and it was preferable not to change them.

### **A Message from AA Zadkiel during these tumultuous times.**

Genocide is being committed in all areas of your globe as man capitulates to his warring tendencies. Crimes against humanity and thus God are being inflicted in vain. Let this be your sign that the days of Sodom and Gomorrah be revisited that you may know what to expect. The truth stares at mankind yet the majority remain unmoved by the occurrences before them. Those who have partaken of the vice of war in interest of self shall soon feel the effects upon their very selves. All shall be accounted for.

The rising scale of combat is indicative of the inner disharmony which centres the very earth at this time. What is taking place is merely a mirror of what the earth is feeling. She is rebelling through her movement and so too the suppressed have assumed her energy and rebelling in turn against those who have manacled and controlled them from time immemorial. Discontent weighs heavily in the hearts and minds of men at this every moment and this must be purged, allowed for expression as part of the cleansing in preparation for the 'coming'. Benign energies will soon replace the malignant scourge that has seized at the very womb of the earth for too long and a great release will follow in the wake of spiritual malfeasance and perfidy by those who are the Judas' of spirit. Hope wanes for those who continue their mercenary exploitation of the masses.

Applause will rend the air as the merciful hand of the Creator reaches to unlock the prison gates that His children may find their freedom. The gates of "hell" shall part as the breath of God plots its coordinates to sweep away the vicious cycle of destruction.

You live now in the midst of grave terrestrial turmoil; but such is necessary at this time. All that is distinctly inimical to spiritual culture must now abate before the rising occurs. This is the time of the great divide before the interlude occurs.

Man must learn the ways of spirit and cease to condescend it in favour of his mortal reality. What is taking place at your current level is a natural result of mans' careless treatment of his very being. He must reap the consequences. The lessons face him yet he cannot learn; for he seeks survival at a basic level and cannot honour that which gave him life. He shall learn but his learning shall be in the midst of his suffering which is inevitable. This is not God's decree; this is mans'

chosen path and he must conquer his demons before he can find his spirit. Divine justice caters for all and each shall pass through the purification in his own way.

The quality of mans' way of life is lacking in spiritual measure. There is a gradual awakening within many to a higher level of understanding, yet in most cases this is marginal and insufficient to wrought real change without the assistance of your higher Brethren. The road is now narrow again and what appears to be dark will glow shortly in light as the celestial bulbs pave the way to a new age. There will be of certainty a dynamic retreat to the ten'dre of spirit.

In the awakening spirit lies a flowering bud that must be tended with pure love and allowed to unfold the blossom of its light in a supportive and enhancing environment. Mans' spirit cannot be fostered as it should in the current climate of darkness. This is supremely understood and the reason for the divine intervention at this time. The lowly shall rise in spiritual power and shall be the ones who bear the torch of God and Truth as the time of bondage meets its final hour.

For those who 'know' and for those who follow the truth let your inner fortitude during these final days cast out the residues of infiltrated thinking. Let go of any contaminated thoughts unconsciously harboured throughout the ages. In the wake of the great upheaval tend to thy thoughts and mind and seek purification in readiness to absorb the highest energy that you can. Be ready for the great awakening. Let not your minds or hearts be troubled at the insouciance, poor understanding or short-sightedness of your brothers; for they too shall have their awakening in measure of their readiness, albeit a very surprising and in some cases a rude awakening. We of the Angelic hierarchy applaud you ones who have been able to stay your light amidst the darkened forces and counters from the weak ones. Know that we also show to those asleep the compassion worthy to them, for judgement is from self not from another.

Let love and compassion be your compass at this time and do not yield to frustrated intent for this shall mar your mood and plague your thoughts. This you can ill afford at this time as you prepare for the grandeur of the prominent expected event. Soon you shall rest in the bosom of thy Creator and the fires within your heart and soul shall resume its bounty and you shall be home.

Zadkiel come in the Light of the Creator Son and Source. Enter into the fold where Truth abides and Godliness condenses in the flow of perfection.

Blessings

thru Hazel

Posted by Alexis (on another GLP thread...) Considerable 'Wave' information.  
User ID: 1317613

...

Here is the article I talked about. I do not promote fear, I promote trust, love, laughter, expansion.

Apocalypse is the greek word for revelation. It refers to the end of life in this dimension, the end of the illusion and the complete revelation of our vibrational, multidimensional identity. It is the dissolution and transmutation of the third dimensional vehicles that give a very fragmented and separated experience of life through the illusion of time and space. This dissolution concerns all entities existing in the field of our solar system, including the planets themselves.

Our solar system has been entering in an area that is in alignment with the central sun Sirius of our galaxy. This astrological alignment means that, from now on, our solar system and thus the earth will evolve within fields that are in the influence of a form of Light that is very different from the physical light we all know. It is the Vibrational Light or Fire of the Holy Spirit.

This Light is the constituent of our vibrational, eternal and multidimensional identity. From the perspective of life in this dimension, this identity is known as our Higher Self. Yet it is our only real identity as all identities that we have been identifying with in this dimension were merely dreams in the time/space illusion and disconnected from the essence of Life (Unitary Realms). By essence, our vibrational Self does not know separation. It does not know distance, and sequential time.

Thus it is not subject to the law of action and reaction and karma. This functioning cannot be grasped by our mind that has been shaped and designed to work in the illusion of this time/space matrix. Yet, everybody IS this truth and has the potential to access it through the conscious awareness of the vibration, here and now. As we progress in the accelerated times of apocalypse, more and more people become living witnesses of that vibratory state that reveals itself in the individual ability to transcend the ego mind and surrender to the infinite depth of the present moment.

Positive initiatives now birthing all over the world to improve life on earth and manifest a new paradigm show an evolution of consciousness and the connection with positive feelings in many people. This evolution is a witness of the favorable changes happening in the individual and collective consciousness and energy systems. However, this evolution does not constitute or lead to the nature of the paradigm change brought about by the last stage of apocalypse : the cosmic wave and collective ascension. In other words, the revelation is not only the revelation of the human potential to co-create heaven on earth through healing, protecting, restoring, reconnecting, opening, etc... ; the revelation is not only the understanding of the evil nature of the global matrix created by the so-called civilized society. No, these are only relatively superficial preliminaries to the inconceivable event of the end of third dimensional life on earth.

The gradual increase of the exposure of the vibrational Light on the solar system and on the earth has been called Apocalypse or Revelation because it is the collective revelation of our true essence and of the nature of the illusion we have been trapped into. It is not a revelation that comes as an outside information but as a death of one level of experience of self and a birth of a new level of experience of self. The transmutation involved as a result of the final cosmic wave of vibrational light includes the end of the third dimensional earth as well as the end of our third dimensional bodies. However, this end of our third dimensional vehicles is a far more significant event than another cycle of death and birth.

On one hand, a majority of souls currently present on the earth is not ready for surrendering to the Light. Most of them have let themselves be trapped inside a matrix that superposes itself on top of the 3D time/space matrix and have lost all sense of connection with their divine essence. Immature souls of heavy vibrations will perceive the cosmic wave as an event external from themselves and will believe in themselves as being the victim of a catastrophe. Souls who believe in the cosmic fire as a punishment from the creator will experience it as such. As the intensity of the cosmic fire keeps on increasing exponentially, the support of their contracted vibrations (physical body and physical environment, astral body) will literally dissolve into what is then perceived as nothingness but is in fact too high a frequency for their perceptual ability. Disorientation and the intensified facing of all the suffering and heaviness they carry will ensue. The Judgement is not a punishment from an angry father but refers to the capacity of the consciousness to find vibrational support in the unitary realms and, if not, refers to the direct facing of all the contractions (fears and attachments) carried by the soul with no place to hide. These souls, not yet mature to explore their multidimensionality and intemporality, will have the opportunity to incarnate in this galaxy on other solar systems that are supporting third dimensional life until they are mature enough for ascension.

On the other hand, mature souls will have already faced and surrendered the totality of their fears and attachments before or during apocalypse and, if not yet the case, will be able to surrender the last shadows in the final blast of unitary Light. These souls will already be conscious of their intemporal body of light through direct consciousness of the vibration in the heart and the head as well as through consciousness of the vibrational "I AM" or universal Beingness. The cosmic wave will propel them in the fullness of their Light Body and will free their soul from all remaining ties with third dimensionality. This ascension of a soul into its intemporal Body of Resurrection has happened only very rarely on earth during the last cycle. Yet, the showering of the earth with unitary light is making it easier than ever to reconnect to Beingness and it opening the stage. The cosmic wave will be a very special event as it will be where a high number of individual ascension processes merge into one.

Peak of darkness happens when the light becomes unbearable for the majority of souls that have no way to merge with it and integrate it at the level of their higher chakras. This explains the extremely chaotic state of the world right now that becomes each day more obvious despite desperate efforts by the matrix controlled media to divert the attention of the populace towards political power games, sport and show-business glamour. The climate crisis, violence and wars, economic destruction and inflation, food shortages, increased seismic and volcanic activity, environmental collapse,... that the world is now going through will keep on intensifying until the peak of the cosmic wave transmutes the whole chaos in its light. Personal efforts to improve the situation by trying to lower the amount of suffering that humans go through in this period are useless and represent a waste of energy that would be best used for the personal ascension process. Suffering and intensity is needed to bring the souls that need it to themselves.

Personal efforts to take care of others suffering usually comes from some levels of denial of one's own pain, hidden in unconscious parts of the soul. Allowing the process of apocalypse to play out for the collectivity, including for mother Earth and its mineral, animal and vegetal realms, without feeding old reactive patterns of wanting to feel the victim or the savior is the challenge of many. If you feel the call for ascension, transmuting the reflexes of the dual consciousness that reacts to the dramatic events of the end of times will be a crucial part of your personal process. Indeed, opening up the consciousness to its natural non-dual perspective is a preliminary requisite for reconnecting with our 5th dimensional perceptions. The non-dual perspective inevitably means the letting go and dissolution of all emotions (grief, feeling sorry, anger, fear,...), judgments, interpretations and other reactive patterns. It will sound empty to the illusory personality when in fact, the non-dual perspective opens the space to the absolute fullness of our glorious Body of Beingness.

It is indeed the highest form of contribution to the collective ascension process to take the non dual perspective and focus on surrendering one's own tensions and densities to the light. Standing in pure Beingness, some actions may occur through us, yet, we need to let go of all the identifications that seek to define ourselves through these actions, ideas & thoughts, contributions, sharings and all other movements that occur through time and space in this dissolving matrix. It is necessary for us to let this level of interest and self definition dissolve to open the space to the consciousness of our true, vibrational self as this is the only vehicle that will take us through the coming wave.

Alternative scientific circles are now discovering elements of the multidimensional nature of Self. We can expect that these scientists or others will continue to go through major breakthroughs during the whole apocalypse period. It is nevertheless advisable to remain conscious that explanation and external demonstration is very different from Self-Realization. You can only Know what you ARE. Indeed, the disconnected mind can understand the concepts and this understanding can be used as a convincing factor towards surrender of that mind. Yet, this understanding, however accurate and precise, will not as such help the soul to journey through the cosmic wave. Channeling most of our attention and energy towards intellectual analysis slows the pace of the individual process of surrendering to the vibrational light. Thus, scientific discoveries and realizations are not an end in themselves but merely an optional first step towards surrender for the individuals that might be ready to ascend but are still stuck and identified with their mind. Obsessive need for intellectual understanding of the apocalypse and ascension process are tentatives from the mind to hide soul contractions linked to the need to control, to explain, attachments and fears of letting go completely. We need to realize and recognize that our 3D mind will only grasp a fraction of the universal understanding and that we will naturally and spontaneously reconnect to that universal understanding through full embodiment of our christed, vibrational Body of Beingness, without the intervention of external teachings. Surrender to the light is all that is required. It is easy and ecstatic. Are you listening to the mind that wishes to make you believe otherwise ?

It is to be expected that most of our so-called modern technology will be rendered useless by the vibrational light and astrophysical conditions several weeks or months before the final wave. Most of the infrastructure that currently provides energy, communication, food and transport to the populations will gradually or suddenly lose its functionality. This will represent a blessing rather than a curse and will free up much of the space and energy to be redirected inside in support of the individual ascension process. The intensity of the vibrational light in this period along with global food shortages will make the mature souls realize food as secondary or unnecessary while not any amount of food will be able to bring a sense of relief to the immature souls who will be trying anything to go back to a place of hiding from their unresolved pains. For the sake of your own individual process, don't give much of your attention and energy to the manifestations of the dissolving matrix. Instead, let go of all the traces that matrix imprinted in your soul and turn all your attention towards your center. At the center of your being is the center of the universe and the vibrational light that is showering the earth is coming from that very center. It is both inside and outside of you, yet it becomes one and unique as you discover the essence of Beingness, I AM. True Life is waiting for you there...

Apocalypse is now. Prepare yourself and spend your time wisely by turning the attention inside and allowing the light (consciousness) on all your remaining shadows. No external preparations will help you deal with the wave of Vibrational Light that is currently showering the earth and which intensity will increase drastically and exponentially from today to the final wave, before the end of year 2012. Don't build your house on the sand has never been more applicable than today. Stop building your reality with the help of the personal ego/mind self, even a positive one. Say goodbye to your life circumstances and develop your ability to bless its dissolution. Turn your

attention/energy inwards and let “you” die... This message is not intended to generate fear and attachments but only to uncover these and enlighten them. They are weighing on your experience of life and that of the whole humanity, it is time to allow the consciousness to transcend them and move on.

Our collective ascension is the most beautiful event that can happen to us, and it is happening now. It is quantumly superior to even the transformation of our current 3D world into a place of peace, fairness, co-created beauty and abundance for all. This transformation will not happen and will not need to happen as we will instantly manifest such a world from a very different perspective, in different bodies, on a different planet Earth and in the context of very different physical, chemical and biological rules. The earth we will see will look profoundly different and will not carry the traces of the abuses that have been taking place in this dimension. We will no more know any kind of dependence nor any kind of separation, limit of form, limit of movement or limit of time. Freedom will not only be freedom from the matrix, but the absolutely free exploration of the unified field (the whole creation) as unified consciousness. As crazy as it might sound, you are invited to simply open your heart to the possibility that it might be true...

It is now time to surrender to the light, alone and together. Every individual will express this non-doing, vertical event through different activities and inactivities. Each and every circumstances can be used as a context of surrender and your focused intention will bring about the most supportive context, recognized through heartfelt resonance. You are thus invited by your own heart to design the remaining days of this separated life in a way that supports the reconnection to your own vibrations, as well as their acceleration and expansion. Very soon, we will find ourselves together in Beingness, celebrating the True Life through our pristine, eternal Light Bodies. As unbelievable as it might sound, don't waste your energy believing it or not believing it. Instead, start living this truth now !

I have not read all the above piece yet, by Alexis, but I have to make a little correction. Our central

sun is Alcyone, not Sirius. But otherwise on skimming this looks good. I will re read tomorrow in more detail

the Sirians have however wanted dominion also over this planet, because the anunnaki of Nibiru blew up a sun in that system, and a planetary people were destroyed who lived on the surface of their planet. Their souls were brought to this planet to continue their evolution, and much of this was though Egypt and some of you who really resonant with Egypt, this could be WHY.

It is my understanding that the Anunnaki of Nibiru from the Sirius system originated from The Houses of Avyon (Pleaidians of pure Lyran descent) and Aln (reptilians of Orion descent). What is their relationship to Thiaoouba?

as far as I know, none. Not important anyway except as history which may or may not be covered in the the Urantia Book part 2, some years yet down the road. I know I have read some history from ANu, his version anyway, but I don't want to go look it. We need to forward from where we are now.

I am thinking the wave is beginning to manifest more fully. There are several threads currently where people are complaining on headaches and lots of wierd stuff and pressures of varying sorts the last few days. Yesterday also an unexpected solar storm came in. I never saw it on stereo etc. The bz is down of course from it.

NIP, perhaps you could link to today's threads about this "sound". At least 2 of us heard it LOUD in Portugal and Australia, 2 hours apart.

:)

I saw them. There have been MANY threads of this sort plus what people are sensing and feeling. I think the one in Australia though was heard on the 29 or 30. I did notice the additional posting in that thread today. Here's your post which has the link to the Australian post. I was not sure if that person meant they heard it again today or not.
